## **Lure For A Falcon:**

The Art of Falconry, by Frederick II of Hohenstaufen Frederick II (Holy Roman Emperor), Casey Albert Wood, Florence Marjorie Fyfe, 1943-06 *De Arte Venandi cum Avibus* was written shortly before the year 1250 by Frederick II Holy Roman Emperor King of Sicily and Jerusalem in whose court with its remarkably cosmopolitan and highly intellectual life may be found the real beginning of the Italian Renaissance In spite of its title it is far more than a dissertation on hunting There is a lengthy introduction dealing with the anatomy of birds an intensely interesting description of avian habits and the excursions of migratory birds Indeed this ancient book has long been recognized as the first zoological treatise written in the critical spirit of modern science The sumptuous volume now in hand is however the first translation into English of the complete text originally divided into a prologue and size books Together the translators and editors have at last made available this classic work and have adorned it with notes comments bibliographies and glossary They have produced a work of great value to zoologists especially the ornithologist and also to everyone interested in the history of science and in medieval art and letters

superb success as a bird combining great speed aeronautical grace and fearlessness inhabitant of wild places inaccessible cliffs and skyscrapers worldwide dweller trans equatorial migrant and docile captive the peregrine falcon stands alone among all others of its kind Perhaps this is why so many varied people rushed to its aid when it faced decimation by pesticide poisoning In this personal and highly entertaining memoir Jim Enderson tells stories of a lifetime spent studying training breeding and simply enjoying peregrine falcons He recalls how his boyhood interest in raptors grew into an ornithological career in which he became one of the leading experts who helped identify DDT as the cause of the peregrine falcon's sudden and massive decline across the United States His stories reveal both the dedication that he and fellow researchers brought to the task of studying and restoring the peregrine and the hair raising adventures that sometimes befell them along the way Enderson also seamlessly weaves in the biology and natural history of the peregrine as well as anecdotes about its traditional and widespread use in falconry as an aggressive yet tractable hunter to offer a broad portrait of this splendid and intriguing falcon *Falcons and Foxes in the U.K.* A. Lee Chichester,2003 A once in a lifetime experience chronicled with humor and passion this memoir details the life altering 1995 summer during which a nature lover becomes a hunter One of those rare quantities a woman falconer Chichester discovered that her outlook on the world nature and herself changed radically during her pursuit of the ancient art in a foreign country Training captive bred hybrid falcons riding horseback to the flight of a falcon in pursuit of a crow belting across the fells and pastures of the United Kingdom the author deals with fears preconceptions and a very steep learning curve after which she is changed forever **A Sparrowhawk's Lament** David
