Self-Knowledge and the Self David A Jopling, 2002-09-11 In this clear and reasoned discussion of self knowledge and the self the author asks whether it is really possible to know ourselves as we really are He illuminates issues about the nature of self identity which are of fundamental importance in moral psychology epistemology and literary criticism Jopling focuses on the accounts of Stuart Hampshire Jean Paul Sartre and Richard Rorty and dialogical philosophical psychology and illustrates his argument with examples from literature drama and psychology

Know Thyself Mitchell S. Green, 2017-11-28 *Know Thyself The Value and Limits of Self Knowledge* takes the reader on tour of the nature value and limits of self knowledge Mitchell S Green calls on classical sources like Plato and Descartes 20th century thinkers like Freud recent developments in neuroscience and experimental psychology and even Buddhist philosophy to explore topics at the heart of who we are The result is an unvarnished look at both the achievements and drawbacks of the many attempts to better know one's own self Key topics in this volume include Knowledge what it means to know the link between wisdom and knowledge and the value of living an examined life Personal identity questions of dualism the idea that our mind is not only our brain bodily continuity and personhood The unconscious including the kind posited by psychoanalysis as well as the form proposed by recent research on the so called adaptive unconscious Free will if we have it and the recent arguments from neuroscience challenging it Self misleading the ways we willfully deceive ourselves and how this relates to empathy peer disagreement implicit bias and intellectual humility Experimental psychology considerations on the automaticity of emotion and other cognitive processes and how they shape us This book is designed to be used in conjunction with the free Know Thyself MOOC massive open online course created through collaboration of the University of Connecticut's Project on Humility and Conviction in Public Life and the University of Edinburgh's Eidyn research centre and hosted on the Coursera platform <https://www.coursera.org/learn/know-thyself> The book is also suitable as a text for interdisciplinary courses in the philosophy of mind or self knowledge and is highly recommended for anyone looking for a short overview of this fascinating topic

On the Way to Self Knowledge Jacob Needleman, Dennis Lewis, 1976 Help I need somebody but is it a guru or a shrink In response to this dilemma the philosopher Jacob Needleman arranged a lecture series at the University of California Medical Center in San Francisco in the hope of clarifying both the distinctions and the interrelations between these two paths of self knowledge psychotherapy and the ancient spiritual disciplines This book is the enriching and often electrifying result The eight lecturers psychotherapists interested in the further reaches of self development and spiritual teachers concerned with helping people live dispatch the basic question with little ultimate disagreement The consensus most

concisely expressed by British therapist A C Robin Skynner is that therapy and the sacred traditions lead in quite different one might say perpendicular directions therapy towards integration and functioning on the plane of normal daily life spiritual discipline towards the far more difficult and demanding ascent into transcendence and self evolution But while the confusion of the two can be dangerous properly understood they can assist and enhance each other Kirkus Reviews 10 15 76

Self-Knowledge Brie Gertler,2010-11-25 In this outstanding introduction Brie Gertler assesses the leading theoretical approaches to self knowledge explaining the work of many of the key figures in the field from Descartes and Kant through to Bertrand Russell and Gareth Evans as well as recent work by Tyler Burge David Chalmers William Lycan and Sydney Shoemaker Essential reading for students of philosophy of mind epistemology and metaphysics **Self-Knowledge and Resentment** Akeel Bilgrami,2012-03-05 In *Self Knowledge and Resentment* Akeel Bilgrami argues that self knowledge of our intentional states is special among all the knowledges we have because it is not an epistemological notion in the standard sense of that term but instead is a fallout of the radically normative nature of thought and agency Four themes or questions are brought together into an integrated philosophical position What makes self knowledge different from other forms of knowledge What makes for freedom and agency in a deterministic universe What makes intentional states of a subject irreducible to its physical and functional states And what makes values irreducible to the states of nature as the natural sciences study them This integration of themes into a single and systematic picture of thought value agency and self knowledge is essential to the book s aspiration and argument Once this integrated position is fully in place the book closes with a postscript on how one might fruitfully view the kind of self knowledge that is pursued in psychoanalysis

Self-Knowledge ,2018-11 **Self-knowledge:** John Mason,1794 Self Knowledge for Humans Quassim Cassam,2014 Humans are not model epistemic citizens Our reasoning can be careless our beliefs eccentric and our desires irrational Quassim Cassam develops a new account of self knowledge which recognises this feature of human life He argues that self knowledge is a genuine cognitive achievement and that self ignorance is almost always on the cards
