Curiosities and Texts Marjorie Swann, 2010-11-24 A craze for collecting swept England during the sixteenth and seventeenth centuries Aristocrats and middling sort men alike crammed their homes full of a bewildering variety of physical objects antique coins scientific instruments minerals mummified corpses zoological specimens plants ethnographic objects from Asia and the Americas statues portraits Why were these bizarre jumbles of artifacts so popular In *Curiosities and Texts* Marjorie Swann demonstrates that collections of physical objects were central to early modern English literature and culture Swann examines the famous collection of rarities assembled by the Tradescant family the development of English natural history narrative catalogs of English landscape features that began to appear in the Tudor and Stuart periods the writings of Ben Jonson and Robert Herrick and the foundation of the British Museum Through this wide ranging series of case studies Swann addresses two important questions How was the collection which was understood as a form of cultural capital appropriated in early modern England to construct new social selves and modes of subjectivity And how did literary texts both as material objects and as vehicles of representation participate in the process of negotiating the cultural significance of collectors and collecting Crafting her unique argument with a balance of detail and insight Swann sheds new light on material culture s relationship to literature social authority and personal identity

Prayer and Power Michael C. Schoenfeldt, 1991-08-13 Michael C Schoenfeldt here offers the first major exploration of the connections between George Herbert s devotional poetry and the social practices and political discourse of his day Viewing *The Temple* and *The Country Parson* as part of the larger civilizing process of Western Europe Schoenfeldt shows how Herbert discovers in the discourses of courtesy and theology a common vocabulary of authority selfhood petition and discipline Before entering the priesthood Herbert nourished contacts in court was elected University Orator at Cambridge and served in Parliament In turning to God Schoenfeldt argues Herbert did not simply turn away from the secular world but also turned its language particularly the language of courtesy into the medium for his lyric worship of God The confluence of

courtesy and spirituality in Herbert's poetry provides a fascinating insight into a society searching for an appropriate discourse of reverence in a time of baffling change. The first five chapters investigate the manifold ways in which Herbert's life and works exemplify the interdependence of social and religious behavior in the English Renaissance. The sixth and final chapter extends this investigation into the nervous eroticism of Herbert's poems. Considering *The Temple* as well as Herbert's letters, speeches, Latin poems, collections of foreign proverbs, translations, *The Country Parson* and less familiar lyrics, Schoenfeldt offers a thorough and detailed reading of Herbert's rich and conflicted corpus. *Prayer and Power* is not only a bold redefinition of the accomplishment of one of the finest poets of the English Renaissance but also the first sustained study to advance a cultural poetics of the religious lyric.

The Classic Hundred Poems William Harmon, 1998 Here in one volume are the top one hundred poems as determined by a survey of more than 1,000 anthologies: the poems in English most frequently anthologized, the poems with the broadest, most enduring appeal. From Shakespeare to Dickinson to Frost, from sonnets to odes to villanelles, William Harmon's *Classic Hundred Poems* offers a feast for poetry lovers. This book updates the first edition by presenting the new top one hundred poems, nineteen of which were not in the first edition. The revised edition is arranged chronologically and features new commentary and notes on verse form as well as an index of the poems in order of popularity, notes on words and proper names, and a bibliography for each poet and each poem. A glossary of terms, author index, and index of titles and first lines are also included. From Keats to *Autumn*, now ranked as the number one poem in this collection, to George Herbert's *Virtue* in the hundredth spot, every poem is illuminated by Harmon's informative notes. With insights into the historical period in which each poem was written, the verse form used, and connections among poems, this is the ideal introduction to poetry as well as a treasury for the dedicated reader.

Of Paradise and Light Donald R. Dickson, Holly Faith Nelson, 2004 This collection examines intertextual intersections in the works of Henry Vaughan and John Milton and considers their aesthetic, philosophical, or political implications. The theoretical pluralism of the volume reveals the variety and complexity of textual relations in the words of these early modern authors. Some of the essays focus on the author's conscious creation of intertext; others explore the reader's negotiation of books within books, while still others examine the linguistic effect of textual intersections. The essays not only consider material borrowing but also explore the absorption of concepts or formal structures from antecedent texts. The volume not only adds to the debate on Milton's iteration, duplication, and renovation of precursor texts but represents the first collection of original essays on the poetry and prose of Henry Vaughan, essays authored by experts in the field. Donald Dickson is Professor of English at Texas A M University. Holly Faith Nelson is Assistant Professor of English at Trinity Western University.

