Transformation in Christ David A. Ackerman, 2019-06-06 Although Paul used language similar to the religions and cultures of his time he had a unique understanding of the mystery of God The once hidden plan of God was revealed and fulfilled in the person of Jesus of Nazareth Saul of Tarsus experienced a fundamental change when he encountered the risen Jesus on the road to Damascus This vision gave him new direction and purpose and profoundly changed his understanding of God s plan for humanity Paul often uses the phrase in Christ or its variations to describe this plan Being in Christ results in transformation into Christ s likeness of holiness and love through the indwelling Holy Spirit Those in Christ form a new community that crosses ethnic barriers is bound together in fellowship with the Triune God and fulfills its purpose of holiness before him Paul s answer to the struggles people face is simple when one is united with Christ by dying to the old self and committing to his supremacy one will find victory over any force opposed to us in this world This book explores one of the most profound claims in the New Testament that demands a response of its readers

Law and Social Movements Michael McCann, 2017-07-05 The work of both socio legal scholars and specialists working in social movements research continues to contribute to our understanding of how law relates to and informs the politics of social movements In the 1990s an important line of new research most of it initiated by those working in the law and society tradition began to bridge the gaps between these two areas of scholarship This work includes new approaches to group legal mobilization politics analysis of the judicial impact on social reform struggles studies of individual legal mobilization in civil disputing and an almost entirely new area of research in cause lawyering It brings together the best of this research introduced by a detailed essay by the editor

Discourses on Corruption Kalpana Kannabiran, Hollstein, Bettina, Florian F Hoffmann, 2021-11-01 Corruption often described as all that is rotten in the modern society has become an increasingly dominant theme in contemporary political discourse one that is related to specific practices concepts and

evaluations that vary across regions cultures spheres of action and disciplines This volume through case studies investigates corruption in the Global South especially India and Brazil and West especially Switzerland to gain a more nuanced view of the phenomenon The chapters in this volume are organized into two loosely structured and overlapping parts the first part consisting of Chapters 2 5 covers conceptual questions related to corruption discourses from different perspectives such as economic ethics social capital theory and literature the second part consisting of Chapters 6 11 details the complexity and diversity of corruption practices within and between countries and regions providing different interpretative frameworks which in turn flow into discourses on corruption

International Law and Society Laura A. Dickinson,2017-11-30 Scholars of international human rights law are largely unfamiliar with law and society scholarship while the study of international human rights has remained at the margins of the law and society movement International Law and Society Empirical Approaches to Human Rights seeks to bridge this gap by presenting the work of a growing number of academics who are adopting a range of empirical approaches to international human rights Drawn from the fields of anthropology sociology political science and law the studies featured in this volume use a variety of qualitative and quantitative methods to analyze core issues of international law and human rights such as compliance the development of norms and the role of social movements

The Individual in International Law Anne Peters,Tom Sparks,2024-02-28 Shifts across the corpus of international law have brought the international legal system into a closer alignment with the interests of the individual This has led to a great and growing interest in the roles and status of individuals in international law and provided new impulses for debate The Individual in International Law is an exploration of

what is described as the humanisation of international law It examines how international law has accommodated individuals and how individual status rights and obligations have become denser and more important in the international legal system Split into two parts the book analyses the humanisation of international law in different historical periods and from various theoretical perspectives The first part focuses on the historical evolution of international law exploring how the interests of individuals have shaped the development of the legal system from antiquity to 1945 providing a counterpoint to State centric readings of international law s history The second part contains theoretical debates critical approaches and interdisciplinary investigations offering perspectives from ius positivism and ius naturalism Marxism TWAIL feminism global law global constitutionalism law and economics and legal anthropology The book aims to stimulate further research on the humanisation and dehumanisation of new fields ranging from the ius contra bellum to climate law The editors introduction and conclusion frame the contributions draw together their findings and address critiques comprehensively Written by a team of acknowledged experts in their fields this volume elucidates how the interests rights obligations and responsibilities of individuals have shaped international norms and regimes and suggests how a reoriented transformative humanism can inform and develop international law in an era of profound ideological ecological and technical challenge This is an open access title It is made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 International licence It is available to read and download as a PDF version on the Oxford Academic platform

Monitoring, Simulation, Prevention and Remediation of Dense and Debris Flows III D. De Wrachien, 2010 Debris and hyper concentrated flows are among the most destructive of all water related disasters They affect both rural and urban areas in a wide range of morphoclimatic environments and in recent years have attracted more and more attention from the scientific and professional communities and concern from the public due to the death toll they claim The increased frequency of these natural hazards coupled with climatic change predictions and urban development suggests that they are set to worsen in the future This book contains the edited versions of the papers presented at the third International conference on Monitoring Simulation Prevention and Remediation of Dense and Debris Flows The Conference brought together engineers scientists and managers from across the globe to discuss the latest scientific advances in the field of dense and hyper concentrated flows as well as to improve models assess risk develop hazard maps based on model results and to design prevention and mitigation measures The papers have been organised into the following sections Debris Flow Modelling Debris Flow Triggering Risk Assessment and Hazard Mitigation Sediment Transport and Debris Flow Monitoring Analysis

Criminal Law in Action Jan J.M. van Dijk, Ch. Haffmans, F. Rüter, J. Schutte, S. Stolwijk, 2023-09-20 *Indigenous Peoples, Customary Law and Human Rights - Why Living Law Matters* Brendan Tobin, 2014-08-27 This highly original work demonstrates the fundamental role of customary law for the realization of Indigenous peoples human rights and for sound national and international legal governance The book reviews the legal status of customary law and its relationship with positive and

natural law from the time of Plato up to the present. It examines its growing recognition in constitutional and international law and its dependence on and at times strained relationship with human rights law. The author analyzes the role of customary law in tribal, national and international governance of Indigenous peoples' lands, resources and cultural heritage. He explores the challenges and opportunities for its recognition by courts and alternative dispute resolution mechanisms, including issues of proof of law and conflicts between customary practices and human rights. He throws light on the richness inherent in legal diversity and key principles of customary law and their influence in legal practice and on emerging notions of intercultural equity and justice. He concludes that Indigenous peoples' rights to their customary legal regimes and states' obligations to respect and recognize customary law in order to secure their human rights are principles of international customary law and as such binding on all states. At a time when the self-determination, land, resources and cultural heritage of Indigenous peoples are increasingly under threat, this accessible book presents the key issues for both legal and non-legal scholars, practitioners, students of human rights and environmental justice and Indigenous peoples themselves.
