Seeing And Knowing Women And Learning In Medieval:

Seeing and Knowing Anneke B. Mulder-Bakker, 2004 The studies within this volume apply insights gained from gender studies to reconsider the way knowledge and learning was transmitted in medieval Europe 1200-1550 Traditional scholarship has largely concentrated on the clerical and academic context of conventional learning It tended to focus on the contents and methods of formal education as well as on a small group of educational institutions from which women were excluded In this volume authors consider how learning was transmitted outside the schools in particular within women's communities They raise a range of questions how was knowledge transmitted in an oral context what varieties of knowledge were available to communities of women What kinds of learning are characteristic of such communities What techniques did women develop to preserve and transmit their knowledge and how was it valorized both within their communities and by authoritative outsiders Under what circumstances could women themselves gain authority in passing on knowledge to a wider audience

Women and Experience in Later Medieval Writing A. Mulder-Bakker, 2009-04-27 This volume examines the common medieval notion of life experience as a source of wisdom and traces that theme through different texts and genres to uncover the fabric of experience woven into the writings by for and about women

The Thinking Historian Eric W. Sager, 2025-01-27 What is history What are historians doing when we create our histories The need for answers is more urgent than ever We live in an era when history is often rejected or ignored and when all teachers of history confront formidable challenges In the culture of screen capitalism and social media historical knowledge is evaded in an expanding present-minded consciousness How can history be defended and what is it that we are defending This book argues that history is a mode of thinking a form of imaginative reasoning with its own informal logic In non-technical language and using examples from important works of history the book defines core elements in historical thinking These include contingency complexity temporality parts and wholes consilience perspectives analogy and abduction These elements are subsumed into the concept of imaginative reasoning The overall argument echoes the work of hermeneutic philosophers History is a disciplined imagination tempered and empowered by its forms of reasoning It embraces ethical imperatives that the historian has a duty to declare Equipped with such understanding historians may answer the many rejections of history and secure its place in our shared futures

Gender, Catholicism and Spirituality Laurence Lux-Sterritt, Carmen Mangion, 2010-12-09 This timely collection of essays on British and European Catholic spiritualities explores how ideas of the sacred have influenced female relationships with piety and religious vocations over time Each of the studies focuses on specific persons or groups within the varied contexts of England France Italy the Netherlands and Spain together spanning the medieval period through to the nineteenth century Examining the interplay between women's religious roles and patriarchal norms the volume highlights the relevance of gender and spirituality through a wide geographical and chronological spectrum It is an essential resource for students of Gender History Women's Studies and Religious Studies introducing a wealth of new research and

providing an approachable guide to current debates and methodologies Contributions by Nancy Jiwon Cho Frances E Dolan Rina Lahav Jenna Lay Laurence Lux Sterritt Carmen M Mangion Querciolo Mazzonis Marit Monteiro Elizabeth Rhodes Kate Stogdon Anna Welch *Fictive Orders and Feminine Religious Identities, 1200-1600* Alison More, 2018-02-17 Any visitor to Belgium or the Netherlands is immediately struck by the number of convents and beguinages begijnhoven in both major cities and small towns Their number and location in urban centres suggests that the women who inhabited them once held a prominent role Despite leaving a visible mark on cities in Europe much of the story of these women known variously as beguines tertiaries klopjes recluses and anchoresses remains to be told Instead of aspiring to live as traditional religious they transcended normative assumptions about religion and gender and had a very real impact on their religious and secular worlds The sources for their tale are often fragmentary and difficult to interpret However careful scrutiny allows their voices to be heard Drawing on an array of sources including religious rules sermons hagiographic vitae and rapiaria *Fictive Orders and Feminine Religious Identities* traces the story of pious laywomen between the thirteenth and sixteenth centuries It both emphasizes the innovative roles of women who transcended established forms of institutional religious life and reveals the ways in which historiographical habits have obscured the dynamic and fluid nature of their histories By highlighting the development of irregular and extraregular communities and tracing the threads of monasticisation that wove their way around pious laywomen this book draws attention to the vibrant and dynamic culture of feminine lay piety that persisted from the later middle ages onwards

More Than a Memory Johan Leemans, 2005 Throughout its history persecutions and martyrdom have been Christianity's faithful companions Remarkably enough Christians have always valued martyrdom in a positive way This positive evaluation of martyrdom most certainly has to do with the absolute uncompromising nature of it The martyrs lives and deaths represent the most uncompromising of answers to the divine call The focus of the contributions in this volume is not in the first place on reconstructing the historical events of the martyr's life and death wie es eigentlich gewesen ist but on the discourse generated by this event as mediated in texts *More than a Memory* aims to explore the reciprocal relationship between this discourse of martyrdom and the construction of Christian identity It will do so by presenting a number of test cases in which this dynamic can be seen at work They will lead the reader through the entire history of Christianity starting with the Martyrdom of Lyons and Vienne in the second century and ending in the Latin America of the 1960s Each article will present a test case of discourse analysis attempting to explore the issue of how a document or coherent group of documents contributed to create a distinct Christian identity Taken together the essays provide an array of examples of how martyrdom impinged on the way Christian identity has been negotiated in the Christian past In doing this the volume at the same time illustrates the sheer importance of martyrdom and the reflection and writing about it throughout the history of Christianity until today

