Selected Legal Issues Of Ecommerce Law And Electronic Commerce:

Selected Legal Issues of E-Commerce Toshiyuki Kono, Christoph Paulus, Harry Rajak, 2002-08-28 So rapid have been the developments of e commerce that it is now frequently said that this is the future of any commerce and that it carries the potential for enormous growth at least for the business to business B2B sector This text covers some important legal issues arising in e commerce European Legal Aspects of E-commerce Martien Schaub, 2004 The year 2000 was when the European Union issued its E commerce Directive This directive regulates and facilitates e commerce in the internal market by laying down a clear and general legal framework favorable for business organizations as well as protecting the interests of consumers This book analyzes the consequences of the legal framework for business organizations involved with e commerce in Europe **Research on Selected China's Legal Issues of E-Business** Yimeei Guo, 2014-09-12 This book focuses on various problems arising as a result of China's e business development These include e commerce aspects of the internet industry and e governance aspects of the presiding agencies E privacy and online IPR protection will be of particular interest to readers as these are important international problems that China has been trying its best to deal with for many years Each paper in this book presents valuable guidelines and suggestions to allow readers to form a sound understanding of China's e business development Electronic Commerce 2018 Efraim Turban, Jon Outland, David King, Jae Kyu Lee, Ting-Peng Liang, Deborah C. Turban, 2017-10-12 This new Edition of Electronic Commerce is a complete update of the leading graduate level advanced undergraduate level textbook on the subject Electronic commerce EC describes the manner in which transactions take place over electronic networks mostly the Internet It is the process of electronically buying and selling goods services and information Certain EC applications such as buying and selling stocks and airline tickets online are reaching maturity some even exceeding non Internet trades However EC is not just about buying and selling it also is about electronically communicating collaborating and discovering information It is about e learning e government social networks and much more EC is having an impact on a significant portion of the world affecting businesses professions trade and of course people The most important developments in EC since 2014 are the continuous phenomenal growth of social networks especially Facebook LinkedIn and Instagram and the trend toward conducting EC with mobile devices Other major developments are the expansion of EC globally especially in China where you can find the world's largest EC company Much attention is lately being given to smart commerce and the use of AI based analytics and big data to enhance the field Finally some emerging EC business models are changing industries e g the shared economy models of Uber and Airbnb The 2018 9th edition brings forth the latest trends in e commerce including smart commerce social commerce social collaboration shared economy innovations and mobility **E-Commerce and Intelligent Methods** Javier Segovia, Piotr S. Szczepaniak, Marian Niedzwiedzinski, 2013-06-05 This book covers significant recent developments in the field of Intelligent Methods applied to eCommerce The Intelligent Methods considered are mainly Soft Computing Methods that include fuzzy

sets rough sets neural networks evolutionary computations probabilistic and evidential reasoning multivalued logic and related fields There is not doubt about the relevance of eCommerce in our daily environments and in the work carried out at many research centers throughout the world The application of AI to Commerce is growing as fast as the computers and networks are being integrated in all business and commerce aspects We felt that it was time to sit down and see how was the impact into that field of low level AI i.e softcomputing We found many scattered contributions disseminated in conferences workshops journal books or even technical reports but nothing like a common framework that could serve as a basis for further research comparison or even prototyping for a direct transfer to the industry We felt then the need to set up a reference point a book like this We planned this book as a recompilation of the newest developments of researchers who already made some contribution into the field The authors were selected based on the originality and quality of their work and its relevance to the field Authors came from prestigious universities and research centers with different backgrounds
