Lutosławski Studies: Dans la nuit: the themes of death and night in Lutosławski's œuvre Zbigniew Skowron, 2001

Lutoslawski Studies presents for the first time an overview of the great twentieth century composer Witold Lutoslawski's works and his compositional style. Whereas most previous literature on Lutoslawski's music has focussed on disparate or isolated aspects of his compositional technique, this study encompasses areas such as the composer's aesthetics, the evolution of his style and the compositional strategies which apply to broader periods of his creativity. The international team of contributors, including the leading Lutoslawski scholars Steve Stucky, Charles Bodman Rae and Martina Homma, bring to this study the results of recent research, offering a broader approach that links many issues which have been treated selectively in former studies, as well as throwing new light on the essence of the composer's music and the way in which modern and traditional elements co-exist.

Lutoslawski on Music Zbigniew Skowron, 2007-10-29. The writings of twentieth century Polish composer Witold Lutoslawski reveal many important aspects of his approach to music and his viewpoints as an artist and as a man. In *Lutoslawski on Music*, the first full collection of writings by this famous composer, Zbigniew Skowron has amassed an exciting assortment of essays, speeches, lectures and articles, many of which are newly translated in English and previously unpublished. After an introductory autobiography, the writings are grouped in five parts illustrating various aspects of the composer's creativity and discussing musical form, compositional technique and perception. Lutoslawski examines his own works as well as those of other composers and expresses his views on crucial aspects of twentieth century music, including the role of Schoenberg and Debussy and the impact of the western avant-garde of the 1950s. The book also contains Lutoslawski's Artistic Diary, his notebook of ideas written from 1959 to 1984, containing intensely personal reflections that do not appear in his public speeches and writings. Concluding with a select bibliography, this collection will give readers a unique and comprehensive overview of the man and his music, encouraging a full appreciation of Lutoslawski's compositional technique and aesthetic views, as well as his position in the history of twentieth century music.

Awangarda Lisa Cooper Vest, 2020-12-01 In Awangarda Lisa Cooper Vest explores how the Polish postwar musical avant garde framed itself in contrast to its Western European counterparts Rather than a rejection of the past the Polish avant garde movement emerged as a manifestation of national cultural traditions stretching back into the interwar years and even earlier into the nineteenth century Polish composers scholars and political leaders wielded the promise of national progress to broker consensus across generational and ideological divides Together they established an avant garde musical tradition that pushed against the limitations of strict chronological time and instrumentalized discourses of backwardness and forwardness to articulate a Polish road to modernity This is a history that resists Cold War periodization opening up new ways of thinking about nations and nationalism in the second half of the twentieth century
