Olcott,2015-06-29 Excerpt from The Lure of the Camera The difference

between a ramble and a journey is about the same as that between pleasure and business. When you go anywhere for a serious purpose you make a journey but if you go for pleasure and don't take the pleasure too seriously as many do you only ramble. The sketches in this volume which takes its name from the first chapter are based upon rambles which were for the most part merely incidental excursions made possible by various journeys undertaken for more serious purposes. It has been the practice of the author for many years to carry a camera on his travels so that if chance should take him within easy distance of some place of literary historic or scenic interest he might not miss the opportunity to pursue his favorite avocation. If the reader is asked to make long flights as from Scotland to Italy then back across the Atlantic to New England and thence overland to Wyoming and Arizona he must remember that ramblers take no account of distance or direction. In this case they must take no account of time for these rambles are but the chance happenings that have occurred at intervals in a period of more than a dozen years.
