Secularization and Fundamentalism Reconsidered Jeffrey K. Hadden, Anson D. Shupe, 1989 *Secularization and Fundamentalism Reconsidered: Religion and the political order* Jeffrey K. Hadden, Anson D. Shupe, 1989 *The Secularization Debate* William H. Swatos (Jr.), 2000 Introduced to social scientific audiences by Max Weber the concept of secularization has had a major influence on the way in which religion has been understood in the West But at least since the late 1980s both the predictive and the descriptive adequacy of this concept have been seriously challenged In the face of this challenge The Secularization Debate offers a timely summary of the critical issues that have arisen over the past decade With its wide range of essays by prominent international scholars The Secularization Debate is sure to become a pivotal volume for anyone interested in the hotly contested concept of secularization and its continued relevance to the study of religion

Religion and the Political Order: Secularization and fundamentalism reconsidered, 1986 **Public Religions in the Modern World** José Casanova, 2011-08-29 In a sweeping reconsideration of the relation between religion and modernity Jose Casanova surveys the roles that religions may play in the public sphere of modern societies During the 1980s religious traditions around the world from Islamic fundamentalism to Catholic liberation theology began making their way often forcefully out of the private sphere and into public life causing the deprivatization of religion in contemporary life No longer content merely to administer pastoral care to individual souls religious institutions are challenging dominant political and social forces raising questions about the claims of entities such as nations and markets to be value neutral and straining the traditional connections of private and public morality Casanova looks at five cases from two religious traditions Catholicism and Protestantism in four countries Spain Poland Brazil and the United States These cases challenge postwar and indeed post Enlightenment assumptions about the role of modernity and secularization in religious movements throughout the world This book expands our understanding of the increasingly significant role religion plays in the ongoing construction of the modern world **Secularism and Revivalism in Turkey** Andrew Davison, 1998-01-01 In this new interpretation of the modernisation secularization of Turkey Andrew Davison demonstrates the usefulness of hermeneutics in political analysis illuminating the complex relations between religion politics in post Ottoman Turkey *Born Again* Jennifer S. Butler, 2006-08-20 The Christian Right wields massive political power in the United States and beyond This is the first book to reveal the growing influence of the Christian Right within the United Nations This book reveals how Christian conservative groups are able to shape policy in every corner of the world Drawing on interviews with religious leaders it reveals how today s most powerful Christian Right organisations are building interfaith coalitions connecting Catholic Mormon and Muslim allies to advance a conservative agenda The US under Bush Jr has given them a significant voice in shaping US policy on issues including women s rights reproductive health human cloning children s rights and AIDS In short the Christian Right is globalising a phenomenon that promises to challenge progressive social policy on a world wide scale as well as transform the

Christian Right itself **The Challenge of Religion after Modernity** Raymond L. M. Lee, Susan E. Ackerman, 2018-05-08
This title was first published in 2003 If God has departed as Baudrillard claims is religion still relevant A new religious landscape is appearing in the new millennium The middle classes with their electronic technologies are producing a culture of commodified images and signs that is radically transforming the religious landscape and re enchanting the world Ecstatic experiences pervade the reenchanting world Both fundamentalism and the New Age movement promote the free flow of charisma reshaping religion in unforeseen directions Analysing the crisis of modernity this book delves into the intricacies of these movements to examine the implications of religious change in the new millennium The authors provide an incisive assessment of religious change in the West and Asia to suggest an eclecticism in re enchantment that will usher in new ideas about charisma consciousness and spirituality These ideas focus on new forms of shamanism that point the way to experiences of empowerment beyond the structures of disenchantment Sociology of Religion in Turkey Zuhul Ağılkaya Şahin, Asım Yapıcı, Sarah Demmrich, 2021-12-01 I find in this volume an admirable mix of empirical material on for example religious socialization and perceptions of gender and reflective pieces which interrogate the place of religion in Turkish society Key in this respect is the fact that Turkey is not simply a Muslim society but a distinctive one not least in terms of the functional differentiation of the modern republic and its consequent effect on religion a situation that offers a unique challenge to sociological enquiry The book concludes with a series of chapters that deal with the particularities of the modernization process in Turkey and the tensions social cultural and political that have emerged as the modern state developed a stage by stage process Prof Grace Davie University of Exeter Great Britain *Religious Freedom, Multiculturalism, Islam* Tuula Sakaranaho, 2006-11-01 This is a comparative study of Muslims in Finland and the Republic of Ireland from the perspective of religious freedom and multiculturalism The book consists of three parts the first part discusses religious freedom and multiculturalism from a conceptual point of view and mainly within the context of Western Europe culminating in the cases of Finland and Ireland the second part deals with the establishment of Muslim communities in Europe in general and in Finland and Ireland in particular and the third part concerns Islam and education in these respective countries *The Impact of Values* Jan W. van Deth, Elinor Scarbrough, 1998 Declining religiosity waning class values rising postmaterialism along with Green values postmodernism feminism are indicative of profound and widespread change in the values of citizens This volume tracks these changes and analyses their impact on political efficacy interest activity trust voting and involvement in new social movements Secular Steeples 2nd edition Conrad Ostwalt, 2012-09-27 An exploration of secularization in America this book provides students with an innovative way of understanding the relationship between religion and secular culture In *Secular Steeples* Conrad Ostwalt challenges long held assumptions about the relationship between religion and culture and about the impact of secularization Moving away from the idea that religion will diminish as secularization continues Ostwalt identifies areas of popular culture where secular and sacred views

and objectives interact and enrich each other The book demonstrates how religious institutions use the secular and popular media of television movies and music to make sacred teachings relevant From megachurches to sports arenas the Bible to Harry Potter biker churches to virtual worship communities Ostwalt demonstrates how religion persists across cultural forms secular and sacred with secular culture expressing religious messages and sometimes containing more authentic religious content than official religious teachings An ideal text for anyone studying religion and popular culture each chapter provides questions for discussion a list of important terms and guided readings
