Northern Schools Southern Blacks And Reconstruction:

Northern Schools, Southern Blacks, and Reconstruction Ronald E. Butchart, 1980 This work is a revisionist interpretation of the work of the secular and religious aid societies and the Freedmen s Bureau in educating free blacks **The Education of Blacks in the South, 1860-1935** James D. Anderson, 2010-01-27 James Anderson critically reinterprets the history of southern black education from Reconstruction to the Great Depression By placing black schooling within a political cultural and economic context he offers fresh insights into black commitment to education the peculiar significance of Tuskegee Institute and the conflicting goals of various philanthropic groups among other matters Initially ex slaves attempted to create an educational system that would support and extend their emancipation but their children were pushed into a system of industrial education that presupposed black political and economic subordination This conception of education and social order supported by northern industrial philanthropists some black educators and most southern school officials conflicted with the aspirations of ex slaves and their descendants resulting at the turn of the century in a bitter national debate over the purposes of black education Because blacks lacked economic and political power white elites were able to control the structure and content of black elementary secondary normal and college education during the first third of the twentieth century Nonetheless blacks persisted in their struggle to develop an educational system in accordance with their own needs and desires Self-Taught Heather Andrea Williams, 2009-06 With great skill Heather Williams demonstrates the centrality of black people to the process of formal education the establishment of schools the creation of a cadre of teachers the forging of standards of literacy and numeracy in the post emancipation years As she does Williams makes the case that the issue of education informed the R The Origins of the American High School William J. Reese, 1999-01-01 An analysis of the social changes and political debates that shaped 19th century American high schools It reveals what students studied and how they behaved what teachers expected of them and how they taught and how boys and girls whites and blacks experienced high school **Afro-American Life, History and Culture**, 1985 **Self-taught**, *Southern Horrors* Crystal N. Feimster, 2025-09-01 Between 1880 and 1930 some 200 women were murdered by lynch mobs in the American South Many more were tarred and feathered burned whipped or raped In this brutal world women defended themselves and challenged male power brokers Feimster explores the racial politics of the postbellum South focusing on the volatile issue of sexual violence **Color Blind Justice** Mark Elliott, 2008-11-30 Civil War officer Reconstruction carpetbagger best selling novelist and relentless champion of equal rights Albion Tourg e battled his entire life for racial justice Now in this engaging biography Mark Elliott offers an insightful portrait of a fearless lawyer jurist and writer who fought for equality long after most Americans had abandoned the ideals of Reconstruction Elliott provides a fascinating account of Tourg e s life from his childhood in the Western Reserve region of Ohio then a hotbed of abolitionism to his years as a North Carolina judge during Reconstruction to his memorable role as lead plaintiff s counsel in the landmark Supreme Court case Plessy v Ferguson

Touge's brief coined the phrase that justice should be color blind and his career was one long campaign to make good on that belief. A redoubtable lawyer and an accomplished jurist, Touge's writings represent a mountain of dissent against the prevailing tide of racial oppression. A poignant and inspiring study in courage and conviction, *Color Blind Justice* offers us an unforgettable portrayal of Albion Touge and the principles to which he dedicated his life. **United States History** James Warren Oberly, 1995

All Bound Up Together Martha S. Jones, 2009-11-30 The place of women's rights in African American public culture has been an enduring question, one that has long engaged activists, commentators, and scholars. *All Bound Up Together* explores the roles black women played in their communities, social movements, and the consequences of elevating women into positions of visibility and leadership. Martha Jones reveals how, through the nineteenth century, the woman question was at the core of movements against slavery and for civil rights. Unlike white women activists who often created their own institutions separate from men, black women, Jones explains, often organized within already existing institutions: churches, political organizations, mutual aid societies, and schools. Covering three generations of black women activists, Jones demonstrates that their approach was not unanimous or monolithic but changed over time and took a variety of forms, from a woman's right to control her body to her right to vote. Through a far-ranging look at politics, church, and social life, Jones demonstrates how women have helped shape the course of black public culture. *All Bound Up Together*, *The Freedmen's Bureau and Black Texans* Barry A. Crouch, 2010-06-28 A look at the agency's attempts to deliver justice to the Texas black community following the Civil War. Drawing on a wealth of previously unused documentation in the National Archives, this book offers new insights into the workings of the Freedmen's Bureau and the difficulties faced by Texas Bureau officials who served in a remote and somewhat isolated area with little support from headquarters. The episodes in Texas Reconstruction history that Mr. Crouch relates perhaps do more than broad generalizations to explain why the Freedmen's Bureau failed and how we lost the peace after the Civil War. *New York Times Book Review*. Crouch skillfully presents the Freedmen's Bureau as one of the most unique, misunderstood, and maligned ad hoc reform agencies ever devised by a democratic government in the name of social and political freedom and equality. *East Texas Historical Journal*. Breaks new ground in Reconstruction history. Crouch's study is among the first on the bureau in Texas and the first to focus on the subdistrict agent, the subassistant commissioner. *Journal of Southern History* *The Industrial Book, 1840-1880* Scott E. Casper, 2007 v 1 *The colonial book in the Atlantic world*. This book carries the interrelated stories of publishing, writing, and reading from the beginning of the colonial period in America up to 1790. v 2 *An Extensive Republic*. This volume documents the development of a distinctive culture of print in the new American republic. v 3 *The industrial book, 1840-1880*. This volume covers the creation, distribution, and uses of print and books in the mid-nineteenth century when a truly national book trade emerged. v 4 *Print in Motion*. In a period characterized by expanding markets, national consolidation, and social upheaval, print culture picked up momentum as the nineteenth century turned into the twentieth. v 5 *The Enduring Book*. This volume

