Property And Power Towards A Nonmarxian Historical Materialism Theory And Decision Library:

Non-Marxian Historical Materialism: Reconstructions and Comparisons, 2022-04-04 The authors of this book reconstruct the philosophical methodological and theoretical assumptions of non Marxian historical materialism a theory of historical process authored by Leszek Nowak 1943 2009 a co founder of the Pozna School of Methodology In the first part of the book philosophical assumptions of this theory are compared with the concepts of Robert Nozick Immanuel Wallerstein Andr Gunder Frank and analytical Marxism In the second part non Marxian historical materialism is compared with the concepts of Eva Etzioni Halevy Andrzej Falkiewicz Robert Michels Vilfredo Pareto Theda Skocpol and Karl August Wittfogel

Property and power. Towards a non-Marxian historical materialism Leszek Nowak, 1983 *Property and Power* Lesz Nowak, 2012-12-06 THE VOICE OF THE PEOPLE THE POLISH ROAD FROM SOCIALISM ON 1 The history of all hitherto existing societies is a history of class struggle not only that between the exploited and the exploiters but also that between the ruled and the rulers And in modern times there is in some societies a struggle between those who are exploited and oppressed at the same time and those who at the same time exploit and oppress 2 The struggle between the owners and the direct producers results from the fact that the former exploit the latter that is they take from their labour more than they give back It is possible since only they the exploiters have a monopoly of the disposal over the means of production and the major part of society must provide them with their labour force Increasing exploitation finally leads to the revolution of the masses and the owners are forced to make concessions in order to avoid re occurrences

New Developments in the Theory of the Historical Process, 2022-04-04 The first part of this book contains a selection of Leszek Nowak's 1943 2009 works on non Marxian historical materialism which are published here in English for the first time In these papers Nowak constructs a dynamic model of religious community reconstructs historiosophical assumptions of liberalism and considers the methodological status of prognosis of totalitarization of capitalist society In the second part of the book new contributions to non Marxian historical materialism are presented Their authors analyze mechanisms of the oligarchization of liberal democracy the democratization of real socialism and the development of early modern Ottoman and post war Chinese societies

The Courage of Doing Philosophy Jerzy Brzeziński, Andrzej Klawiter, Theo A. F. Kuipers, 2007 In recent years the problem of idealization has been one of the central issues discussed in philosophy of science This volume gathers original essays written by well known philosophers The papers address the method of idealization and its applications in science as well as ontological and epistemological problems that have arisen Among the questions addressed are What is the logical form of idealizational statements and how should they be interpreted Is the possible worlds semantics useful in understanding idealization What is the relation between idealization and truth The volume is a celebration of Leszek Nowak's sixtieth birthday

BOOK JACKET

Formal and Informal Methods in Philosophy, 2020-03-31 This book examines the tension between formal and informal methods in philosophy The rise of analytic philosophy was accompanied by the

development of formal logic and many successful applications of formal methods But analytical philosophy does not rely on formal methods alone Elements of broadly understood informal logic and logical semiotics procedures used in natural sciences and humanities and various kinds of intuition also belong to the philosopher s toolkit Papers gathered in the book concern the opposition formality informality as well as other pairs such as methodology versus metaphilosophy interdisciplinarity versus intradisciplinarity and methodological uniformity versus diversity of sciences Problems of the nature of logic and the explanatory role of mathematical theories are also discussed

Philosophy of Economics W.

Balzer,Bert Hamminga,2012-12-06 The last decade witnessed an unprecedented annual growth of the literature dealing with the philosophy of economics as well as the first signs of an institutionalization conferences an international journal of the philosophy of economics as a scientific subject in itself in particular in the U S In 1981 a meeting took place with participants mainly of European continental origin In July 1987 we organized a second conference Philosophy of Economics II at Tilburg University The Netherlands mainly aiming at the establishment of first contacts between the middle European group and researchers from the U S The present volume contains the papers presented at this conference Philosophical thought on economics in recent years split up in many different streams two of which are represented in the larger part of this volume The first of these streams was formed by a group of researchers mainly from middle Europe who make empirical studies of the logical structures of the different theories as they find them presented in economic literature Two methods prevail here First the structuralist method as exemplified in the writings of Sneed Stegmüller and others of describing the object of a theory as a set of partial potential models Such models consist of sets and relationships between these sets which represent the concepts used in the theory

Polish Contributions to the Science of Science B. Walentynowicz,1982 The present volume helps to understand how the collection of miscellaneous disciplines called the science of science came into being One tradition goes back to the Greek thinkers and includes practically every great name in the history of philosophy since almost all philosophers took a stand on epistemological problems To be sure theory of knowledge is not to be identified with theory of science Science is a relatively new phenomenon dating from modern times It is a source of knowledge the main source in our type of culture but certainly not the only one Also epistemology deals with questions rather far removed from the practice of science The nature of truth the sources of knowledge the limits of knowledge Many people claim to understand science without being able to solve these perennial problems What we call today the science of science is not concerned with say the Kantian question how synthetic a priori truths are possible However the influence of the philosophical heritage is still felt in present day metascientific thought Philosophy of science does exist although in a form very different from classical epistemology It has developed under that name into general methodology of science which roughly means analysis of scientific theories and analysis of their validation In both cases mathematical and logical tools play a great role Scientific theories are analyzed by means of

modern semantics theory of models Their validation is reconstructed in terms of probability and decision theory
