*L O L* James Marsh Sternberg MD,Danny Kleinman,2021-08-29 Just what is LOL Yes a common abbreviation for Laughing Out Loud and often used to refer to a Little Old Lady but in bridge it means a Loser On Loser play At times a declarer can improve his/her situation by playing a losing card from one hand on a loser in a different suit from the hand opposite This occurs when a player has a loser in two suits but can arrange to lose them both on one trick thereby reducing the number of losers from two to one Often this looks like a Ruff and Sluff play but instead of ruffing declarer or dummy discards a loser in each hand When and why would one do this This technique has many uses One example is to keep the Danger hand off lead Often in the end game it serves as the exit in assisting the process of elimination and placing the lead in the hand of the desired opponent for an endplay The advantage of this procedure is that declarer divests himself of two losers while simultaneously placing the lead in the desired quarter

**Elimination & Endplays** James Marsh Sternberg MD,Danny Kleinman,2022-02-17 Card play at bridge embraces both declarer play and defense Hundreds of books have been written about it Our approach here as in our previous books is to focus on a particular deal type Repeated experience with a theme makes it easier to recognize deal types and employ the appropriate techniques for each A common and important line of play is elimination play eliminating the side suits to remove an opponent's safe exit cards before throwing him in to make a fatal lead More than most other deal types endplays require planning and preparation In this as in our previous books we show deals as they were misplayed at rubber bridge or its sister form of contest team play at IMPs Usually you will see a deal in which declarer falls short of his contract by one trick Do not concern

yourself with overtricks In the forms of contest assumed here making and breaking contracts is the objective Take each misplayed deal as a challenge to find a better line usually one that works but no guarantees An 80% play fails 20% of the time but is significantly better than a 60% play and much better than a 40% play
