*The Intellectual in Twentieth-Century Southern Literature* Tara Powell, 2012-01-09 Never in its long history has the South provided an entirely comfortable home for the intellectual In this thought provoking contribution

to the field of southern studies Tara Powell considers the evolving ways that major post World War II southern writers have portrayed intellectuals from Flannery O'Connor's ironic view of interlockchuls to Gail Godwin's southerners striving to feel at home in the academic world Although Walker Percy like his fellow Catholic writer O'Connor explicitly rejected the intellectual label for himself he nonetheless introduced the modern novel of ideas to southern letters Powell shows by placing sympathetic non-caricatured intellectuals at the center of his influential works North Carolinians Doris Betts and her student Tim McLaurin made their living teaching literature and creative writing in academia and Betts's fiction often includes dislocated academics while McLaurin's superb memoirs often funny frequently point up the limitations of the mind as opposed to the heart and the spirit Examining works by Ernest Gaines Alice Walker and Randall Kenan Powell traces the evolution of the black American literacy narrative from a stress on the post Emancipation conviction which saw formal education as an essential means of resisting oppression to the growing suspicion in the post civil rights era of literacy acts that may estrange educated blacks from the larger black community Powell concludes with Godwin who embraces university life in her fiction as she explores what it means to be a southern female intellectual in the modern world a world in which all those markers inscribe isolation

**The Relevance of Higher Education** Timothy Simpson, 2013-09-24 Most statements today about higher education begin with the assumption that it should be relevant That it should be relevant however does not settle the matter The significance of relevance depends on the power of something else that is more fundamental Relevance may be a true standard of judgment but it does not stand by itself Assuming higher education should be relevant the question emerges relevant to what Why How At what costs And relevant in what sense These are some of the central questions animating this study *The Relevance of Higher Education Exploring a Contested Notion* edited by Timothy L. Simpson examines the relevance

of higher education by bringing together the work of historians political scientists and educational philosophers The contributors probe the meaning of relevance in its many guises providing an historical and philosophical account of the roots of this concept and its impact on the institution of higher education Furthermore The Relevance of Higher Education provides a critical evaluation of the impact of relevance on our understanding of the political and economic relationship between higher education and society This study suggests views of relevance that could guide the future of higher education By providing penetrating analysis this text thoroughly explores relevance and its underlying assumptions potential implications and long lasting effects on higher education and society The Relevance of Higher Education provides the tools necessary to develop a rich framework for understanding relevance and its impact on higher education and society

**Dignity** Remy Debes, 2017 In everything from philosophical ethics to legal argument to public activism it has become commonplace to appeal to the idea of human dignity In such contexts the concept of dignity typically signifies something like the fundamental moral status belonging to all humans Remarkably however it is only in the last century that this meaning of the term has become standardized Before this dignity was instead a concept associated with social status Unfortunately this transformation remains something of a mystery in existing scholarship Exactly when and why did dignity change its meaning And before this change was it truly the case that we lacked a conception of human worth akin to the one that dignity now represents In this volume leading scholars across a range of disciplines attempt to answer such questions by clarifying the presently murky history of dignity from classical Greek thought through the Middle Ages and Enlightenment to the present day

**Daisy Miller** Henry James, 2011-11-14 Henry James's Daisy Miller was an immediate sensation when it was first published in 1878 and has remained popular ever since In this novella the charming but inscrutable young American of the title shocks European society with her casual indifference to its social mores The novella was popular in part because of the debates it sparked about foreign travel the behaviour of women and cultural clashes between people of different nationalities and social classes This Broadview edition presents an early version of James's best known novella within the cultural contexts of its day In addition to primary materials about nineteenth century womanhood foreign travel medicine philosophy theatre and art some of the topics that interested James as he was writing the story this volume includes James's ruminations on fiction theatre and writing and presents excerpts of Daisy Miller as he rewrote it for the theatre and for a much later and heavily revised edition

*Stael's Philosophy of the Passions* Tili Boon Cuillé, Karyna Szmurlo, 2013 Sensibility or the capacity to feel played a vital role in philosophical reflection about the natural sciences the social sciences and the arts in eighteenth century France Yet scholars have privileged the Marquis de Sade's vindication of physiological sensibility as the logical conclusion of Enlightenment over Germaine de Staël's exploration of moral sensibility's potential for reform and renewal that paved the way for Romanticism This volume of essays showcases Staël's contribution to the affective revolution in Europe investigating the personal and political circumstances that informed her theory of the passions and the social and aesthetic

innovations to which it gave rise Contributors move seamlessly between her political philosophical and fictional works attentive to the relationship between emotion and cognition and aware of the coherence of her thought on an individual national and international scale They first examine the significance Stal attributed to pity happiness melancholy and enthusiasm in *The Influence of the Passions* as she witnessed revolutionary strife and envisioned the new republic They then explore her development of a cosmopolitan aesthetic in such works as *On Literature* *Corinne or Italy* *On Germany* and *The Spirit of Translation* that transcended traditional generic national and linguistic boundaries Finally they turn to her contributions to the visual and musical arts as she deftly negotiated the transition from a Neoclassical to a Romantic aesthetic Stal's *Philosophy of the Passions* concludes that rather than founding a republic based on the rights of man Stal's reflection fostered international communities of women artists models and collectors authors performers and spectators enabling them to participate in the re articulation of sociocultural values in the wake of the French Revolution Contributors Tili Boon Cuill Catherine Dubeau Nanette Le Coat Christine Dunn Henderson Karen de Bruin M Ione Crummy Jennifer Law Sullivan Lauren Fortner Ravalico C C Wharram Kari Lokke Susan Tenenbaum Mary D Sheriff Heather Belnap Jensen Fabienne Moore Julia Effertz [Nineteenth-Century Literature Criticism](#) Russel Whitaker, Kathy D.
