 and the Gothic* ,2017-09-15 Wolves lope across Gothic imagination Signs of a pure animality opposed to humanity in the
 figure of the werewolf they become liminal creatures that move between the human and the animal Werewolves function as a
 site for exploring complex anxieties of difference of gender class race space nation or sexuality but the imaginative and

 of human identities and the worldliness and political weight of the Gothic This is the first volume concerned with the

 on representations of werewolves and wolves in literature film television and visual culture the essays investigate the key
