

The Reasoning Voter

Communication and
Persuasion in Presidential
Campaigns

SECOND EDITION

Samuel L. Popkin

"If you're preparing to run a presidential campaign, and only have time to read one book, make sure you read Sam Popkin's *The Reasoning Voter*. If you have time to read two books, read *The Reasoning Voter* twice."

—James Carville

Reasoning Voter Communication And Persuasion In Presidential Campaigns

**Costas Panagopoulos, Aaron C.
Weinschenk**

Reasoning Voter Communication And Persuasion In Presidential Campaigns:

The Reasoning Voter Samuel L. Popkin, 2024-05-31 The Reasoning Voter is an insider's look at campaigns, candidates, media, and voters that convincingly argues that voters make informed logical choices. Samuel L. Popkin analyzes three primary campaigns: Carter in 1976, Bush and Reagan in 1980, and Hart, Mondale, and Jackson in 1984 to arrive at a new model of the way voters sort through commercials and sound bites to choose a candidate. Drawing on insights from economics and cognitive psychology, he convincingly demonstrates that as trivial as campaigns often appear, they provide voters with a surprising amount of information on a candidate's views and skills. For all their shortcomings, campaigns do matter. Professor Popkin has brought V. O. Key's contention that voters are rational into the media age. This book is a useful rebuttal to the cynical view that politics is a wholly contrived business in which unscrupulous operatives manipulate the emotions of distrustful but gullible citizens. The reality he shows is both more complex and more hopeful than that. David S. Broder, *The Washington Post*.

Campaign Reform Larry M. Bartels, Lynn Vavreck, Lewis, 2010-08-04 What is wrong with American political campaigns? How could the campaign process be improved? This volume brings the expertise of leading political scientists to the public debate about campaign reform. These scholars probe the reality behind the conventional wisdom that nasty, vacuous campaigns dominated by big money and cynical media coverage are perverting our political process and alienating our citizenry. Some of their conclusions will be startling to campaigners and critics alike. For example, attack advertisements prove to be no more effective than self-promotional advertisements but are more substantive. Indeed, candidates in their advertisements and speeches focus more on policy and less on strategy and process than any major news outlet, including the *New York Times*. The volume suggests that as a result, prospective voters in 1996 knew more about the candidates' issue positions than in any presidential election in decades, yet turnout and public faith in the electoral process continued to decline. For aspiring reformers, Bartels and his colleagues provide a bracing reality check. For students and scholars of electoral politics, political communication, and voting behavior, they provide an authoritative summary and interpretation of what we know about the nature and impact of political campaigns. The insights and evidence contained in this volume should be of interest to anyone concerned about the present state and future prospects of American electoral process. Larry M. Bartels is Professor of Politics and Public Affairs and Stuart Professor of Communications and Public Affairs in the Woodrow Wilson School, Princeton University. Lynn Vavreck is Assistant Professor of Government, Dartmouth College. Other contributors are Bruce Buchanan, Tami Buhr, Ann Crigler, John G. Geer, Kathleen Hall Jamieson, Marion Just, Daron R. Shaw, and John Zaller.

The Damming of the Presidency Frederick D. Gordon, 2021-01-12 This study evaluates the 1927 Great Mississippi Flood and its impact on both the 1928 and 1932 presidential elections. Herbert Hoover surged forth to win the 1928 presidency but would suffer the greatest presidential defeat four years later. When did people change their minds? And were they influenced solely by the Great Depression or was there something else? Natural disasters and environmental

crises offer both opportunities and threats for a presidential candidate Challenger and incumbent must weave through a delicate maze of policy conundrums to garner national support Today the novel virus COVID 19 has altered modern society Policy and medical experts are scrambling to develop a vaccine Undoubtedly economic social and political landscapes are being redefined including their impact on presidential elections Thus a seminal question surfaces How do force majeure events impact a political campaign Other studies have yielded general assessments regarding presidential decision making during unforeseen events notably with 9 11 and Hurricane Katrina This book offers a vanguard approach by applying a historical lens and seeking to test the axiom of Farley s Law This important law suggests that peoples minds are made up at least six months before a national election and no matter how poorly situations develop party allegiance is supreme

Young v. Old Susan A. MacManus, 2018-02-12 Arguing that an inter generational war is brewing in the United States this book paints a picture of the ageing of America and what it means for politics and policy questions including social security health care crime jobs social welfare defence and foreign affairs Differences between older and younger citizens are examined in the light of voting and registration patterns ideological and party preferences and varieties of political activism Contemporary media and new technologies are highlighted as sources of disparities and bridges between the generations how they watch politics how they prefer to solve social problems and how inter generational understanding may be improved through communication and education

