Studies On Science And The Innovation Process: Selected Works By Nathan Rosenberg Nathan Rosenberg,2009-08-18

Science and technology have become increasingly intertwined in the twentieth century However little attention has been paid to the forces that have brought about this condition Indeed many scholars have taken it simply for granted that causality always runs from science to technology In this groundbreaking book Rosenberg s research suggests that history and extensive empirical evidence lead to a reality that is far more complex as well as far more interesting Here Rosenberg s papers explore a wide range of pertinent issues especially those connected with the innovative process including the realms of electric power electronics chemicals aircraft medicine instrumentation and in particular higher education and the organization of research activities
