new parents giving them a guide to the first year of a baby's life and the growth of his or her individual mind. Through specific month by month play options and the research behind them, psychoanalyst Laurie Hollman helps us understand how to create secure attachments between baby and mother even before they can communicate with language. While aiding natural development is a big plus, the real payoff for parents comes from the baby's reaction when we play on the baby's level: we engage and connect more deeply and we have more fun.
