Self-Renewal John W. Gardner,2018-02-27 The only stability possible is stability in motion John William Gardner In his classic treatise *Self Renewal* John W Gardner examines why great societies thrive and die He argues that it is dynamism not decay that is dramatically altering the landscape of American society The twentieth century has brought about change more rapidly than any previous era and with that came advancements challenges and often destruction Gardner cautions that a society must court the kinds of change that will enrich and strengthen it rather than the kind of change that will fragment and destroy it A society s ability to renew itself hinges upon its individuals Gardner reasons that it is the waning of the heart and spirit not a lack of material might that threatens American society Young countries businesses and humans have several key commonalities they are flexible eager open curious unafraid and willing to take risks These conditions lead to success However as time passes so too comes complacency apathy and rigidity causing motivation to plummet It is at this junction that great civilizations fall businesses go bankrupt and life stagnates Gardner asserts that the individual s role in social renewal requires each person to face and look beyond imminent threats Ultimately we need a vision that there is something worth saving Through this vision Gardner argues society will begin to renew itself not permanently but past its average lifespan and it will at once become enriched and rejuvenated Renewal Anne-Marie Slaughter,2021-09-21 From the acclaimed author of *Unfinished Business* a story of crisis and change that can help us find renewed honesty and purpose in our personal and political lives Like much of the world America is deeply divided over identity equality and history *Renewal* is Anne Marie Slaughter s candid and deeply personal account of how her own odyssey opened the door to an important new understanding of how we as individuals organizations and nations can move backward and forward at the same time facing the past and embracing a new future Weaving together personal stories and reflections with insights from the latest research in the social sciences Slaughter recounts a difficult time of self examination and growth in the wake of a crisis that changed the way she lives leads and learns She connects her experience to our national crisis of identity and values as the country looks into a four hundred year old mirror and tries to confront and accept its full reflection The promise of the Declaration of Independence has been hollow for so many for so long That reckoning is the necessary first step toward renewal The lessons here are not just for America Slaughter shows how renewal is possible for anyone who is willing to see themselves with new eyes and embrace radical honesty risk resilience interdependence grace and vision Part personal journey part manifesto

Renewal offers hope tempered by honesty and is essential reading for citizens leaders and the change makers of tomorrow