Perspectives Jalal Uddin Khan, 2015-02-05 *Perspectives: Romantic, Victorian, and Modern Literature* is an up-to-date explication of various popular and classic subjects and authors arranged chronologically. The book, composed of thirteen essays, examines Blake, Coleridge, Byron, Shelley, Keats, Victorian medievalism, the Victorian reaction to British India, Ben Jonsonian elements in Yeats, Yeats and Maud Gonne, the

treatment of the Irish civil war and Irish nationalism in Yeats and the treatment of the Spanish civil war in the selected works of modern fiction and nonfiction Marked by an originality of approach and a freshness and simplicity the book takes note of contemporary theoretical interdisciplinary and cultural discourse drawn from literature history politics and religion as necessary However it is far from being unnecessarily outweighed by the loaded clichés oft repeated jargon and overused euphemisms of modern literary or critical theory The result is regardless of its specialized treatment of otherwise commonplace or well known texts or topics that the overall discussion is as lucid introductory and expository as it is deep and scholarly making the book easily accessible and understandable to non specialist readers in addition to specialist researchers and academics The Pulse of Praise Julia Carolyn Guernsey, 1999 Guernsey draws on D W Winnicott's object relations model which focuses on self development in a relational context to illuminate various senses of self and Other that Herbert's poems express discursively and formally The book will appeal not only to Herbert scholars and other Renaissance critics but also to audiences interested in psychoanalysis and how it relates to literature religion culture and poetics BOOK JACKET

Bibliothèque d'humanisme et Renaissance, 1987 1941 includes section Notes et documents John Donne Journal, 1988 Literary Sociability in Early Modern England Paul Trolander, 2014-05-29 This study represents a significant reinterpretation of literary networks during what is often called the transition from manuscript to print during the early modern period It is based on a survey of 28 000 letters and over 850 mainly English correspondents ranging from consumers to authors significant patrons to state regulators printers to publishers from 1615 to 1725 Correspondents include a significant sampling from among antiquarians natural scientists poets and dramatists philosophers and mathematicians political and religious controversialists The author addresses how early modern letter writing practices sometimes known as letteracy and theories of friendship were important underpinnings of the actions and the roles that seventeenth and early eighteenth century authors and readers used to communicate their needs and views to their social networks These early modern social conditions combined with an emerging view of the manuscript as a seedbed of knowledge production and humanistic creation that had significant financial and cultural value in England's mercantilist economy Because literary networks bartered such gains in cultural capital for state patronage as well as for social and financial gains this placed a burden on an author's associates to aid him or her in seeing that work into print a circumstance that reinforced the collaborative formulae outlined in letter writing handbooks and friendship discourse Thus the author's network was more and more viewed as a tightly knit group of near equals that worked collaboratively to grow social and symbolic capital for its associates including other authors readers patrons and regulators Such internal methods for bartering social and cultural capital within literary networks gave networked authors a strong hand in the emerging market economy for printed works as major publishers such as Bernard Lintott and Jacob Tonson relied on well connected authors to find new writers as well as to aid them in seeing such major projects as Pope's *The Iliad* into print **South Atlantic Review**, 1987 **John Donne** John

Richard Roberts, 2004 Included here are nearly 1 600 entries of descriptive annotations wherein Roberts quotes extensively from each item in order to convey a sense of its approach and the level of its critical sophistication and complexity Entries are organized chronologically and within each year alphabetically by author

Earle Havens, Mark Rankin, 2025-08-20 This is the first book length study dedicated entirely to the clandestine print and scribal culture of members of the international Elizabethan Catholic underground c 1558 1603 Close studies offer fresh material textual evidence of a truly cosmopolitan polyglot and trans European community of domestic and exiled English Catholics moving well beyond the British Isles to the Dutch Low Countries France Poland Spain and Italy Explorations of book smuggling networks clandestine printers secret Catholic libraries illicit scribal publications international patronage and finance and press censorship combine in this volume to shed new light on an otherwise shadowy often subversive but still relatively understudied early modern book culture
