Discovering London 3 Kenneth Derwent, 1968

Greater Medieval Houses of England and Wales, 1300-1500:

Volume 3, Southern England Anthony Emery, 2006-03-09 This is the third volume of Anthony Emery's magisterial survey *Greater Medieval Houses of England and Wales 1300-1500* first published in 2006. Across the three volumes Emery has examined afresh and re-assessed over 750 houses, the first comprehensive review of the subject for 150 years. Covered are the full range of leading homes from royal and episcopal palaces to manor houses as well as community buildings such as academic colleges, monastic granges and secular colleges of canons. This volume surveys Southern England and is divided into three regions, each of which includes a separate historical and architectural introduction as well as thematic essays prompted by key buildings. The text is complemented throughout by a wide range of plans and diagrams and a wealth of photographs showing the present condition of almost every house discussed. This is an essential source for anyone interested in the history, architecture and culture of medieval England and Wales.

London Anthony Sutcliffe, Professor Anthony Sutcliffe, 2006-01-01 London is one of the world's greatest cities and its architecture is a unique heritage. The Tower of London is an urban castle unique in Europe. St Paul's is one of the world's greatest domed cathedrals and the squares and crescents of the West End inspired Haussmann's Paris. In London it is the variety of the streets, buildings and parks that strikes the visitor. No king or government has ever set its mark here. Private ownership has shaped the city and architects have served a wide variety of clients. London's Classical era produced an elegant townscape between 1600 and 1830 but medieval Tudor and Victorian London were a potpourri of buildings large and small, each making its own design statement. In *London: An Architectural History* Anthony Sutcliffe takes the reader through two thousand years of architecture from the sublime to the mundane. With over 300 color illustrations, the book is intended for the general reader and especially those visiting London for the first time.

Everyday Life in Medieval London Toni Mount, 2014-03-15 Step back in time to medieval London to find out about the lives of those working and living there.

The Flower of All Cities Robert Wynn Jones, 2019-07-15 A unique account of old London with all its energy, filth and splendour before the city's destruction by the Great Fire in 1666.

The London Region Philippa Dolphin, Eric G. Grant, Edward Lewis, 1981 Major findings: 1. Contaminants in water from one of every three drinking water wells sampled are a potential human health concern. 2. Arsenic and uranium derived from geologic sources are potential drinking water concerns. 3. Dissolved solids concentrations in groundwater are increasing in some areas. 4. Artificial recharge and groundwater withdrawals are moving contaminants to deeper parts of basin fill aquifers.