The Logic of American Politics Samuel Kernell, Gary C. Jacobson, Thad Kousser, Lynn Vavreck, 2019-02-20 Why does the American political system work the way it does Find the answers in The Logic of American Politics This best selling text arms you with a toolkit of institutional design concepts command veto agenda control voting rules and delegation that help you recognize how the American political system was designed and why it works the way it does The authors build your critical thinking through a simple yet powerful idea politics is about solving collective action problems Thoroughly updated to account for the most recent events and data the Ninth Edition explores the increase in political polarization the growing emotional involvement people have to politics Americans reactions to changing demographics the partisan politics of judicial selection and the changing nature of presidential leadership Revised to include the 2018 election results and analysis this edition provides you with the tools you need to make sense of today s government

Global Encyclopedia of Public Administration, Public Policy, and Governance Ali Farazmand, 2023-04-05 This global encyclopedic work serves as a comprehensive collection of global scholarship regarding the vast fields of public administration public policy governance and management Written and edited by leading international scholars and practitioners this exhaustive resource covers all areas of the above fields and their numerous subfields of study In keeping with the multidisciplinary spirit of these fields and subfields the entries make use of various theoretical empirical analytical practical and methodological bases of knowledge Expanded and updated the second edition includes over a thousand of new entries representing the most current research in public administration public policy governance nonprofit and

nongovernmental organizations and management covering such important sub areas as 1 organization theory behavior change and development 2 administrative theory and practice 3 Bureaucracy 4 public budgeting and financial management 5 public economy and public management 6 public personnel administration and labor management relations 7 crisis and emergency management 8 institutional theory and public administration 9 law and regulations 10 ethics and accountability 11 public governance and private governance 12 Nonprofit management and nongovernmental organizations 13 Social health and environmental policy areas 14 pandemic and crisis management 15 administrative and governance reforms 16 comparative public administration and governance 17 globalization and international issues 18 performance management 19 geographical areas of the world with country focused entries like Japan China Latin America Europe Asia Africa the Middle East Russia and Eastern Europe North America and 20 a lot more Relevant to professionals experts scholars general readers researchers policy makers and manger and students worldwide this work will serve as the most viable global reference source for those looking for an introduction and advance knowledge to the field

Handbook of Party Politics Richard S Katz, William J Crotty, 2006-01-05 This thoughtful and wide ranging review of parties and party research contains contributions from many of the foremost party scholars and is a must for all library shelves Richard Luther Keele University The study of political parties has never been livelier and this genuinely international Handbook theoretically rich comparatively informed and focused on important questions defines the field This volume is both an indispensable summary of what we know and the starting point for future research R K Carty University of British Columbia Political parties are ubiquitous but their forms and functions vary greatly from regime to regime from continent to continent and from era to era The Handbook of Party Politics captures this variation and richness in impressive ways The editors have assembled an excellent team and the scope of the volume is vast and intriguing Kaare Strom University of California San Diego Political parties are indispensable to democracy and a central subject of research and study in political science around the world This major new handbook is the first to comprehensively map the state of the art in contemporary party politics scholarship The Handbook is designed to provide an invaluable survey of the major theories and approaches in this dynamic area of study and research give students and researchers a concise road map to the core literatures in all the sub fields of party related theorizing and research identify the theories approaches and topics that define the current cutting edge of the field The Handbook is comparative in overall approach but also addresses some topics to be addressed in nationally or regionally specific ways The resulting collaboration has brought together the world s leading party theorists to provide an unrivalled resource on the role of parties in the pressing contemporary problems of institutional design and democratic governance today

American Government Cal Jillson, 2020-12-14 American Government Constitutional Democracy Under Pressure highlights the necessary tension between our constitutional principles and institutions and the populist heat that sometimes roils our national politics especially at the current political moment Our constitutional democracy has been under pressure

for some time but few would deny that fears for its fate have deepened in just the past few years We assume that our political institutions will limit and contain contemporary populism just as the Founders intended and as they have in the past but will they An increasingly polarized electorate urging their representatives to fight and never to compromise may be stressing Constitutional limits This new edition offers to help American government teachers lead their students to a nuanced theoretical and practical understanding of what is happening in the politics of their Constitutional democracy today New to the Second Edition Further develops and highlights the distinguishing theme of the book Constitutional Democracy Under Pressure in light of Trump Administration events over the last two years Expands coverage of all media aspects including fake news social media responsible journalism and related topics including foreign manipulation of the news Includes the most recent election results Addresses issues specific to the Trump Administration including unique coverage of the 25th Amendment cabinet instability election interferences executive power and unitary action and impact on the courts Updates in all tables figures suggested readings plus photo updates throughout

