its traditional critique of capital the state and class society and has instead reinforced existing power structures in the name of saving lives In doing so the left has contributed to widespread suffering especially among the vulnerable groups in society the measures claimed to protect particularly children the elderly and the poor COVID 19 and the Left explores why the left has departed from its self understanding as a critical force against state power unfettered capital accumulation the digital transformation biopolitics and a politics of social discrimination and instead has largely assumed a stance in line with the neoliberal consensus In particular the essays in this collection explore the role of fear panic and psychological blackmailing as a tool of domination in late capitalist society and consider whether the left has been a victim or an active perpetrator of a tyranny of fear Drawing upon approaches from various disciplines and interrogating shibboleths on the left and right the essays in this volume consider the ideological sociocultural and economic implications of the historical rupture that the COVID 19 pandemic presents and instead argue for a counter narrative to fear and its harmful consequences This provocative collection will be of considerable interest to those with an interest in the contemporary left and the impact of the COVID 19 pandemic

recognized breeds While we have shaped the dog it too has helped shape human history in innumerable ways Our Debt to the Dog is a critical historical and cross cultural examination through the use of case studies of this most improbable 15 000 year relationship and an exploration of how this relationship shaped the history of the world It is also very much an apology to the dog because over the course of the partnership horrific acts were perpetrated against it intentionally and otherwise Our Debt to the Dog enriches our understanding of the dog and extends our appreciation for the profound complexity of past and present human canine relationships and the dog s contributions to our lives and our world **Ontario.
