The Tears of Things Peter Schwenger, 2006 We surround ourselves with material things that are invested with memories but can only stand for what we have lost Physical objects such as one s own body situate and define us yet at the same time they are fundamentally indifferent to us The melancholy of this rift is a rich source of inspiration for artists Peter Schwenger deftly weaves together philosophical and psychoanalytical theory with artistic practice Concerned in part with the act of collecting The Tears of Things is itself a collection of exemplary art objects literary and cultural attempts to control and possess things including paintings by Georgia O Keeffe and Ren Magritte sculpture by Louise Bourgeois and Marcel Duchamp Joseph Cornell s boxes Edward Gorey s graphic art fiction by Virginia Woolf Georges Perec and Louise Erdrich the hallucinatory encyclopedias of Jorge Luis Borges and Luigi Serafini and the corpse photographs of Joel Peter Witkin However these representations of objects perpetually fall short of our aspirations Schwenger examines what is left over debris and waste and asks what art can make of these What emerges is not an art that reassembles but one that questions what it means to assemble in the first place Contained in this catalog of waste is that ultimate still life the cadaver where the subject object dichotomy receives its final ironic reconciliation Peter Schwenger is professor of English at Mount St Vincent University in Halifax Nova Scotia He is the author of *Fantasm and Fiction On Textual Envisioning* *Letter Bomb Nuclear Holocaust* and the *Exploding Word and Phallic Critiques Masculinity and Twentieth Century Literature*

Women Artists at the Millennium Carol Armstrong, Catherine De Zegher, 2011-02-25 Artists art historians and critics look at the legacies of feminism and critical theory in the work of women artists more than thirty years after the beginning of the modern women s movement and Linda Nochlin s landmark essay *Why Have There Been No Great Women Artists* More than thirty years after the birth of the

modern women's movement and the beginnings of feminist art making and art history the time is ripe to examine the legacies of those revolutions In *Women Artists at the Millennium* artists art historians and critics examine the differences that feminist art practice and critical theory have made in late twentieth century art and the discourses surrounding it In 1971 when Linda Nochlin published her essay *Why Have There Been No Great Women Artists* in a special issue of *Art News* there were no women's studies no feminist theory no such thing as feminist art criticism there was instead a focus on the mythic figure of the great male artist through history Since then the woman artist has not simply been assimilated into the canon of greatness but has expanded art making into a multiplicity of practices with new parameters and perspectives In *Women Artists at the Millennium* artists including Martha Rosler and Yvonne Rainer reflect upon their own varied practices and art historians discuss the innovative work of such figures as Louise Bourgeois Lygia Clark Mona Hatoum and Carrie Mae Weems And Linda Nochlin considers changes since her landmark essay and looks to the future writing We will need all our wit and courage to make sure that women's voices are heard their work seen and written about

Knife-Woman Marie-Laure Bernadac, 2025-10-21 The first major biography on artist Louise Bourgeois brings the life and work of an iconic twentieth century artist into sharp focus Louise Bourgeois 1911-2010 was one of the most important artists of the twentieth century She is known for a body of work that spans sculpture painting and printmaking but eludes any aesthetic classification Her life and art were so intertwined that it is often difficult to tell them apart In her own words Sculpture is the body My body is the sculpture Marie-Laure Bernadac's biography of Bourgeois traces the career of a great artist her training and her influences as it tells the story of an exceptional woman's life Featuring personal photographs as well as reproductions of her work this landmark publication is the first major biography to draw on the artist's unpublished personal archives including diaries correspondence and psychoanalytic writings as well as the many interviews she gave and the reminiscences of those who knew her Bernadac elucidates Bourgeois's friendships and rivalries with other major figures including sculptor Louise Nevelson and Museum of Modern Art director Alfred H. Barr Jr She also draws on Bourgeois's well known fascination with psychoanalysis to explore the deeply autobiographical nature of her artwork This erudite and keenly insightful biography pays tribute to the talent of the artist and the complexity of the person