Women's Roles in the Middle Ages Sandy Bardsley, 2007-06-30 Information about women in this truly fascinating period from 500 to 1500 is in great demand and has been a challenge for historians to uncover Bardsley has mined a wide range of primary sources from noblewomen's writing court rolls chivalric literature laws and legal documents to archeology and artwork This fresh survey provides readers with an excellent understanding of how women high and low fared in terms of religion work family law culture and politics and public life Even though medieval women were divided by social class religion age marital status place and period they were all subject to an overarching patriarchal structure and sometimes could transcend their inferior status Numerous examples of these exceptional women and their words are included Chapter 1 examines religion focusing on women's roles in the early Christian church the lives of nuns and other professional religious women such as anchoresses and Beguines the participation of Christian laywomen and the experiences of Jewish and Islamic women in Western Europe The second chapter examines women's work looking in turn at the kinds of work performed by peasant women townswomen and noblewomen Women's roles within the family form the subject of the third chapter This chapter follows women throughout the typical lifecycle from girl to widow examining the expectations and experiences of women at each stage Chapter 4 Women and the Law focuses on the ways in which laws both restricted and protected women It also considers the crimes with which women were most often charged and surveys laws regarding marriage and widowhood Women's roles in creative arts form the basis of the fifth chapter Women and Culture This chapter examines women's roles as artists authors composers and patrons as well as investigating the ways in which women were represented in works produced by men Finally chapter 6 discusses women's experiences in politics and public life While women as a group were typically banned from holding positions of public authority some found ways to get around this stricture while others were able to exercise power behind the scenes The final chapter thus encapsulates a major theme of this book the interplay between broader patriarchal forces that limited women's status and autonomy and the role of individuals who were able to overcome or circumvent such forces Medieval women were as a group subordinate to their husbands and fathers but certain women under certain circumstances evaded subordination

[Zealots for Souls](#) Anne Huijbers, 2018-01-22 *Zealots for souls* draws attention to the impact of the Observant reforms within the Order of Preachers and ambitiously stirs up a broad scope of questions pertaining to the institutional narratives produced within the order between c 1388 and 1517 Through the narratives and the forms of remembrance they fostered the author traces the development of contemporary characteristics of the Dominican self understanding The book shows the fluid boundaries

between the genres order chronicles convent chronicles collective biographies highlights the interplay between the narrative and the intended audience addresses the complex question of authorship and assesses the indebtedness of modern printed narratives to older chronicles or biographical collections The book demonstrates that the majority of the extant institutional narratives were written by Observant Dominicans who strived for the internal reform of their order They wrote history to justify their own reform agenda and therefore produced invariably partisan chronicles The work s method is widely applicable and contributes to further reassessment of institutional narratives as sources for the analysis of religious and intellectual transformations

Popular Opinion in the Middle Ages Charles W.

Connell, 2016-10-24 This book provides a needed overview of the scholarship on medieval public culture and popular movements such as the Peace of God heresy and the crusades and illustrates how a changing sense of the populus the importance of publics and public opinion and public spheres was influential in the evolution of medieval cultures Public opinion did play an important role even in the Middle Ages it did not wait until the era of modern history to do so Using modern research on such aspects of culture as textual communities large and small publics cults crowds rumor malediction gossip dispute resolution and the European popular revolution the author focuses on the Peace of God movement the era of Church reform in the tenth and eleventh centuries the rise and combat of heresy the crusades and the works of fourteenth century political thinkers such as Marsiglio of Padua regarding the role of the populus as the basis for the analysis The pattern of changes reflected in this study argues that just as in the modern world the simplistic idea of the public was a phantom Instead there were publics large and small that were influential in shaping the cultures of the era under review

Translating Christ in the Middle Ages Barbara Zimbalist, 2022-02-15 This study reveals how women's visionary texts played a central role within medieval discourses of authorship reading and devotion From the twelfth to the

fifteenth centuries women across northern Europe began committing their visionary conversations with Christ to the written word. Translating Christ in this way required multiple transformations: divine speech into human language, aural event into textual artifact, visionary experience into linguistic record, and individual encounter into communal repetition. This ambitious study shows how women's visionary texts form an underexamined literary tradition within medieval religious culture. Barbara Zimbalist demonstrates how within this tradition female visionaries developed new forms of authorship, reading, and devotion. Through these transformations, the female visionary authorized herself and her text and performed a rhetorical *imitatio Christi* that offered models of interpretive practice and spoken devotion to her readers. This literary-historical tradition has not yet been fully recognized on its own terms. By exploring its development in hagiography, visionary texts, and devotional literature, Zimbalist shows how this literary mode came to be not only possible but widespread and influential. She argues that women's visionary translation reconfigured traditional hierarchies and positions of spiritual power for female authors and readers in ways that reverberated throughout late medieval literary and religious cultures. In translating their visionary conversations with Christ into vernacular text, medieval women turned themselves into authors and devotional guides and formed their readers into textual communities shaped by gendered visionary experiences and spoken *imitatio Christi*. Comparing texts in Latin, Dutch, French, and English, *Translating Christ in the Middle Ages* explores how women's visionary translation of Christ's speech initiated larger transformations of gendered authorship and religious authority within medieval culture. The book will interest scholars in different linguistic and religious traditions in medieval studies, history, religious studies, and women's and gender studies.
