Moody Bitches Julie Holland, 2016-02-09 As women we learn from an early age that our moods are a problem To succeed in life we are told we must have it all under control we have to tamp down our inherent shifts in favor of a more static way of being But our bodies are wiser than we imagine Moods are not an annoyance to be stuffed away they are a finely tuned feedback system that can tell us how best to manage our lives Our changing moods let us know when our bodies are primed to tackle different challenges and when we should be alert to developing problems They help us select the right tool for each of our many jobs If we deny our emotionality we deny the breadth of our talents With the right care of our inherently dynamic bodies we can master our moods to avail ourselves of this great natural strength Yet millions of American women are medicating away their emotions because our culture says that moodiness is a problem to be fixed Over prescribed medications can have devastating consequences for women in many areas of our lives and even if we don't pop a pill women everywhere are numbing their emotions with food alcohol and a host of addictive behaviors that deny the wisdom of our bodies and keep us from addressing the real issues that we face Here Dr Julie Holland shares a better way