Modern Irish Poetry: A New Alhambra Frank Sewell, 2001-01-25 Recently chapters on individual Irish language authors have formed part of publications regarding modern Irish art and culture in general Such chapters are welcome but they have excited the curiosity of readers to the degree that longer more detailed works are now required to put writing in Irish into perspective In this study of four modern poets two each from two generations Sewell attempts to illustrate not only the accumulative but the transformative nature of tradition

Chapters 1 and 2 turn from the mid 20th century master Seán Riordáin to the contemporary poet Cathal Searcaigh because the comparison and contrast highlights significant aspects of the amazing development of Irish poetry and indeed society in the period. Here importantly the word development is meant in a neutral way the image used is that of a zig zag movement in the pattern of the continuing Irish tradition. Chapter 3 returns to the slightly earlier major Irish language poet Mairéad Ní Diren. In doing so it returns home from the internationalism of the previous chapter on Searcaigh to Ireland a major focus and concern for the more solely traditionalist Diren. This switch back in time geography social mores or outlook fits and illustrates Sewall's concept of the zig zag movement of a country's culture as it proceeds from generation to generation. The positioning therefore has a thematic purpose. The fourth and final chapter focuses on the contemporary poet Nuala Ní Dhomhnaill who has managed to synthesise tradition and modernity central concerns of this book and who in doing so has become the current trail blazer of Irish poetry in either language. *The Sculptural Imagination* Alex Potts, 2000-01-01 Potts also offers a detailed view of selected iconic works by sculptors ranging from Antonio Canova and Auguste Rodin to Constantin Brancusi David Smith Carl Andre Eva Hesse and Louise Bourgeois key players in modern thinking about the sculptural. The impact of minimalism features prominently in this discussion for it disrupted accepted understanding of how a viewer interacts with a work of art thereby placing the phenomenology of viewing three dimensional objects for the first time at the center of debate about modern visual art. *Jacket After Live* Daniel Sack, 2015-08-20 In the dark of the blackout before the curtain rises the theater holds its many worlds suspended on the verge of appearance. How can a performance sustain this sense of potentiality that grounds all live production? Or if a stage world does begin what kinds of future might appear within its frame? Conceiving of the theater as a cultural institution devoted to experimenting with the future this book begins and ends on the dramatic stage in between it traverses literature dance sculpture and performance art to explore the various futures we make in a live event. *After Live* conceives of traditional dramatic theater as a place for taming the future and then conceptualizes how performance beyond this paradigm might stage the unruly nature of futurity. Chapters offer insights into the plays of Beckett Churchill Cope and Gombrowicz devised theater practices and include an extended exploration of the Italian director Romeo Castellucci. Through the lens of potentiality other chapters present novel approaches to minimalist sculpture and dance then reflect on how the beholder him or herself is called upon to perform when confronted by such work. *Escultura de Louise Bourgeois* Richard Marshall, Louise Bourgeois, Paulo Herkenhoff, 1995

Scenes of the Obscene Kassandra Nakas, Jessica Ullrich, 2014-05-27 Artists and the public alike have always been fascinated by obscene imagery. The Obscene however is difficult to define. One of the earliest interpretations is of Greek origin and argues that the word derives from *ob skene* indicating the space behind the stage or scene. Off scene remains what should be hidden from public view be it morally questionable offensive disgusting or unbearable to look at. This book presents a collection of essays that cast light on some Scene of the Obscene in art and visual culture from the Middle Ages to today.

taking into consideration the malleable nature of socio cultural assumptions and theoretical reflections on the topic The contributions focus on historically distinct artistic acts and social sites where established cultural categories and legal norms are violated with artists and publishers deliberately breaking moral taboos and offending the public taste They discuss how society reacted to these transgressions and how obscenity and its conceptions shape the face of their respective time