addresses the economic social and cultural shifts affecting print culture from Word War II to the present Reforging the White Republic Edward J. Blum,2015-06-15 During Reconstruction former abolitionists in the North had a golden opportunity to pursue true racial justice and permanent reform in America But after the sacrifice made by thousands of Union soldiers to arrive at this juncture the moment soon slipped away leaving many whites throughout the North and South more racist than before Edward J Blum takes a fresh look at the reasons for this failure in Reforging the White Republic focusing on the vital role that religion played in reunifying northern and southern whites into a racially segregated society A blend of history and social science Reforging the White Republic offers a surprising perspective on the forces of religion as well as nationalism and imperialism at a critical point in American history *Women's Rights in the United States* Tiffany K. Wayne,2014-12-09 A comprehensive encyclopedia tracing the history of the women s rights movement in the United States from the American Revolution to the present day Few realize that the origin of the discussion on women s rights emerged out of the anti slavery movement of the 19th century and that suffragists were active in the peace and labor movements long after the right to vote was granted Thus began the confluence of activism in our country where the rights of women both followed and led the social and political discourse in America Through 4 volumes and more than 800 entries editor Tiffany K Wayne with advising editor Lois Banner examine the issues people and events of women s activism from the early period of American history to the present time This comprehensive reference not only traces the historical evolution of the movement but also covers current issues affecting women such as reproductive freedom political participation pay equity violence against women and gay civil rights **Redeeming the South** Paul Harvey,2000-11-09 Together and separately black and white Baptists created different but intertwined cultures that profoundly shaped the South Adopting a biracial and bicultural focus Paul Harvey works to redefine southern religious history and by extension southern culture as the product of such interaction the result of whites and blacks having drawn from and influenced each other even while remaining separate and distinct Harvey explores the parallels and divergences of black and white religious institutions as manifested through differences in worship styles sacred music and political agendas He examines the relationship of broad social phenomena like progressivism and modernization to the development of southern religion focusing on the clash between rural southern folk religious expression and models of spirituality drawn from northern Victorian standards In tracing the growth of Baptist churches from small outposts of radically democratic plain folk religion in the mid eighteenth century to conservative and culturally dominant institutions in the twentieth century Harvey explores one of the most impressive evolutions of American religious and cultural history Dividing the Public Matthew Gardner Kelly,2024-01-15 Winner of the Vincent P DeSantis Book Prize from The Society for Historians of the Gilded Age and Progressive Era and awarded with Honorable Mention in the Outstanding Book Award by the History of Education Society In Dividing the Public Matthew Gardner Kelly takes aim at the racial and economic disparities that characterize public education funding in the United States With California as his focus Kelly

illustrates that the use of local taxes to fund public education was never an inadvertent or de facto product of past practices but an intentional decision adopted in place of well known alternatives during the Progressive Era against past precedent and principle in several states From efforts to convert expropriated Indigenous and Mexican land into common school funding in the 1850s to reforms that directed state aid to expanding white suburbs during the years surrounding World War II Dividing the Public traces in intricate detail how a host of policies connected to school funding have divided California by race and class over time In bringing into view the neglected and poorly understood history of policymaking connected to school finance Kelly offers a new story about the role public education played in shaping the racially segregated economically divided and politically fragmented world of the post 1945 metropolis

To Walk About in Freedom

Carole Emberton,2022-03-08 The extraordinary life of Priscilla Joyner and her quest along with other formerly enslaved people to define freedom after the Civil War Priscilla Joyner was born into the world of slavery in 1858 North Carolina and came of age at the dawn of emancipation Raised by a white slaveholding woman Joyner never knew the truth about her parentage She grew up isolated and unsure of who she was and where she belonged feelings that no emancipation proclamation could assuage Her life story candidly recounted in an oral history for the Federal Writers Project captures the intimate nature of freedom Using Joyner s interview and the interviews of other formerly enslaved people historian Carole Emberton uncovers the deeply personal emotional journeys of freedom s charter generation the people born into slavery who walked into a new world of freedom during the Civil War From the seemingly mundane to the most vital emancipation opened up a myriad of new possibilities what to wear and where to live what jobs to take and who to love Although Joyner was educated at a Freedmen s Bureau school and married a man she loved slavery cast a long shadow Uncertainty about her parentage haunted her life and as Jim Crow took hold throughout the South segregation disfranchisement and racial violence threatened the loving home she made for her family But through it all she found beauty in the world and added to it where she could Weaving together illuminating voices from the charter generation To Walk About in Freedom gives us a kaleidoscopic look at the lived experiences of emancipation and challenges us to think anew about the consequences of failing to reckon with the afterlife of slavery
