Love Between Equals A Philosophical:

Love between Equals John Wilson, 2016-07-27 This book is a philosophical study of love between equals intended for the general reader The Introduction explains the importance of analytic philosophy Subsequent chapters deal with 1 love as desire or need 2 love as intrinsic friendship 3 the politics of love 4 altruism and paranoia 5 justice and communication 6 sex and 7 the value in loving an equal together with some remarks on the human condition in general and the importance of reason in dealing with it A brief list of further reading is appended **Dictionary of Twentieth-Century British**

Philosophers Stuart Brown, 2005-06-01 This is a two volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date Typically the individuals included have been born by 1935 and by now have made their main contributions Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U K but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture **The Concept of Love in 17th and 18th Century Philosophy** Herman de

Dijn, 2007 Love is joy with the accompanying idea of an external cause Spinoza's definition of love manifests a major paradigm shift achieved by seventeenth century Europe in which the emotions formerly seen as normative forces of nature were embraced by the new science of the mind This shift has often been seen as a transition from a philosophy laden with implicit values and assumptions to a more scientific and value free way of understanding human action But is this rational approach really value free Today we tend to believe that values are inescapable and that the descriptive mechanical method implies its own set of values Yet the assertion by Spinoza Malebranche Leibniz and Enlightenment thinkers that love guides us to wisdom and even that the love of a god who creates and maintains order and harmony in the world forms the core of ethical behavior still resonates powerfully with us It is evidently an idea Western culture is unwilling to relinquish This collection of insightful essays offers a range of interesting perspectives on how the triumph of reason affected not only the scientific philosophical understanding of the emotions and especially of love but our everyday understanding as well

Feminist Perspectives in Philosophy Morwenna Griffiths, Margaret Whitford, 1988 excellent Especially insightful are

articles on ethics and gender autonomy and pornography feelings and a responsible and democratic epistemology Choice The essays in this book introduce to American readers the work of a group of British feminist philosophers representing both the Continental and the analytic traditions who argue that philosophy is in urgent need of a feminist perspective Moving beyond Theoria toward Theosis Justin A. Davis, 2024-06-10 Moving Beyond Theoria Towards Theosis focuses on the telos of man as understood in Plato's theoria envisioned in the allegory of the cave and early Christian reinterpretation of theoria as theosis In his famed allegory of the cave Plato maintains that real life exists beyond our base perceptions of reality and is found in the realm of ideas Theoria is eternal rest in this realm and is understood as the telos of mankind Plato's theoria underwent change as it was reinterpreted under middle Platonic and neo Platonic thought These systems incorporated a more mature idea of the divine than Plato but still minimized the material world This book explores how early Christianity inherited Plato's cosmology and terminology Theoria was also reinterpreted within the Christian context Eventually the term was abandoned for theosis Theosis is beyond theoria as it includes contemplation of the forms as well as union with the source of the forms and the affirmation of the material realm In this volume Justin A Davis shows how the Orthodox use of icons can be key to understanding theosis The icon is a material object that connects to a higher reality and ultimately toward union with the divine Plato's cosmology is collapsed and transfigured in union with the uncreated energy of God Icons are the depiction of spiritual ascesis and the new telos of man theosis *Emotion and Cognitive Life in Medieval and Early Modern Philosophy* Martin Pickavé, Lisa Shapiro, 2012-10-04 This volume explores emotion in medieval and early modern thought and opens a contemporary debate on the way emotions figure in our cognitive lives Thirteen original essays explore the key themes of emotion within the mind the intentionality of emotions emotions and action and the role of emotion in self understanding and social situations **The Practical Philosophy** Robert Lewis Dabney, 1897 *Feminism and Philosophy* Mary Vetterling-Braggin, Frederick Elliston, Jane English, 1977 Contemporary philosophers explore both sides of the moral issues involved in feminism sex roles the language of sexism preferential hiring marriage rape and abortion Psychology and the Perennial Philosophy Samuel Bendeck Sotillos, 2013-05-01 Modern psychology is at an impasse as it searches anxiously for new therapies to address the increasing occurrence of mental illness in contemporary society In this groundbreaking anthology leading authors from the perennialist school including Huston Smith Seyyed Hossein Nasr and Frithjof Schuon draw on the age old insights of the world's wisdom traditions to argue that modern psychology behaviorism psychoanalysis humanistic and transpersonal psychology overlooks the specifically spiritual factors contributing to mental health and illness *50 Christian Books - Scripture, Theology, Philosophy and Spirituality (Including Christian Novels)* Johann Wolfgang von Goethe, Martin Luther, Henryk Sienkiewicz, Henry Van Dyke, David Hume, James Allen, Ralph Waldo Emerson, Andrew Murray, John Bunyan, Grace Livingston Hill, Thomas Paine, Voltaire, Lew Wallace, John Milton, Charles M. Macedonio Fernández: Between Literature, Philosophy, and the Avant-Garde Federico Fridman, 2022-01-13 At Macedonio Fernández's funeral in 1952 Jorge Luis Borges delivered the following elegy: In those years I imitated him to the point of transcription to the point of devout and passionate plagiarism. I felt Macedonio is metaphysics. Macedonio is literature. This is the first book available in English that collects essays by the world's leading scholars on Macedonio Fernández, one of Borges's most important mentors and a still enigmatic thinker of the early 20th century. Macedonio's philosophy, metaphysics, ethics, and experimental writing laid the foundations for Borges's own theoretical and literary matrix. Nonetheless, Borges helped shape a myth of Macedonio as a thinker who could not translate his oratorical geniality into written intelligibility. So despite the centrality of Macedonio to Borges's thought, his work has remained almost unknown to English-speaking readers. Contributors to this volume demonstrate, however, that this myth reduces the complexities of Macedonio's life and creative process, as each chapter shines new light on his texts. Conceived as both a companion for new readers of Macedonio's writings and an invitation for specialists to revisit his work through new perspectives, essays in this volume provide extensive background and

