Subcommittee on HUD-Space-Science-
Veterans**

Selectivity In Information Systems:

Information Systems: Modeling, Development, and Integration Jianhua Yang, Athula Ginige, Heinrich C. Mayr, Ralf-D. Kutsche, 2009-04-17 UNISCON 2009 United Information Systems Conference was the third conference in the series that is based on the idea to pool smaller but highly interesting scientific events on information systems into one large conference. Here people from different scientific backgrounds can present their research results, share their ideas and discuss future trends in these various areas. UNISCON 2009 was held in Sydney, Australia, in the University of Western Sydney Campbelltown Campus. In 2009 the following scientific events were held under the umbrella of UNISCON 2009: 8th International Conference on Information Systems Technology and Its Applications (ISTA), 8th International Workshop on Conceptual Modelling Approaches for e-Business (eCOMO), 2009 Second Workshop on Model Based Software and Data Integration (MBSDI). We received 115 papers for the three events. Papers were submitted from over 25 countries. After a rigorous review process, 39 papers were accepted as full papers and 14 papers as short papers for presentation at the conference and published in these proceedings. In addition to the above three events, we also organized a Doctoral Consortium to provide a forum for doctoral students to get feedback from experts in the area about their research projects.
