Lydgates Troy I Iii Eets Es 97 103 106:

Imaginings of Time in Lydgate and Hoccleve's Verse Karen Elaine Smyth, 2016-05-13 Using empirical research to explore medieval writers' imaginings of time, this study presents a new morphology by which to study narratives of time in fifteenth-century literary culture, focusing on poems of John Lydgate and Thomas Hoccleve. Karen Smyth begins with an overview of medieval time-keeping devices and considers collective and individual attitudes and perceptions of time. She then examines a range of Middle English authors' appropriations and innovations in relation to such perceptions, identifying competitions of tradition and innovation, allowing for an interrogation of commonly accepted medieval theories of time. An empirically based morphology emerges and is used to examine narratives of time in Lydgate and Hoccleve's work. Through a series of close readings of selected short poems and Lydgate's *Troy Book*, *Fall of Princes*, and *Siege of Thebes*, and of Hoccleve's *Regiments of Princes* and *Series*, Karen Smyth looks at expressions of time and examples of the authors' negotiation of time consciousness, illustrating how both poets manipulate a range of cultural narratives of time in order to create multiple and sometimes competing temporalities within a single poem. Smyth simultaneously draws attention to Lydgate's and Hoccleve's underestimated artistic skills and lays out a means to re-evaluate medieval cultural attitudes towards time. **Chaucerian**

Conflict Marion Turner, 2007 This book offers a completely new reading of Chaucer. While most critics have seen his work as essentially socially optimistic and congenial, Marion Turner argues that Chaucer was profoundly concerned with conflict and social antagonism. Chaucer's texts are examined alongside a wide variety of poetry and historical documents from the period.

The Oxford English Literary History: 1350-1547 : reform and cultural revolution James Simpson, 2002 Ranging from the extraordinary burst of English literary writing under the reign of Richard II to the literature of the Reformation, this title challenges traditional assumptions and argues that the stylistic diversity enjoyed by late medieval writers was curtailed by the authoritarian practice of the 16th-century cultural revolution. **Relics and Writing in Late Medieval England**

Robyn Malo, 2013-12-06 *Relics and Writing in Late Medieval England* uncovers a wide-ranging medieval discourse that had an expansive influence on English literary traditions. Drawing from Latin and vernacular hagiography, miracle stories, relic lists, and architectural history, this study demonstrates that as the shrines of England's major saints underwent dramatic changes from c. 1100 to c. 1538, relic discourse became important not only in constructing the meaning of objects that were often hidden but also for canonical authors like Chaucer and Malory in exploring the function of metaphor and of dissembling language. Robyn Malo argues that relic discourse was employed in order to critique mainstream religious practice, explore the consequences of rhetorical dissimulation, and consider the effect on the socially disadvantaged of lavish expenditure on shrines. The work thus uses the literary study of relics to address issues of clerical and lay cultures, orthodoxy and heterodoxy, and writing and reform. Humanism, English Literature, and the Translation of Greek, 1430-1560 John Colley, 2025-05-15

Humanism, English Literature, and the Translation of Greek, 1430-1560 is the first study to trace the influence of the

Quattrocento rebirth of Greek scholarship on fifteenth and sixteenth century English literature It begins with the first signs of humanist Greek in England in and around Duke Humfrey's circle at a time when no English writer could claim significant Greek literacy It ends on the cusp of Elizabethan literary culture when English writers much more frequently translated Ancient Greek into both Latin and the vernacular This period witnessed a surge in the translation of Greek It also witnessed changing beliefs about how and why Greek should be translated at all especially under the growing pressures of the Reformation Building on scholarship in the fields of classical reception translation studies and intellectual history the volume argues that attending to the period's ideas about Greek translation fundamentally alters our perception of Tudor humanism and the classical tradition more widely In linking biblical and patristic translation with the translation of works by pagan authors the book shows that Renaissance humanism was less secular and more wide ranging in its goals and interest than the standard scholarly narrative has claimed By showing continuities between late medieval and early modern literature it further revises arguments for the novelty of the sixteenth century humanists The book ultimately argues that fifteenth and sixteenth century English writers experienced a contradictory relationship to Greek Desire for the language and what it stood for was tempered by the realities of its mediated transmission Desire for Greek was also undercut by the sectarian divisions that the language came to reflect and magnify Court Poetry in Late Medieval England and Scotland Antony J.

