

The background of the image is a warm, golden sunset over a body of water. In the foreground, the dark silhouettes of several people are visible, standing on what appears to be a beach or a pier. The silhouettes are reflected in the calm water below. The overall mood is peaceful and contemplative.

Doctors Serving People Edward J Eckenfels,2008-08-01 Today s physicians are medical scientists drilled in the basics of physiology anatomy genetics and chemistry They learn how to crunch data interpret scans and see the human form as a set of separate organs and systems in some stage of disease Missing from their training is a holistic portrait of the patient as a person and as a member of a community Yet a humanistic passion and desire to help people often are the attributes that compel a student toward a career in medicine So what happens along the way to tarnish that idealism Can a new approach to medical education make a difference Doctors Serving People is just such a prescriptive While a professor at Rush Medical College in Chicago Edward J Eckenfels helped initiate and direct a student driven program in which student doctors worked in the poor urban communities during medical school voluntarily and without academic credit In addition to their core curriculum and clinical rotations students served the social and health needs of diverse and disadvantaged populations Now more than ten years old the program serves as an example for other medical schools throughout the country Its story provides a working model of how to reform medical education in America

Mannoia,Larry Walkemeyer,2007-09-04 The church finds itself in a period of great diversification and multiple expressions In the midst of great change we have become confused about what really makes for healthy and authentic pastoral leadership What are the basic and common characteristics necessary for pastors to be effective How can lay people understand the pastoral call more fully and partner better with pastors for the health of their church Here Mannoia and

Walkemeyer examine the foundations of pastoral effectiveness and bring together nine experienced pastoral leaders to discuss the basic characteristics that exist in effective pastors. Regardless of context or personality, ineffectiveness in pastors and subsequent ill health in churches is often not the result of a lack of calling but instead is the result of misappropriated efforts to find success. Let's help those who are called to be good stewards of their call. And let's help churches have a chance to be healthy under the leadership of effective pastors.

Engaging Neighbors and Nations Tim Silberman, 2024-03-27 Evangelical churches are widely known for their commitment to mission locally and to the ends of the earth. However, in the last century, there have been profound theological and sociological changes that have impacted mission practice. Church and mission leaders have encouraged Christians to respond to the need for mission locally, especially as church decline accelerates in much of the Western world. Yet others are concerned that global mission involvement is being neglected in many local churches. This study explores the factors influencing local church participation in mission, both locally and around the world. Through an in-depth analysis of the practices and perspectives among evangelical churches in Australia, the author identifies a range of

theological missiological and organizational influences on mission practice Though beliefs about the church the world and mission are important understanding organizational principles social capital and the power of relational networks provides invaluable insights into church mission practice This book is for those who long to see local churches committed to engaging both their neighbors and the nations in mission growing our understanding of how to encourage helpful church practices for the sake of Christ H.R. 4110, FHA Single Family Loan Limit Adjustment Act of 2004 United States.
