The Macedonian State Nicholas Geoffrey Lemprière Hammond, 1989 In 338 BC Philip II of Macedon established Macedonian rule over Greece he was succeeded in 336 by his son Alexander the Great whose conquests in the twelve years that followed reached as far as the Russian steppes Afghanistan and the Punjab and created the Hellenistic world The study of Macedonia has just been completed in three volumes by N G L Hammond helped by G T Griffith and F W Walbank On the basis of that work Volume III of which won the Runicman Award 1989 Professor Hammond now provides in one volume a history of the Macedonian State in action from early times to 167 BC The most important concern is the nature of the Macedonian State and its institutions both in Europe and in the Hellenistic kingdoms in Asia and Egypt on which much new light has been shed by epigraphic and archaeological discoveries Those institutions have had a profound influence upon subsequent history Full references are given to the ancient sources of information and to archaeological numismatic and epigraphic articles

Alexander the Great & Persia Joseph Stiles, 2022-09-15 Upon his return from India Alexander the Great travelled to the Persian royal city of Pasargadae to pay homage at the tomb of King Cyrus founder of the Achaemenid Persian Empire whom he admired greatly Disgusted to find Cyrus tomb desecrated and looted the Macedonian king had the tomb guards tortured the Persian provincial governor executed and the tomb refurbished This episode involving Cyrus tomb serves as one of many case studies in Alexander s relationship with Persia At times Alexander would behave pragmatically sparing his defeated enemies and adopting Persian customs Sisymbria the mother of Persian King Darius III allegedly came to view Alexander as a son and starved herself at the news of his demise On other occasions he did not shy away from destruction famously torching the palace at Persepolis and cruelty earning himself the nickname the accursed This conflicting nature gives Alexander a complex legacy in the Persian world Joseph Stiles explores Alexander the Great s fascinating relationship with his spear won empire disentangling the motives and influences behind his policies and actions as King of Asia

Violence and Community Ioannis K. Xydopoulos,Kostas Vlassopoulos,Eleni Tounta,2017-04-21 Violence and community were intimately linked in the ancient world While various aspects of violence have been long studied on their own warfare revolution murder theft piracy there has been little effort so far to study violence as a unified field and explore its role in community formation This volume aims to construct such an agenda by exploring the historiography of the study of violence in antiquity and highlighting a number of important paradoxes of ancient violence It explores the forceful nexus between wealth power and the passions by focusing on three major aspects that link violence and community the attempts of communities to regulate and canalise violence through law the constitutive role of violence in communal identities and the ways in which communities dealt with violence in regards to private and public space landscapes and territories The contributions to this volume range widely in both time and space temporally they cover the full span from the archaic to the Roman imperial period while spatially they extend from Athens and Sparta through Crete Arcadia and Macedonia to Egypt and Israel
