Love Loving Matters Of Fact:

Laughable Loves Milan Kundera, 1987 Milan Kundera is a master of graceful illusion and illuminating surprise In one of these stories a young man and his girlfriend pretend that she is a stranger he picked up on the road only to become strangers to each other in reality as their game proceeds In another a teacher fakes piety in order to seduce a devout girl then jilts her and yearns for God In yet another girls wait in bars on beaches and on station platforms for the same lover a middle aged Don Juan who has gone home to his wife Games fantasies and schemes abound in all the stories while different characters react in varying ways to the sudden release of erotic impulses

Lost Loves Andrew Grof, 2015-09-01 In this first person account a composer confronts cancer as well as an increasingly debilitating dementia that threatens to rob him of both his past and his present In something of a last ditch effort he does his best to resurrect nearly forgotten loves as well as the music of the greats that once sustained him In the process he finds the past no less difficult to deal with than his present and is forced to confront a most unflattering image of himself The crisp yet lyrical writing is crisp yet lyrical and alternates between staccato and legato depending on the particular stages of the composer's illness The Hamlet like narrator is at once dangerously close and forbiddingly distant from the reader with a climax in death's full assault with hitherto hidden revelations

His Seed Godswill U. Onyekwere, 2015-09-22 Friends I am basing on this simple fact that there's nobody who can beat God That's why His Seed poses as the cushion and the mattress not only to my own benefit but also to the benefit of you your friends and your loved ones

The Phenomenal Lover Barbara V. Thomas, 2011-12-06 Phenomena means to see a thing as it really is Husserl I am trying to fully describe a miraculous mystical seen unseen spiritual undeniable experience of a new reality It is a demanding spiritual force I use questions and answers to bring out the truth Barbara Thomas

Ecological Ethics and the Philosophy of Simone Weil Kathryn Lawson, 2024-05-13 This book places the philosophy of Simone Weil into conversation with contemporary environmental concerns in the Anthropocene The book offers a systematic interpretation of Simone Weil making her ethical philosophy more accessible to non Weil scholars Weil's work has been influential in many fields including politically and theologically based critiques of social inequalities and suffering but rarely linked to ecology Kathryn Lawson argues that Weil's work can be understood as offering a coherent approach with potentially widespread appeal applicable to our ethical relations to much more than just other human beings She suggests that the process of decreation in Weil is an expansion of the self which might also come to include the surrounding earth and a vast assemblage of others This allows readers to consider what it means to be human in this time and place and to

contemplate our ethical responsibilities both to other humans and also to the more than human world Ultimately the book uses Weil's thought to decenter the human being by cultivating human actions towards an ecological ethics This book will be useful for Simone Weil scholars and academics as well as students and researchers interested in environmental ethics in departments of comparative literature theory and criticism philosophy and environmental studies For further discussion on the book please check out the following podcast and book launch links below <https://youtu.be/oOUEeSiMrh8> https://youtu.be/slc1jIw_CW8 <https://youtu.be/xQPeW4iK8vC3pnA> <https://youtu.be/jf12ZVRr3oY> <https://youtu.be/z7Z9xRdEn8fhaMGY>

Kruger,2024-11-19 The foundation of this book is the work of Jean Luc Marion who writes at length about the problems of vanity and nihilism and offers an answer in love specifically Christian love A complication that arises however is that Marion argues that love is absent in the respective responses to nihilism of Friedrich Nietzsche and Martin Heidegger two figures who play a key role in the development of his thought and who also have their own notions of love In Marion Love and Nihilism Matthew C Kruger explores this series of questions by providing first an overview of the responses to nihilism found in these figures then a close reading of Marion s thoughts on the matter before moving to accounts of the concept of love in Nietzsche and Heidegger The book then finishes with a further critique of Marion s work relying on the thought of Nishitani Keiji Kruger argues that while Marion correctly identifies an answer in love as did Heidegger Nietzsche and Nishitani in their own ways Marion s thought ends in world denial and thus fails find a complete answer to nihilism *Outlook* ,1897

Giving One's Word Michael Joseph Higgins,2025 St Thomas Aquinas is rarely invoked as a patron of such a social approach to the Trinity Aquinas s Trinitarian theology after all revolves around the immanent processions of a Word and Love within the unity of the divine essence Many have assumed that this psychological analogy is removed from or even incompatible with interpersonal knowledge love and self giving Some have concluded that Aquinas is therefore unable to accommodate a social Trinity Others have argued that he is open to a social Trinity but that his psychological categories need to be complemented by a more overtly social framework This study however shows that these psychological categories themselves are shot through with interpersonal knowledge love and self giving Provided by publisher **Why Your Children Loves You...** Eliza Lian-Ding,2009 *The Book lover* ,1902
