Love Death And Money In The Pays Doc:

Love, Death and Money in the Pays D'Oc Emmanuel Le Roy Ladurie, 1984 Love, Death and Money in the Pays D'Oc Emmanuel Le Roy Ladurie, 1984 **A Negotiated Settlement** Joseph F. Patrouch, 2021-10-25 The changes associated with reformed Catholicism in the decades around 1600 and how they affected men and women can only be understood by looking at the interactions between politics and social and religious requirements on a local level This study first of all sketches the Austrian rural territory that will be analyzed Next the local administrative disputes are outlined The third chapter looks closely at one monastery estate while chapter four details the administrators responsible for the implementation of policies The concluding chapter concentrates on the experiences of women Religious cultural and women s historians interested in rural social transformations in the early modern period will find this an important book The political landscape which stretched from the Council of Trent to the bodies of pregnant girls proved to be exceedingly complex This local study of the Counter Reformation makes use of a variety of previously unexamined archival sources **Christianity and Community in the West** Simon Ditchfield, 2017-03-02 How did Christians in early modern Western Europe express their sense of community This book explores the various ways in which religious identities were defined developed and defended within both Protestant and Roman Catholic contexts in England and on the Continent over a period vital for the history of Christianity As such it will be of interest not only to historians of religion but also to students of social and cultural history in general **Imperfect Histories** Ann Rigney, 2018-09-05 Imperfect Histories puts imperfection at the heart of a theory of historical representation Ann Rigney shows how historical writing involves dealing with intractable subjects that resist our efforts to know and to shape them Those who write history she says engage in an ongoing struggle to match up what they find relevant in the past with the information and interpretive models at their disposal Chronic dissatisfaction is at the heart of historical practice This is especially evident in the various attempts made over the last two centuries to write an alternative history of everyday experience Focusing on historical writing in the last decades of the eighteenth century and the first half of the nineteenth Rigney analyzes a wide range of works by Walter Scott Jules Michelet Augustin Thierry and Thomas Carlyle She shows how the attempt to write an alternative history brought historical writing into a close yet fraught relationship with literature The result is a new account of that relationship as it took shape in the romantic period and as it continues to influence contemporary practices **Local Transcendence** Alan Liu, 2009-08-01 Driven by global economic forces to innovate today s society paradoxically looks forward to the future while staring only at the nearest most local present the most recent financial quarter the latest artistic movement the instant message or blog post at the top of the screen Postmodernity is lived it seems at the end of history In the essays collected in Local Transcendence Alan Liu takes the pulse of such postmodern historicism by tracking two leading indicators of its acceleration in the late twentieth and early twenty first centuries postmodern cultural criticism including the new historicism the new cultural history cultural

