Seeking Minopimatisiwin An Aboriginal Approach To Helping:

Indigenous Social Work around the World John Coates, 2016-05-23 How can mainstream Western social work learn from and in turn help advance indigenous practice This volume brings together prominent international scholars involved in both Western and indigenous social work across the globe including James Midgley Linda Briskman Alean Al Krenawi and John R Graham to discuss some of the most significant global trends and issues relating to indigenous and cross cultural social work The contributors identify ways in which indigenization is shaping professional social work practice and education and examine how social work can better address diversity in international exchanges and cross cultural issues within and between countries Key theoretical methodological and service issues and challenges in the indigenization of social work are reviewed including the way in which adaptation can lead to more effective practices within indigenous communities and emerging economies and how adaptation can provide greater insight into cross cultural understanding and practice

Seeking Mino-Pimatisiwin Michael Hart, 2020-07-25T00:00:00Z Historically social work and psychology professions have pressured and coerced Aboriginal peoples to follow the euro centric ways of society The needs of Aboriginal peoples have not been successfully addressed by helping profession due to a limited attempt to incorporate Aboriginal perspectives and practices of helping Michael Hart briefly discusses colonization from an Aboriginal perspective ontological imperialism social work's role in colonial oppression and the dynamic of resistance Seeking Mino Pimatisiwin encourages Aboriginal concepts values and perspectives to be effectively incorporated by helpers trained in counselling supporting and teaching disciplines Micheal Hart uses his own personal and professional experiences and that of other Aboriginal helpers Throughout the book he outlines ways of adopting an Aboriginal Approach to helping The closing chapter examines one such approach the sharing circle and how it can be used to guide practice with individuals families and groups in several contexts

International Indigenous Voices in Social Work Michael Anthony Hart, Amanda Burton, Kimberly Hart, 2016-08-17 In 2013 the International Indigenous Voices in Social Work Conference was held in Winnipeg Canada with Indigenous and non Indigenous participants from all over the world This book is a collaboration of works stemming from this conference and reflects the conference's theme of Indigenous Knowledges resurgence implementation and collaboration As Indigenous scholars and practitioners and non Indigenous allies the contributors here see the importance of Indigenous Knowledges for social work and related professions Furthermore they recognize that the colonial structures that are in place throughout the globe can only be dismantled through reliance on Indigenous knowledges and practices This book makes a leading and impactful contribution to these anti colonial and Indigenist efforts [Indigenous Methodologies](#) Margaret Kovach, 2021-07-12 An innovative and important contribution to Indigenous research approaches this revised second edition provides a framework for conducting Indigenous methodologies serving as an entry point to learn more broadly about Indigenous research **Handbook of Research on Indigenous Knowledge and Bi-Culturalism in a Global Context**

Hameed, Shahul, El-Kafafi, Siham, Waretini-Karena, Rawiri, 2019-02-15 Society is continually moving towards global interaction and nations often contain citizens of numerous cultures and backgrounds Bi culturalism incorporates a higher degree of social inclusion in an effort to bring about social justice and change and it may prove to be an alternative to the existing dogma of mainstream Europe based hegemonic bodies of knowledge The Handbook of Research on Indigenous Knowledge and Bi Culturalism in a Global Context is a collection of innovative studies on the nature of indigenous bodies knowledge that incorporates the sacred or spiritual influence across various countries following World War II while exploring the difficulties faced as society immerses itself in bi culturalism While highlighting topics including bi cultural teaching Africology and education empowerment this book is ideally designed for academicians urban planners sociologists anthropologists researchers and professionals seeking current research on validating the growth of indigenous thinking and ideas *Indigenous Research* Deborah McGregor, Jean-Paul Restoule, Rochelle Johnston, 2018-08-15 Indigenous research is an important and burgeoning field of study With the Truth and Reconciliation Commission's call for the Indigenization of higher education and growing interest within academic institutions scholars are exploring research methodologies that are centred in or emerge from Indigenous worldviews epistemologies and ontology This new edited collection moves beyond asking what Indigenous research is and examines how Indigenous approaches to research are carried out in practice Contributors share their personal experiences of conducting Indigenous research within the academy in collaboration with their communities and with guidance from Elders and other traditional knowledge keepers Their stories are linked to current discussions and debates and their unique journeys reflect the diversity of Indigenous languages knowledges and approaches to inquiry Indigenous Research Theories Practices and Relationships is essential reading for students in Indigenous studies programs as well as for those studying research methodology in education health sociology anthropology and history It offers vital and timely guidance on the use of Indigenous research methods as a movement toward reconciliation **Revitalising Communities in a Globalising World** Lena Dominelli, 2018-02-06 Revitalising Communities in a Globalising World explores the opportunities and constraints that the dynamics of globalisation present for human development in a range of different countries and situations Arguing that globalisation is currently a system of organising social relations along neoliberal lines this timely volume examines practical examples of how people respond to significant social changes in their communities The idea of communities is deconstructed to show that globalisation has collapsed the boundaries of time space and place in ways that have exacerbated inequalities at the same time giving rise to unparalleled riches for some The book encompasses a number of case studies that speak to policymakers practitioners educators and students interested in studying globalisation and making the most of its potential for change Reconfiguring Citizenship Mehmoona Moosa-Mitha, 2016-03-23 Citizenship as a status assumes that all those encompassed by the term citizen are included albeit within the boundaries of the nation state Yet citizenship practices can be both inclusionary and exclusionary with far reaching ramifications for both

