Lure for a Falcon Giulia Gray,1986 **The Art of Falconry, by Frederick II of Hohenstaufen** Frederick II (Holy Roman Emperor),Casey Albert Wood,Florence Marjorie Fyfe,1943-06 *De Arte Venandi cum Avibus* was written shortly before the year 1250 by Frederick II Holy Roman Emperor King of Sicily and Jerusalem in whose court with its remarkably cosmopolitan and highly intellectual life may be found the real beginning of the Italian Renaissance In spite of its title it is far more than a dissertation on hunting There is a lengthy introduction dealing with the anatomy of birds an intensely interesting description of avian habits and the excursions of migratory birds Indeed this ancient book has long been recognized as the first zoological treatise written in the critical spirit of modern science The sumptuous volume now in hand is however the first translation into English of the complete text originally divided into a prologue and size books Together the translators and editors have at last made available this classic work and have adorned it with notes comments bibliographies and glossary They have produced a work of great value to zoologists especially the ornithologist and also to everyone interested in the history of science and in medieval art and letters **The Boys' Book of Adventure** Steve Martin,2010 The perfect gift for the daring boy in your life Learn all the skills you ll need for a full life of exciting adventures It s all in this fun humorous boys guide With a fabulous foil cover this book is the very best gift for the boy in your life Inside boys will learn how to Dive for treasure Slay a Werewolf Survive on a desert island Escape a capsizing ship Tackle a komodo dragon And much more The Lure of the Falcon. Drawings by Duncan McLaren Gerald Summers,1972 *Rural Space in the Middle Ages and Early Modern Age* Albrecht Classen,2012-05-29 Older research on the premodern world limited its focus on the Church the court and more recently on urban space The present volume invites readers to consider the meaning of rural space both in light of ecocritical readings and social historical approaches While previous scholars examined the figure of the peasant in the premodern world the current volume combines a large number of specialized studies that investigate how the natural environment and the appearance of members of the rural population interacted with the world of the court and of the city The experience in rural space was important already for writers and artists in the premodern era as the large variety of scholarly approaches indicates The present volume signals how much the surprisingly close interaction between members of the aristocratic and of the peasant class determined many literary and art historical works In a surprisingly large number of cases we can even discover elements of utopia hidden in rural space We also observe how much the rural world was a significant element already in early medieval mentality Moreover as many authors point out the impact of natural forces on premodern society was tremendous if not catastrophic
