Century British Secularism rethinks and reevaluates the significance of Holyoake's Secularism regarding it as a historic moment of modernity and granting it centrality as both a herald and exemplar for a new understanding of modern secularity. In addition to Secularism proper, the book treats several other moments of secular emergence in the nineteenth century, including Thomas Carlyle's natural supernaturalism, Richard Carlile's anti-theist science advocacy, Charles Lyell's uniformity principle in geology, Francis Newman's naturalized religion or primitive Christianity, and George Eliot's secularism and post-secularism.

The Victorian Cult of Shakespeare Charles LaPorte, 2020-11-05 How and why did Victorian culture make Shakespeare into a literary deity and his work into a secular Bible? *Nineteenth-Century Religion and Literature* Mark Knight, Emma Mason, 2006-11-16 This work introduces key debates, movements, and ideas relating to the Christian religion and connects these to literary developments from 1750-1914. The authors provide close readings of popular texts and use these to explore complex religious ideas.

Engaging with the Hopes of Parishes Brendan Reed, 2018 Catholic institutions today are faced with the challenge of redefining themselves within a context of growing pluralisation and detraditionalisation. Following the empirical work on Catholic School identity, *Identity in Dialogue*, this book attends to the institution of the parish. *Engaging with the Hopes of Parishes* offers a theoretical framework for parish life in a new context. It introduces a new diagnostic tool, the Searching for Parish Engagement Scale, and it proposes four models for parish life today: the convinced parish, the engaged parish, the devoted parish, and the consumerist parish. Brendan Reed is a parish priest in the Archdiocese of Melbourne, Australia. He is adjunct lecturer at Catholic Theological College, University of Divinity.

The New Cambridge Modern History Peter Burke, 1979 Annotation: A comprehensive examination of the political, economic, social, and cultural development of the world from 1493 to 1945.

Religion, Equalities, and Inequalities Dawn Llewellyn, Sonya Sharma, 2016-07-22 Presenting cutting-edge research on how religion can confront and obscure social inequalities in everyday life, *Religion, Equalities, and Inequalities* argues that when religion is left out of social scientific analyses, it can result in incomplete analyses that conceal pathways to social inclusion and exclusion. Bringing together an international and interdisciplinary group of contributors who operate at the vanguard of theoretical and empirical work on how social structures of power, institutions, and bodies can generate equalities and inequalities in religion, the collection shows how religion can enable and challenge the inequities that affect people's everyday lives. Academics and students of religious studies, sociology, politics, and social policy will all find this book offers useful insights into the relationship between religion and contemporary culture.
