supernatural horror in fiction film comics and music This relationship between philosophy and horror does not mean the philosophy of horror if anything it means the reverse the horror of philosophy those moments when philosophical thinking enigmatically confronts the horizon of its own existence For Thacker the genre of supernatural horror is the key site in which this paradoxical thought of the unthinkable takes place The cover of *In the Dust of this Planet* can be seen in a New York gallery on a banner at the 2014 Climate Change march in New York and on Jay Z's back promoting *Run* The book influenced the writers of the US TV series *True Detective* and has been lambasted by ex Fox News broadcaster Glenn Beck in this podcast [https://www.youtube.com/watch?v=2IW8OK4\\_1gQ](https://www.youtube.com/watch?v=2IW8OK4_1gQ)
