**The Zelator** David Ovason, 2013-06-30 THIS BOOK REVEALS THE CONSPIRACY BY LEONARDO NEWTON GOETHE AND OTHER MEMBERS OF THE INITIATE TRADITION TO INFLUENCE THE COURSE OF HISTORY BY MAGIC From the dawn of history and perhaps beyond a small group of magi working within a specific magical tradition have believed they have been influencing the course of history guiding mankind towards higher levels of consciousness Theirs is a reincarnationist philosophy and they believe that as initiates of the highest order they return in local groups at key moments to conspire to change the course of events Whether or not their beliefs are right whether or not their magical practices work in the way they believe this book will prove that certain remarkable individuals many of them famous in other areas have undoubtedly held these beliefs Bestsellers such as HOLY BLOOD HOLY GRAIL and THE TOMB OF GOD have been written by amateur historians trying to penetrate the veil of secrecy that surrounds this conspiracy here for the first time an initiate of the order reveals the truth

The Theosophist Helena Petrovna Blavatsky, Henry Steel Olcott, Annie Besant, George Sydney Arundale, 1990

Inhaling Spirit Anya P. Foxen, 2020 This book follows up on recent findings that modern postural yoga is the outcome of a complex process of transcultural exchange and syncretism and digs even deeper looking to uncover the disparate but entangled roots of contemporary yoga practice In doing so it proposes that some of what we call yoga especially when it comes to North America and Europe is only slightly genealogically related to pre modern Indian yoga traditions Rather they are equally if not more grounded in Hellenistic theories of the subtle body Western esotericism and magic pre modern European medicine and late nineteenth century women s wellness programs Marshalling these under the umbrella category of harmonialism the present book argues that they constitute a history of analogous practices that were gradually subsumed into the language of yoga This allows us to fundamentally recontextualize the peculiarities of Western and especially certain mainstream American form of yoga their focus on aesthetic representation their privileging of bodily posture and unsystematic incorporation of breathwork and above all their overwhelmingly privileged female demographics The initial chapters of the book lay out the basic shape and history of these concepts and practices while the later chapters explore their development into a spiritualized form of women s physical culture over the course of the late nineteenth and early twentieth centuries including the ways in which they became increasingly associated with yoga
