Selected Writings Heinrich von Kleist, 2004-01-01 Aiming in his translation for an English haunted and affected by the strangeness of the original David Constantine offers a wealth of Heinrich von Kleist's key writings in this collection the most ambitious of its kind *Selected Writings: 1935-1938* Walter Benjamin, Howard Eiland, Gary Smith, 1996 This volume offers extensively annotated translations of essays that are key to Benjamin's rewriting of the story of modernism and modernity as well as a diary from 1938 and penetrating studies of Bertolt Brecht Franz Kafka and Eduard Fuchs *The Making of a Terrorist* Jeffrey Champlin, 2014-12-31 In *The Making of a Terrorist* Jeffrey Champlin examines key figures from three canonical texts from the German language literature of the late eighteenth and early nineteenth centuries Goethe's *Gotz von Berlichingen* Schiller's *Die Rauber* and Kleist's *Michael Kohlhaas* Champlin situates these readings within a larger theoretical and historical context exploring the mechanics aesthetics and poetics of terror while explicating the emergence of the terrorist personality in modernity In engaging and accessible prose Champlin explores the ethical dimensions of violence and interrogates an ethics of textual violence *Clausewitz in His Time* Peter Paret, 2014-12 Anything but a detached theorist Clausewitz was as fully engaged in the intellectual and cultural currents of his time as in its political and military conflicts Late eighteenth century thought helped shape the analytic methods he developed for the study of war The essays in this volume follow his career in a complex military society together with that of other students of war both friends and rivals providing a broad perspective that leads to significant documents so far unknown or ignored They add to our understanding of Clausewitz's early ideas and their expansion into a comprehensive theory that continues to challenge our thinking about war today **Crafting Flesh, Crafting the Self** John B. Lyon, 2006 This book analyzes wounded human bodies in early nineteenth century German literature and traces their connection to changing philosophical models of the self It argues that literary representations and metaphors of violence against the body not only offer powerful physical referents for a concept of self but that they also define violence as an integral component of the self **The Sick List** Ansgar Allen, 2021-06-30 *The Sick List* is about menace about a menace Gordon and is written in the voice of a menace It reads like one of the pen portraits of surreal ultra violence in Bernhard's Gargoyles where education turns out to be the most deceitful panacea of all Katharine Craik In this novel an unnamed academic in an unnamed contemporary university relates his obsession with his tutor Gordon He pores over the increasingly bizarre misreadings in Gordon's annotations in a strange selection of stolen library books Is Gordon unraveling a mystery Or is his own mind unraveling Meanwhile an epidemic of catatonia breaks out academics are found slumped and unconscious at their desks Is reading itself the cause of this sickness Is the only escape to return to illiteracy Witty moving and beautifully written *The Sick List* plays with the dividing line between deploring and exemplifying what it most despises Inspired by the work of the Austrian novelist Thomas Bernhard it considers how the minds of educated people are moulded by both the breadth of literary culture and the narrowness of academic institutions

The Sick List operates on the far side of literature John Schad Beyond Criticism Editions is the reincarnation of the Beyond Criticism book series originally published by Bloomsbury and now part of Boiler House Press own experiments with the radical new forms that literary criticism might take in the 21st century *Difference and Orientation* Alexander Kluge, 2019-09-15 Alexander Kluge is one of contemporary Germany's leading intellectuals and artists A key architect of the New German Cinema and a pioneer of auteur television programming he has also cowritten three acclaimed volumes of critical theory published countless essays and numerous works of fiction and continues to make films even as he expands his video production to the internet Despite Kluge's five decades of work in philosophy literature television and media politics his reputation outside of the German speaking world still largely rests on his films of the 1960s 70s and 80s With the aim of introducing Kluge's heterogeneous mind to an Anglophone readership *Difference and Orientation* assembles thirty of his essays speeches glossaries and interviews revolving around the capacity for differentiation and the need for orientation toward ways out of catastrophic modernity This landmark volume brings together some of Kluge's most fundamental statements on literature film pre and post cinematic media and social theory nearly all for the first time in English translation Together these works highlight Kluge's career spanning commitment to unorthodox essayistic thinking *Law and the Humanities: Cultural Perspectives* Chiara Battisti, Sidia Fiorato, 2019-12-02 This volume investigates interdisciplinary intersections between law and the humanities from the Renaissance to the present day It allows for fruitful encounters between different disciplines from literature to science from the visual arts to the post human from the postmodern novel's experimentation to most recent approaches towards the legal interpretation of literary texts This productive dialogue fosters original perspectives in the interpretation of and reflection upon identity justice power and human rights and values thus underlining the role of literature in the articulation of relevant cultural issues pertaining to specific periods **The Concept and Practice of Conversation in the Long Eighteenth Century, 1688-1848** Katie Halsey, Jane Slinn, 2009-05-05 This collection of essays brings together eighteenth century scholars from a variety of disciplines to discuss conversation in the eighteenth century as concept and practice At the heart of the volume is a simple question are eighteenth century conceptualisations of the role and purpose of conversation still relevant or useful to scholars and thinkers today This volume contains essays by leading scholars of the period as well as early career researchers and answers a need for a broad ranging discussion of the concept of conversation in the arts social sciences and humanities The long eighteenth century is a particularly fruitful starting point for work on this topic since ideas about conversation permeated all types of writing in this period from the early forerunners of scientific textbooks to philosophical dialogues The collection covers an exceptionally wide range of long eighteenth century authors artists lawmakers texts and works of art and although the focus of the volume is largely on eighteenth century Britain the volume takes note of the rich relationships between continental European thought and British intellectual life in the period and of the influence of British ideas in the newly independent American

republic *John Banville* Neil Murphy, 2018-05-18 John Banville offers a close analysis of most of Banville's major novels as well as the Quirke crime novels he has written under the pseudonym Benjamin Black and his dramatic adaptations of Heinrich von Kleist's plays. From the beginning Banville's work has been marked both by the presence of a complex embedded discourse about the significance of art and by a concurrent self-conscious obsession with its own status as art. His novels perpetually reveal an overt fascination with the visual arts in particular and with the aesthetic principle of literature as art. This study argues that as a whole Banville's work presents an elaborate and richly textured coded account of his relationship with art and with the self-referential fictional world that his novels have conjured. It is from this critical context that John Banville's central argument is derived. This book asserts that Banville's fiction can be viewed both as an extended interrogation into the meaning and status of art as well as itself being a representative of the type of art that is admired in the pages of the novels. As such it also represents an extremely sophisticated enactment of the novel form that goes beyond the self-reflexivity of late twentieth-century fiction to chart new developments in the literary arts. The book's critical process involves several specific reference points. Firstly Banville's own theoretical statements about art in interviews, essays, reviews, and journalistic writing over the past 40 years are synthesized into a coherent interpretation of the author's artistic vision which is thereafter used as a conceptual touchstone when considering his major works of fiction. This is done in conjunction with investigating specific theoretical perspectives about the relationship between literature and art by critics such as Denis Donoghue and Susan Sontag and by philosophers of art Graham Gordon, Etienne Gilson, Peter Lamarque, and Susanne Langer.