nationals and non nationals This volume explores the concept of citizenship and its practices within particular contexts and nation states to identify whether its claims to inclusivity are justified This will show whether the exclusionary dimensions experienced by some citizens and non citizens are linked to deficiencies in the concept country specific policies or how it is practised in different contexts The interrogation of citizenship is important in a globalising world where crossing borders raises issues of diversity and how citizenship status is framed This raises the issue of human rights and their protection within the nation state for people whose lifestyles differ from the prevailing ones Besides highlighting the importance of human rights and social justice as integral to citizenship it affirms the role of the nation state in safeguarding these matters It does so by building on Indigenous peoples insights about linking citizenship to connections to other people and the environment and arguing for the inalienability and portability of citizenship rights guaranteed collectively through international level agreements These issues are of particular concern to social workers given that they must act in accordance with the principles of democracy equality and empowerment However citizenship issues are often inadequately articulated in social work theory and practice This book redresses this by providing social workers with insights knowledge values and skills about citizenship practices to enable them to work more effectively with those excluded from enjoying the full rights of citizenship in the nation states in which they reside

[Walking This Path Together, 3rd Edition](#) Gwendolyn

Gosek, 2025-04-29T00:00:00Z Canadian child welfare policies and practices have been central to maintaining a settler colonial nation by controlling and managing the childhoods and future lives of children While ostensibly grounded in the best interests of the child child welfare policies and practices far too often make the lives of young people more precarious because they are stratified along race and class lines rather than caring for their wellbeing There have been dire consequences for Indigenous communities but also for Black newcomer non citizen and poor people who are also disproportionately the primary focus of child welfare The contributors to this book reveal these unjust conditions so that workers can contribute to the ongoing transformation of child welfare to facilitate child wellbeing The third edition of

Walking This Path Together continues the transformative vision of the first two editions and charts a new way forward. There are several new chapters and authors who focus on Māori kinship protocols, family group conferencing, decolonizing child welfare and the criminalization of newcomers, refugee children and Indigenous youth in care. They demonstrate how to bring forward transformative practices to moving child welfare into a truly new decolonial era. This transformative vision is the path that we are walking.

Under-Served Akshaya Neil Arya, Thomas Piggott, 2018-09-18. In this edited collection, academics, health care professionals and policy makers examine the historical, political and social factors that influence the health and health care of Indigenous inner city and migrant populations in Canada. This crucial text broadens traditional determinants of health: social, economic, environmental and behavioural elements to include factors like family and community, government policies, mental health and addiction, disease, homelessness and housing, racism, youth and LGBTQ that heavily influence these under-served populations. With contributions from leading scholars including Dennis Raphael, this book addresses the need for systemic change both in and outside of the Canadian health care system and will engage students in health studies, nursing and social work in crucial topics like health promotion, social inequality and community health.

Walking in the Good Way Gail Stacey-Moore, Ingrid Thompson-Cooper, 2009. Do you know how scary it is to want something so bad you're willing to change your whole life for it? Emily Cooper is ready to risk everything to be with the man who has consumed her thoughts and dreams since the fateful day they met. Unraveling fast, she can only cling to the hope that Gavin Blake still wants her. Nursing his wounded heart, Gavin has cut himself off from society and retreated into a self-destructive, mind-numbing world. Emily isn't used to being the strong one, but she'll have to find the daring and confidence within to fight for their love and bring Gavin back from the edge, even if it means losing herself to their all-consuming, pulse-pounding passion. A New York Times bestseller, *Pulse* is the unforgettable conclusion to the story of Emily and Gavin that began with *Collide*.

Indigenous Data Sovereignty and Policy Maggie Walter, Tahu Kukutai, Stephanie Russo Carroll, Desi Rodriguez-Lonebear, 2020-10-29. This book examines how Indigenous Peoples around the world are demanding greater data sovereignty and challenging the ways in which governments have historically used Indigenous data to develop policies and programs. In the digital age, governments are increasingly dependent on data and data analytics to inform their policies and decision making. However, Indigenous Peoples have often been the unwilling targets of policy interventions and have had little say over the collection, use and application of data about them, their lands and cultures. At the heart of Indigenous Peoples' demands for change are the enduring aspirations of self-determination over their institutions, resources, knowledge and information systems. With contributors from Australia, Aotearoa New Zealand, North and South America and Europe, this book offers a rich account of the potential for Indigenous data sovereignty to support human flourishing and to protect against the ever-growing threats of data-related risks and harms.