anthropology the new pragmatism and postmodern and postindustrial theory and digital information technology What is the relation between the new historicist anecdote and the database field Liu asks and can either have a critical function in the age of postmodern historicism Local Transcendence includes two previously unpublished essays and a synthetic introduction in which Liu traverses from his earlier work on the theory of historicism to his recent studies of information culture to propose a theory of contingent method incorporating a special inflection of history media history *Revival: The Highlanders of Central Asia: A History, 1895-1937*(1993) Jerome Ch'en,2017-09-29 Examining the importance of regional differences in China's history this text details the social economic and political conditions of the central highlands at the end of the 19th century and the early part of the 20th Thus the nature and development of modern Chinese rural society is studied **The Patriots and the People** Allan Greer,1993-12-15 The Lower Canadian Rebellion of 1837 has been called the most important event in pre Confederation history Previously it has been explained as a response to economic distress or as the result of manipulation by middle class politicians Lord Durham believed it was an expression of racial conflict emThe Patriots and the People is a fundamental reinterpretation of the Rebellion Allan Greer argues that far being passive victims of events the habitants were actively responding to democratic appeals because the language of popular sovereignty was in harmony with their experience and outlook He finds that a certain form of popular republicanism with roots deep in the French Canadian past drove the anti government campaign Institutions such as the militia and the parish played an important part in giving shape to the movement and the customs of the maypole and charivari provided models for the collective actions against local representatives of the colonial regime In looking closely into the actions motives and mentality of the rural plebeians who formed a majority of those involved in the insurrection Allan Greer brings to light new causes for the revolutionary role of the normally peaceful French Canadian peasant By doing so he provides a social history with new dimensions **Shared Traditions** Charles W. Joyner,1999 Grounded in Charles Joyner's unique blend of rigorous scholarship and genuine curiosity these thoughtful and incisive essays by the eminent southern historian and folklorist explore the South's extraordinary amalgam of cultural traditions By examining the mutual influence of history and folk culture Shared Traditions reveals the essence of southern culture in the complex and dynamic interactions of descendants of Europeans Africans and Native Americans The book covers a broad spectrum of southern folk groups folklore expressions and major themes of southern history including antebellum society slavery the coming of the Civil War economic modernization in the Appalachians and the Sea Islands immigration the civil rights movement and the effects of cultural tourism Joyner addresses the convergence of African and European elements in the Old South and explores how specific environmental and demographic features shaped the acculturation process He discusses divergent practices in worship services funeral and burial services and other religious ceremonies He examines links between speech patterns and cultural patterns the influence of Irish folk culture in the American South and the southern Jewish experience He also investigates

points of intersection between history and legend and relations between the new social history and folklore Ranging from rites of power and resistance on the slave plantation to the creolization of language to the musical brew of blues country jazz and rock Shared Traditions reveals the distinctive culture born of a sharing by black and white southerners of their deep rooted and diverse traditions

The Prospect Before Her Olwen Hufton,2011-06-15 Already hailed by English critics as one of the most important works of history to be published since the Second World War Olwen Hufton s fascinating and brilliantly learned study begins in this first of two volumes with a wide ranging exploration of women s fate in Western Europe from medieval times to the early modern age of illustrations

Guy of Warwick and Other Chapbook Romances John Simons,1998 Chapbooks formed the staple reading matter of ordinary people during the 18th and much of the 19th centuries These chapbooks derive from romances which were current in the Middle Ages or the Renaissance

Re-Thinking Kinship and Feudalism in Early Medieval Europe Stephen D. White,2023-07-07 This is the second collection of studies by Stephen D White to be published by Variorum the first being Feuding and Peace Making in Eleventh Century France The essays in this volume look principally at France and England from Merovingian and Anglo Saxon times up to the 12th century They analyze Latin and Old French discourses that medieval nobles used to construct their relationships with kin lords men and friends and investigate the political dimensions of such relationships with particular reference to patronage clientage the use of land as an item of exchange and feuding In so doing the essays call into question the conventional practice of studying kinship and feudalism as independent systems of legal institutions and propose new strategies for studying them

Modern Historiography Michael Bentley,2005-08-19 Modern Historiography is the essential introduction to the history of historical writing It explains the broad philosophical background to the different historians and historical schools of the modern era from James Boswell and Thomas Carlyle through to Lucien Febure and Eric Hobsbawm and surveys the Enlightenment and Counter Enlightenment Romanticism the voice of Science and the process of secularization within Western intellectual thought the influence of and broadening contact with the New World the Annales school in France Postmodernism Modern Historiography provides a clear and concise account of this modern period of historical writing

Social Ghosts and the Dead of World History Martyn Hudson,2023-04-07 Social Ghosts and the Dead of World History looks at the global phenomena of the dead in world history examining the phantasms and spirits of classical social science and philosophy From Hegel s World Spirit to Max Weber s Verstehen and Marx s phantasms there is a recurring obsession with the spirits of modernity This book explores the relationships and interactions between those spirits and materiality in five broad areas the nature of the dead in modernity shape shifting and mobile souls the spirit in accounts of prehistory and archaeology the phenomenology of spirits and the relation to statues and stone and the nature of spirit as it is manifested in wooden artefacts and folklore It offers a counter modernity to that of classical social science and philosophy and new ways of thinking about our crises and catastrophes in social theory and the world and the worlds beyond this world Building on the author s previous