Knowledge Resistance in High-Choice Information Environments Jesper Strömbäck, Åsa Wikforss, Kathrin Glüer, Torun Lindholm, Henrik Oscarsson, 2022-05-23 This book offers a truly interdisciplinary exploration of our patterns of engagement with politics news and information in current high choice information environments Putting forth the notion that high choice information environments may contribute to increasing misperceptions and knowledge resistance rather than greater public knowledge the book offers insights into the processes that influence the supply of misinformation and factors influencing how and why people expose themselves to and process information that may support or contradict their beliefs and attitudes A team of authors from across a range of disciplines address the phenomena of knowledge resistance and its causes and consequences at the macro as well as the micro level The chapters take a philosophical look at the notion of knowledge resistance before moving on to discuss issues such as misinformation and fake news psychological mechanisms such as motivated reasoning in processes of selective exposure and attention how people respond to evidence and fact checking the role of political partisanship political polarization over factual beliefs and how knowledge resistance might be counteracted This book will have a broad appeal to scholars and students interested in knowledge resistance primarily within philosophy psychology media and communication and political science as well as journalists and policymakers The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Competing Motives in the Partisan Mind Eric Groenendyk, 2013-09-05 Party identification may be the single most powerful predictor of voting behavior yet scholars disagree whether this is good or bad for democracy *Competing Motives in the Partisan Mind* provides a window into the nature of party identification by examining circumstances in which political attitudes and party identities collide

White House Studies Compendium Robert W. Watson, 2007 brings together piercing analyses of the American presidency dealing with both current issues and historical events The compendia consists of the combined and

rearranged issues of the journal White House Studies with the addition of a comprehensive subject index Preface

Collective Preferences in Democratic Politics Scott L. Althaus, 2003-09-08 Since so few people appear knowledgeable about public affairs one might question whether collective policy preferences revealed in opinion surveys accurately convey the distribution of voices and interests in a society This study the first comprehensive treatment of the relationship between knowledge representation and political equality in opinion surveys suggests some surprising answers Knowledge does matter and the way it is distributed in society can cause collective preferences to reflect disproportionately the opinions of some groups more than others Sometimes collective preferences seem to represent something like the will of the people but frequently they do not Sometimes they rigidly enforce political equality in the expression of political viewpoints but often they do not The primary culprit is not any inherent shortcoming in the methods of survey research Rather it is the limited degree of knowledge held by ordinary citizens about public affairs Accounting for these factors can help survey researchers journalists politicians and concerned citizens better appreciate the pitfalls and possibilities for using opinion polls to represent the people s voice

Voting Behaviour in Canada Cameron D. Anderson, Laura B. Stephenson, 2011-01-01 The recent string of minority governments has reminded Canadians that voting behaviour has serious consequences on the composition of government as well as on the direction of public policy Understanding the underlying meaning of election results is a key issue for policy makers and for students and scholars of politics But can voting behaviour be explained given that each vote represents the influence of countless impressions decisions and attachments Voting Behaviour in Canada reveals the challenges of understanding election results as leading young scholars of political behaviour piece together a comprehensive portrait of the modern Canadian voter By systematically exploring long standing attachments short term influences and proximate factors campaign issues and poll results the contributors offer a multifaceted analysis of voting behaviour that incorporates the insights of theories developed to illuminate the influence of certain factors Theoretically grounded and methodologically advanced Voting Behaviour in Canada sheds new light on the choices we make as citizens and provides important insights into recent national developments

Politics Is a Joke! S. Robert Lichter, Jody C Baumgartner, Jonathan S. Morris, 2018-09-03 Does late night political humor matter Are late night comedians merely entertaining or do they have the power to influence the way we think about politics and politicians Politics Is a Joke situates late night comedy in the historical context of political humor and demonstrates how the public turn to this venue for political information and are in turn affected by it Using exclusive data collected by the Center for Media and Public Affairs the authors conduct a detailed and exhaustive analysis of political jokes on late night TV shows dating back to 1992 in order to pinpoint the main targets and themes of late night comedy Politics Is a Joke uses a wide range of examples from jokes about politicians physical appearance and sex scandals to jokes about Congress and even the news media to assess and understand the impact of political humor on political institutions politicians and their policies and behavior Engagingly written with