Hasler, 2011-03-10 This book explores the anxious and unstable relationship between court poetry and various forms of authority political and cultural in England and Scotland at the beginning of the sixteenth century Through poems by Skelton Dunbar Douglas Hawes Lyndsay and Barclay it examines the paths by which court poetry and its narrators seek multiple forms of legitimation from royal and institutional sources but also in the media of script and print The book is the first for some time to treat English and Scottish material of its period together and responds to European literary contexts the dialogue between vernacular and Latin matter and current critical theory In so doing it claims that public and occasional writing evokes a counter discourse in the secretcies and subversions of medieval love fictions The result is a poetry that queries and at times cancels the very authority to speak that it so proudly promotes **The Sea and Medieval English Literature**

Sebastian I. Sobecki, 2008 A fresh and invigorating survey of the sea as it appears in medieval English literature from romance to chronicle hagiography to autobiography As the first cultural history of the sea in medieval English literature this book traces premodern myths of insularity from their Old English beginnings to Shakespeare's *Tempest* Beginning with a discussion of biblical classical and pre Conquest treatments of the sea it investigates how such works as the Anglo Norman Voyage of St Brendan the Tristan romances the chronicles of Matthew Paris King Horn *Patience* The Book of Margery Kempe and The Libelle of Englyshe Polycye shape insular ideologies of Englishness Whether it is Britain's privileged place in the geography of salvation or the political fiction of the idyllic island fortress medieval English writers' myths of the sea betray their anxieties about their own insular identity their texts call on maritime motifs to define England geographically and

culturally against the presence of the sea New insights from a range of fields including jurisprudence theology the history of cartography and anthropology are used to provide fresh readings of a wide range of both insular and continental writings

The Oxford History of Classical Reception in English Literature David Hopkins, Charles Martindale, Norman Vance, Rita Copeland, Patrick Cheney, Philip R. Hardie, Jennifer Wallace, 2012 The present volume 3 is the first to appear of the five that will comprise The Oxford History of Classical Reception in English Literature henceforth OHCREL Each volume of OHCREL will have its own editor or team of editors Preface

The Oxford History of Classical Reception in English Literature Rita Copeland, 2016-01-28 The Oxford History of Classical Reception in English Literature OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This first volume and fourth to appear in the series covers the years c 800 1558 and surveys the reception and transformation of classical literary culture in England from the Anglo Saxon period up to the Henrician era Chapters on the classics in the medieval curriculum the trivium and quadrivium medieval libraries and medieval mythography provide context for medieval reception The reception of specific classical authors and traditions is represented in chapters on Virgil Ovid Lucan Statius the matter of Troy Boethius moral philosophy historiography biblical epics English learning in the twelfth century and the role of antiquity in medieval alliterative poetry The medieval section includes coverage of Chaucer Gower and Lydgate while the part of the volume dedicated to the later period explores early English humanism humanist education and libraries in the Henrician era and includes chapters that focus on the classicism of Skelton Douglas Wyatt and Surrey

Middle English Paul Strohm, 2007-04-19 These original essays mean to provoke rather than reassure to challenge rather than codify Instead of summarizing existing knowledge after the fashion of the now ubiquitous literary companions these essays aim at opening fresh discussion instead of emphasizing settled consensus they direct their readers to areas of enlivened and unresolved debate Although major authors such as Chaucer and Langland are richly represented many little known and neglected texts are considered as well Analysis is devoted not only to self sufficient works but to the general conditions of textual production and reception Contributors to this collection include some recognized and admired names but also a good many newer faces younger scholars whose groundbreaking research is just

coming into full view and whose perspectives will influence the terms of literary discussion in the decades to come. Encouraged to speculate, they have addressed topics that unsettle previous categories of investigation. Each is oriented toward the emergent, the unfinalized, the yet to be done. Each essay stirs new questions and concludes with suggestions for further reading and investigation that will allow readers to extend their own research into the questions it has raised.
