Self-assessment For The Mrcp Haematology:

Self-assessment For The Mrcp: Haematology Barbara Jane Bain, 1998-04-15 This invaluable book has been written specifically for trainee physicians preparing for the second part examination for membership of the Royal College of Physicians. It is in the format of this examination and the questions are typical of those used. The questions have been selected to cover sections of haematology which are particularly important for specialists in internal medicine. Although the questions have been formatted for this specific examination, the book will also be useful for those preparing for similar examinations in other countries and in addition will be helpful to those preparing for examinations of the Royal College of Pathologists. The text is well illustrated with clinical photographs and photomicrographs. The author has had many years experience in the postgraduate education of trainee physicians, haematologists and pathologists and has written several authoritative textbooks in the fields of haematology and haematopathology. Haematology for the MRCP Galvani, 1995 A specialty based self assessment book to help candidates revise for the MRCP while practising their exam technique. Elements of the exam written and clinical are covered and the emphasis is on an approach to problems that are commonly seen in clinical practice.

Self-assessment Questions for MRCP Part 2 Bilal Iqbal, Gautam Mehta, Amin Oomatia, John Waters, 2021 Structured in the same way as the MRCP part 2 written exam, the two volumes of this self assessment book together contain over 270 questions based on clinical scenarios which address the more difficult aspects of the medical curriculum. Chapters are divided by clinical specialties. Volume 1 includes cardiology, dermatology, endocrinology and metabolic medicine, gastroenterology, haematology and infectious diseases. Volume 2 includes neurology and ophthalmology, oncology and palliative care, psychiatry and clinical pharmacology, nephrology, respiratory medicine and rheumatology. The first section of each chapter contains a clinical scenario followed by a multiple choice best of five question written in the style of the MRCP exam. The second section of each chapter contains the answer, a concise and clear explanation of the reasoning behind the given answer being correct, as well as a comprehensive tutorial on the subject matter which uses high quality diagrams and tables to help readers absorb and retain information quickly and orderly. References for further reading are also then given for those interested in a broader review. MRCP 2 Philip Kelly, 2005 Covers MRCP Part 2 syllabus and offers candidates essential practice at popular questions for the Part 2 examination. This title also covers cardiology, dermatology, endocrinology, metabolism, gastroenterology, haematology, infectious diseases, neurology, ophthalmology, psychiatry, renal medicine, respiratory medicine and rheumatology. **Self-Assessment for MRCP(UK)** Osama S. M. Amin, 2009-09 Self Assessment for MRCP UK Part 1 tests the candidate's level of knowledge with respect to internal medicine and its sub specialties. It provides 650 questions with their comprehensive explanation. This book helps doctors prepare for the membership diploma of the Royal Colleges of Physicians of the United Kingdom and Ireland.