analysis of jokes from comedians like Jay Leno Conan O'Brien Jon Stewart and Stephen Colbert Politics is a Joke is essential reading for anyone who wants to understand the crucial role late night comedy plays in our political universe and anyone who enjoys a good laugh *Picking Presidents* Gautam Mukunda, 2022-10-18 This book synthesizes a new way of understanding leader selection with research from political science management psychology and other fields to provide an objective non-partisan way to evaluate Presidential candidates that anyone can use and that requires only information about candidates that would be widely available before the election It's a system that American citizens can use to answer the most important question they are ever asked Should this person be President We begin by identifying what sort of presidential candidates are likely to become Presidents who will make a real difference Surprisingly not all Presidents do Some despite the awesome power placed in their hands are surprisingly inconsequential Then we'll examine some of the best and worst of the 44 members of history's most exclusive club which will help us understand what traits are likely to produce failed and successful presidencies and how to detect them Next we'll use this lens to examine Donald Trump the modern president who has perhaps inflamed the most intense passions on either end of the political spectrum and Joe Biden the President as this book goes to print Finally I will suggest some plausible reforms to the way we nominate candidates and changes to the powers of the Presidency that might help us improve the quality and performance of future presidents Conventional Wisdom and American Elections Jody C Baumgartner, Peter L. Francia, 2019-11-12 During every election cycle political observers generate a seemingly limitless supply of theories opinions and predictions Unfortunately many of these assertions oversimplify complex subjects or overhype the latest political fads Inevitably some misinformation becomes part of the conventional wisdom about American elections The objective of *Conventional Wisdom and American Elections* Exploding Myths Exploring Misconceptions is to bring clarity to several of these subjects For example it is now commonplace for commentators to emphasize the negative tactics and practices of the campaigns of presidential candidates In 2016 some commentators suggested that the presidential campaign was the nastiest ever with the campaigns of President Donald Trump Hillary Clinton and their supporters going to new extremes of negativity However these claims are not new Dating as far back as the presidential election of 1800 critics of Thomas Jefferson stated that his potential victory would bring about legal prostitution and the burning of the Bible In 1824 opponents of Andrew Jackson charged that he was a murderer and that his wife was a bigamist Perhaps most scurrilous of all Jackson's opponents even accused his dead mother of being a prostitute In total *Conventional Wisdom and American Elections* identifies eleven widely held myths and misconceptions about elections in the United States The conclusions drawn throughout the book are based on the most current political science research In some instances the literature is clear in debunking popular myths about American elections On other issues research findings are more mixed In either case *Conventional Wisdom and American Elections* clarifies the issues so that readers can discern between those in which scholars have largely resolved and those in which honest debate remains *Constitutional*

Ratification without Reason Jeffrey A. Lenowitz, 2022-03-10 This volume focuses on constitutional ratification the procedure in which a draft constitution is submitted by its creators to the people or their representatives in an up or down vote determining implementation Ratification is increasingly common and routinely recommended by experts Nonetheless it is neither neutral nor inevitable Constitutions can be made without it and when it is used it has significant effects This raises the central question of the book should ratification be recommended Put another way is there a reason for treating the procedure as a default for the constitution making process Surprisingly these questions are rarely asked The procedure's worth is assumed not demonstrated while ratification is generally overlooked in the literature In fact this is the first sustained study of ratification To address these oversights this book defines ratification and its types explains the procedure's effects conceptual origins and history and then concentrates on finding reasons for its use Specifically it builds up and analyzes the three most likely normative justifications These urge the implementation of ratification because the procedure enables the constituent power to make its constitution fosters representation during constitution making or helps create a legitimate constitution Ultimately these justifications are found wanting leading to the conclusion that ratification lacks a convincing context independent justification Thus until new arguments are developed experts should not give

recommendations for ratification as a matter of course practitioners should not reach for it uncritically and more generally one should avoid the blanket application of concepts from democratic theory to extraordinary contexts such as constitution making

Consumer Democracy Margaret Scammell, 2014-02-10 This book argues that marketing is inherent in competitive democracy explaining how we can make the consumer nature of competitive democracy better and more democratic Margaret Scammell argues that consumer democracy should not be assumed to be inherently antithetical to proper political discourse and debate about the common good Instead Scammell argues that we should seek to understand it to create marketing literate criticism that can distinguish between democratically good and bad campaigns and between shallow cynical packaging and campaigns that at least aspire to be responsive engender citizen participation and enable accountability Further we can take important lessons from commercial marketing enjoyment matters what citizens think and feel matters and just as in commercial markets structure is key the type of political marketing will be affected by the conditions of competition

A Citizen's Guide to U.S. Elections Costas Panagopoulos, Aaron C. Weinschenk, 2015-11-06 Political observers routinely lament that American democracy is broken and many of them blame electoral malfunction But is the system really broken Panagopoulos and Weinschenk make the case that citizens are empowered to fix what's wrong with electoral politics and renew democracy in America all within the institutional setup and framework of the existing system Put simply much of what is broken can be fixed if people stop throwing up their arms and start rolling up their sleeves to do the hard work of building our democracy This book provides an overview of the basic features that characterize contemporary elections in the United States and includes discussions about voter participation and decision making patterns money in

elections and the role of parties and the media in presidential congressional and state and local races It also outlines some of the most important trends and challenges in the current system As a call to action each chapter features potential solutions to the challenges that exist in U S elections

Research Handbook on Visual Politics Darren Lilleker, Anastasia Veneti, 2023-01-13 The Research Handbook on Visual Politics focuses on key theories and methodologies for better understanding visual political communication It also concentrates on the depictions of power within politics taking a historical and longitudinal approach to the topic of placing visuals within a wider framework of political understanding
