Sex Crimes Investigation Robert L. Snow, 2006-04-30 No one wants to be robbed at gunpoint or have his car stolen or his house robbed When these crimes happen victims may feel angry afraid or violated But there is no violation quite so devastating as sexual assault Victims do not recover easily either emotionally psychologically or physically from such incidents and the long term impact can have

devastating effects on the victims their families and communities Investigating sexually based crimes is particularly difficult for many reasons Often the collection of evidence requires a medical examination of the victim a second violation of sorts Police must interview the victim who must recount his or her assault Often the victims are children and offenders range from family members to perfect strangers But investigating and prosecuting these crimes is crucial to the healing process of many victims and to the safety of society at large Detective Snow takes readers on a tour of the ways in which the police investigate and help prosecute such crimes Each chapter begins with a real life incident and throughout the book real stories are used to illustrate each step in the process Snow addresses the processing of the crime scene the collection of evidence the development of suspects the questioning of witnesses and perpetrators and the preparation for trial Few members of the public have any idea how complex and delicate the investigation of sex crimes really is This book sheds light on this important police work and helps readers understand how these crimes are investigated solved and prosecuted Victims and their families will especially benefit from the information in this book but all readers will gain insight into the crimes their incidence their impact on victims and the way the criminal justice system responds from the scene of the crime through the capture and incarceration of the perpetrators

The War on Sex David M. Halperin, Trevor Hoppe, 2017-03-09 The past fifty years are conventionally understood to have witnessed an uninterrupted expansion of sexual rights and liberties in the United States This state of the art collection tells a different story while

Media, Process, and the Social Construction of Crime Gregg Barak, 2013-10-28 First published in 1995 One of the most pervasive forms of social control in our society is the mass media The public learns from television newspapers magazines movies and books what is happening in the world and how to interpret it The problem however is that full or complete interpretations of reality are not presented In short reality itself clear and unadorned is not to be found in the information provided by the media Instead media presentations consist of those various viewpoints that succeed in capturing the minds and imaginations of the masses or in terms of the 1992 presidential campaign that successfully put the winning spin on information Barak and others believe that criminologists should participate in the various media presentations of crime and justice By bringing their knowledge to bear on media presentations criminologists can help make some news more representative and less distorted of the social reality of crime

Sex Crimes and Offenders Mary Clifford, Alison Feigh, 2022-05-02 For decades and in some cases centuries individuals families and friends of victims sought out ways to help heal the hurts caused by sexual abuse and implement some way to protect against future harms The recent very public conversations about victims standing up to perpetrators has expanded the reach and public platform of sexual violence prevention efforts in critical ways What might appear a relatively
