Beyond Maximus Anne Day Dewey, 2007 Beyond Maximus shows how field poetics influenced the construction of the public voices of five Black Mountain poets Charles Olson Robert Creeley Robert Duncan Denise Levertov and Ed Dorn in order to explain their association in the 1950s and 60s as well as their break up as a result of the political and poetic crises of the Vietnam War era

The New American Poetry, 1945-1960 Donald Allen, 1999 Donald Allen's prophetic anthology had an electrifying effect on two generations at least of American poets and readers More than the repetition of familiar names and ideas that most anthologies seem to be about here was the declaration of a collective intelligent and thoroughly visionary work in progress the primary example for its time of the anthology as manifesto Its republication today complete with poems statements on poetics and autobiographical projections provides us again with a model of how a contemporary anthology can and should be shaped In these essentials it remains as fresh and useful a guide as it was in 1960 Jerome Rothenberg editor of Poems for the Millennium The New American Poetry is a crucial cultural document central to defining the poetics and the broader cultural dynamics of a particular historical moment Alan Golding author of From Outlaw to Classic Canons in American Poetry

Everyday and Prophetic Nick Halpern, 2003 Everyday and Prophetic is the first book to describe and analyze at length the prophetic voice and the everyday voice in postwar and contemporary American poetry Nick Halpern's commentaries on the work of Robert Lowell A R Ammons James Merrill Adrienne Rich Jorie Graham and Louise Gluck serve the reader with a fresh and original context in which to see their work and Postwar American poetry

as a whole *Understanding the Black Mountain Poets* Edward Halsey Foster, 1995 An experimental school of poetry its leading proponents The New American Poetry John R. Woznicki, 2013-12-24 The New American Poetry Fifty Years Later is a collection of critical essays on Donald Allen's 1960 seminal anthology The New American Poetry an anthology that Marjorie Perloff once called the fountainhead of radical American poetics The New American Poetry is referred to in every literary history of post World War II American poetry Allen's anthology has reached its fiftieth anniversary providing a unique time for reflection and reevaluation of this preeminent collection As we know Allen's anthology was groundbreaking it was the first to distribute widely the poetry and theoretical positions of poets such as Charles Olson Allen Ginsberg and the Beats and it was the first to categorize these poets by the schools Black Mountain New York School San Francisco Renaissance and the Beats by which they are known today Over the course of fifty years this categorization of poets into schools has become one of the major if not only way that The New American Poetry is remembered or valued one certain goal of this volume as one reviewer invites is to pry The New American Poetry out from the hoary platitudes that have encrusted it To this point critics mostly have examined The New American Poetry as an anthology former treatments of The New American Poetry look at it intently as a whole Though the almost singularly focused study of its construction and less often reception has lent a great deal of documented highly visible and debated material in which to consider we have been left with certain notions about its relevance that have become imbued ultimately in the collective critical consciousness of postmodernity This volume however goes beyond the analysis of construction and reception and achieves something distinctive extending those former treatments by treading on the paths they create This volume aims to discover another sense of radical that Perloff articulated rather than a radical that departs markedly from the usual we invite consideration of The New American Poetry that is radical in the sense of root of harboring something fundamental something inherent as we uncover and trace further elements correlated with its widespread influence over the last fifty years
