aroused the fascination of both scientists and artists worldwide it is beyond doubt the moon The moon is also by far the most
interesting celestial body when it comes to reflecting on the dualistic nature of photography as applied to the study of the
universe Against this background Selene s Two Faces sets out to look at the scientific purpose aesthetic expression and
influence of early lunar drawings maps and photographs including spacecraft imaging In its approach Selene s Two Faces is
intermedial intercultural and interdisciplinary It brings together not only various media photography maps engravings