bibliographical references as well as English translations of Macedonio's original texts. This collection seeks to serve as a catalyst for the continued discovery and rediscovery of Macedonio Fernández's texts and the ways they might help us to rediscover the singularities of our own present moment. The Self Awakened Roberto Mangabeira Unger, 2009-09-30 Roberto Mangabeira Unger proposes a radical reorientation of established ideas about nature, mind, society, politics, and religion. The Self Awakened mobilizes the resources of several philosophical traditions and develops the unrecognized revolutionary implications of the most influential of these traditions today: pragmatism. Iris Murdoch, Philosopher Meets Novelist Sofia de Melo Araújo, Fátima Vieira, 2011-05-25 Iris Murdoch Philosopher Meets Novelist aims to gather some of the world's present experts on Iris Murdoch in an effort to promote dialogue between philosophy and literature. This is due not only to the nature of Iris Murdoch's work itself but also to our belief that within Humanistic Studies there is a constant need for breaking down disciplinary barriers and reaching a deeper, fuller awareness of human thinking. Thus the book brings together scholars from a variety of fields and places: Brazil, England, Iran, Ireland, Italy, Portugal, Spain, Turkey, Taiwan, and the United States, and testifies to the interest that the work of Murdoch continues to inspire. The book is divided into two major sections: Part A, Reading Philosophies in Literature, includes articles focusing on Iris Murdoch's philosophical concerns and their general influence in her work; Part B, Reading Literature through Philosophy, is intended as a sort of application ground, a series of case studies wherein authors depart from novels to retrieve the underlying philosophical thinking. **Liberalism, Education and Schooling** T.H. McLaughlin, 2017-03-27 A tribute collection of essays edited by author's colleagues and friends. Philosophy and Life A. C. Grayling, 2023-04-06 Grayling brings satisfying order to daunting subjects: Steven Pinker, An enthusiastic thinker who embraces humour, common sense, and lucidity. Independent. From the eminent philosopher, an authoritative exploration of the great questions of how to live. There is a question everyone has to ask and answer in fact has to keep on asking and keep on answering: It is: How should I live my life? meaning: What values shall I live by? What sort of person should I be? What shall I aim for? The great majority of people do not ask this question; they merely answer it unthinkingly by adopting conventional views of life and what matters in it. From Stoics to existentialists, in philosophy and literature, discussion of the philosophy of life, of love and death, of courage, fortitude, and wisdom challenges us all to think about what kinds of life are truly worth living. In this summation of a lifetime thinking and writing about this great question, A. C. Grayling explores with clarity and depth the ideas that each of us must use in answering it for ourselves. Drawing on the lives, experiences, and works of a fantastically eclectic range of thinkers, taking in not only philosophers such as Confucius, Seneca, and Nietzsche but also authors from Shakespeare to Ursula LeGuin and modern thinkers such as Martha Nussbaum and Bernard Williams, *Philosophy and Life* brings together wisdom from across eras and continents in a tour de force on the philosophy of being human in a complicated world. **Stephen King and Philosophy** Jacob M. tutorship and companionship which were frequently defined through the vocabulary and rhetoric of friendship This study demonstrates how the values and meanings of amicitia often associated with classical Roman Visigothic and Eastern traditions were transformed to adapt to Alfonso X's cultural projects and political propaganda This book contributes to the study of the history of emotions and cultural histories of the Middle Ages while also emphasizing how Iberia was a peripheral but still vital ring in a chain which linked it to the rest of Europe while also occupying a central role in the historical and cultural developments of the Western Mediterranean