work on the sociology of haunted houses and landscapes it examines the body and the individual as the locus of haunting The book will appeal to academics in philosophy history social theory anthropology and cultural studies in its omni disciplinarity and in its import for rethinking the histories of social thought When Women Held the Dragon's Tongue Hermann Rebel, 2010 Peasants tell tales one prominent cultural historian tells us Robert Darnton Scholars must then determine and analyze what it is they are saying and whether or not to incorporate such tellings into their histories and ethnographies Challenging the dominant culturalist approach associated with Clifford Geertz and Marshall Sahlins among others this book presents a critical rethinking of the philosophical anthropologies found in specific histories and ethnographies and thereby bridges the current gap between approaches to studies of peasant society and popular culture In challenging the methodology and theoretical frameworks currently used by social scientists interested in aspects of popular culture the author suggests a common discursive ground can be found in an historical anthropology that recognizes how myths fairytales and histories speak to a universal need for imagining oneself in different timescapes and for linking one's local world with a known larger world **An Historical Geography of France** Xavier de Planhol, Paul Claval, 1994-03-17 In this 1994 book Xavier de Planhol and Paul Claval two of France's leading scholars in the field trace the historical geography of their country from its roots in the Roman province of Gaul to the 1990s They demonstrate how for centuries France was little more than an ideological concept despite its natural physical boundaries and long territorial history They examine the relatively late development of a more complex territorial geography involving political religious cultural agricultural and industrial unities and diversities The conclusion reached is that only in the twentieth century had France achieved a profound territorial unity and only now are the fragmentations of the past being overwritten The Roots of Liberalism F. H. Buckley, 2024-09-10 This spirited book traces the roots of liberalism through the noblest traditions virtues institutions and longings embedded in Western culture Are conservatives the only liberals left F H Buckley's intriguing and intelligent book demystifies the confusion surrounding the real meaning of liberalism His is a compelling argument and a great book that conservatives and genuine liberals should read Frank Furedi author of *The War Against The Past* Why The West Must Fight For Its History Liberalism is under attack from both left and right but anti liberals have failed to understand how the tradition defines our idea of civic virtue Liberalism is not an ideology that stands above our practices and judges them but a practice itself an inheritance of virtues institutions customs and longings embedded in our culture and passed on through our memories and stories of moral heroes In this book Buckley explains how we learned magnanimity from the Code of Chivalry and to avoid brutishness from the Code of the Gentleman how through the stories of Hans Christian Andersen and the novels of Charles Dickens kindness became a liberal virtue how the republican virtue of the Founders can be traced back to fourteenth century Sienese merchants From the stories that comprise the Western Tradition of liberalism we learned the civic virtues that are the efficient secret of American constitutional government The anti liberal cult of wokeness has attempted to cancel this

tradition but it will not long survive It offers a creed of sin without absolution of guilt without soul easing joys of frowns without laughter It rejects the West s high culture and offers nothing in its place Without learning art industry or anything that might attract a person its emptiness will soon be seen by all and liberalism will continue to inspire the civic virtues of our culture

Confession and Community in Seventeenth-Century France Gregory Hanlon,2016-11-11 Examines the tolerance between Catholics and Protestants in a period when vicious sectarian strife was the rule of the day Tolerance here means more than mere coexistence but a daily interaction between people without regard for their faith

From Medieval to Medievalism John Simons,1992-10-13 The book surveys medieval literature from both a critical and an historical standpoint Medieval literature is increasingly seen as an area of intense specialism which is to be treated differently from other areas of English Studies The essays collected here try to overturn this perception in two ways Firstly there is a demonstration of the ways in which modern critical approaches and perspectives work with the medieval text Secondly the idea of the medieval is shown historically to be a discourse which has been given different symbolic values and served different social purposes
