Mediated Ideologies: Nordic Views on the History of the Press and Media Cultures Jukka Kortti, Heidi

Kurvinen, 2024-07-16 Ideologies have not been a focus of interest in the field of humanities and social sciences in recent decades but rethinking the power of ideologies in the media sphere has recently returned to the scholarly discussion. The compilation book *Mediated Ideologies: Nordic Views on the History of the Press and Media Cultures* participates in this by providing selected yet justified approaches to media history from the point of view of ideological uses of media in the Nordic region. In this book, the role of media comprising both popular media and news journalism as a forum for ideologies and their circulation will be analyzed by focusing on the Nordic region. The perceived similarities in the media systems of the Nordic countries constitute a perfect extent for a regional media history against not only a European but also a global backdrop. This does not mean that there have not been many national differences. The book does not provide a chronological narrative of Nordic media history. Still, the ideology of media is approached not only from the standpoints of different media forms: film, television, newspapers, magazines, and periodicals, but also from several historical periods from the mid 19th century to the late 20th century. The chapters show the multidimensional role that the media has in transmitting ideologies to their audiences and the public sphere. They also demonstrate that analyzing the role of different ideologies such as modernization, nationalism, solidarity, feminism, and peace movement in media history provides wider perspectives in understanding past and present media landscapes and people's mediated experiences that are fostered by them. *Mediated Ideologies: Nordic Views on the History of the Press and Media Cultures* can be used both as a reference book and as a classroom adaptation in the field of media communication and history studies. **Mediating Indianness** Cathy Covell Waegner, 2015-02-01

Mediating Indianness investigates a wide range of media including print, film, theater, ritual, dance, music, recorded interviews, photography, and treaty rhetoric that have been used in exploitative, informative, educative, sustaining, protesting, or entertaining ways to negotiate Native American identities and images. The contributors to this collection are Native American and European scholars whose initial findings were presented or performed in a four-panel format at the 2012 MESEA Society for Multi-Ethnic Studies Europe and the Americas conference in Barcelona. The selection of the term *Indianness* is deliberate. It points to the intricate construction of ethnicity as filtered through media despite frequent assertions of authenticity. From William Buffalo Bill Cody's claim, extravagantly advertised on both sides of the Atlantic, that he was staging true-to-life scenes from Indian life in his Wild West shows, to contemporary Native hip-hop artist Quessa IMC's announcement that his songs tell his people's own history and draw on their true culture, media of all types has served to promote disparate agendas claiming legitimacy. This volume does not shy away from the issue of evaluation and how it is only tangential to medial artificiality. As evidenced in this collection, the vibrant ever-transforming future of Native peoples is located within a complex intersection of cultural influences, said Susan Power, author of *Sacred Wilderness*. **The Trinity in History** Robert M. Doran

SJ, 2012-10-29 *The Trinity in History* is the first volume in a new series by Robert M. Doran that uses the thought of Bernard

Lonergan to develop a unified field structure for systematic work in theology Building on his successful and thought provoking *Theology and the Dialectics of History* and *What Is Systematic Theology* Doran works out a starting point for a contemporary theology of history and proposes a new application of the psychological analogy for understanding the Christian doctrine of the Trinity Advancing the work of Lonergan Augustine and Thomas Aquinas *The Trinity in History* also enters into conversation with contemporary philosophical emphases especially with the mimetic theory of noted anthropological philosopher Ren Girard Doran suggests several refinements of Lonergan's notion of functional specialization developing a perspective for including the data of various religious traditions in theological construction and establishing this theory's relevance for contemporary interreligious dialogue
