Lushan Mi Zhuan:

Sino-Foreign Cultural Exchange Cai Hongsheng, 2023-11-24 Understanding culture as a whole way of life this book touches on various aspects of Sino foreign interactions tracing cultural exchanges depicted in Chinese and foreign sources with particular attention to events or anecdotes in the Tang and Qing periods In addition to a discussion of the Sogdians and Turks in medieval China an investigation of the localization process of pugs and lions through different Chinese dynasties an analysis of the incorporation of Manichaeism into Chinese culture and the depiction of the Kunlun slaves in Chinese Buddhist texts this book also examines the caravan tea trade between Russia and China the Russian American company's attempt to do business in Canton the translation of the Three Character Classic in Russia the Russian case in the Tianjin missionary incident as well as the Dutch factory in Canton and the Dutch mission in Beijing This book concludes with a discussion of Chinese workers in Southeast Asia in the late nineteenth and early twentieth centuries From Central Asia to the South China Sea to the northern border with Russia this book reveals its great diversity yet with an intense focus on China's interactions with the outside world This book will be essential reading for students and scholars of Chinese studies medieval Central Asian studies and those interested in world history Tao Yuanming and Manuscript Culture Xiaofei Tian, 2011-07-01 Winner of a 2006 Choice Magazine Outstanding Academic Title Award As medieval Chinese manuscripts were copied and recopied through the centuries both mistakes and deliberate editorial changes were introduced thereby affecting readers' impressions of the author's intent In Tao Yuanming and Manuscript Culture Xiaofei Tian shows how readers not only experience authors but produce them by shaping texts to their interpretation Tian examines the mechanics and history of textual transmission in China by focusing on the evolution over the centuries of the reclusive poet Tao Yuanming into a figure of epic stature Considered emblematic of the national character Tao Yuanming also known as Tao Qian 365-427 c.e. is admired for having turned his back on active government service and city life to live a simple rural life of voluntary poverty The artlessness of his poetic style is held as the highest literary and moral ideal and literary critics have taken great pains to demonstrate perfect consistency between Tao Yuanming's life and poetry Earlier work on Tao Yuanming has tended to accept this image interpreting the poems to confirm the image Tao Yuanming and Manuscript Culture is a study of how this cultural icon was produced and of the elusive traces of another historical Tao Yuanming behind the icon By comparing four early biographies of the poet Tian shows how these are in large measure constructed out of Tao Yuanming's self image as projected in his poetry and prose Drawing on work in European medieval literature she demonstrates the fluidity of the Chinese medieval textual world and how its materials were historically reconfigured for later purposes Tian finds in Tao's poetic corpus not one essentialized Tao Yuanming but multiple texts continuously produced long after the author's physical demise Her provocative look at the influence of manuscript culture on literary perceptions transcends its immediate subject and has special resonance today when the transition from print to electronic media is shaking the literary world in a way not

unlike the transition from handwritten to print media in medieval China

Persian Christians at the Chinese Court R. Todd Godwin, 2018-01-30 The Xi an Stele erected in Tang China s capital in 781 describes in both Syriac and Chinese the existence of Christian communities in northern China While scholars have so far considered the Stele exclusively in relation to the Chinese cultural and historical context Todd Godwin here demonstrates that it can only be fully understood by reconstructing the complex connections that existed between the Church of the East Sasanian aristocratic culture and the Tang Empire 617 907 between the fall of the Sasanian Persian Empire 225 651 and the birth of the Abbasid Caliphate 762 1258 Through close textual re analysis of the Stele and by drawing on ancient sources in Syriac Greek Arabic and Chinese Godwin demonstrates that Tang China 617 907 was a cosmopolitan milieu where multiple religious traditions namely Buddhism Zoroastrianism Manichaeism and Christianity formed zones of elite culture Syriac Christianity in fact remained powerful in Persia throughout the period and Christianity not Zoroastrianism was officially regarded by the Tang government as The Persian Religion Persian Christians at the Chinese Court uncovers the role played by Syriac Christianity in the economic and cultural integration of late Sasanian Iran and China and is important reading for all scholars of the Church of the East China and the Middle East in the medieval period

Power of Place James Robson,2020-03-17 Throughout Chinese history mountains have been integral components of the religious landscape They have been considered divine or numinous sites the abodes of deities the preferred locations for temples and monasteries and destinations for pilgrims Early in Chinese history a set of five mountains were co opted into the imperial cult and declared sacred peaks yue demarcating and protecting the boundaries of the Chinese imperium The Southern Sacred Peak or Nanyue is of interest to scholars not the least because the title has been awarded to several different mountains over the years The dynamic nature of Nanyue raises a significant theoretical issue of the mobility of sacred space and the nature of the struggles involved in such moves Another facet of Nanyue is the multiple meanings assigned to this place political religious and cultural Of particular interest is the negotiation of this space by Daoists and Buddhists The history of their interaction leads to questions about the nature of the divisions between these two religious traditions James Robson s analysis of these topics demonstrates the value of local studies and the emerging field of Buddhho Daoist studies in research on Chinese religion

The Secret Speeches of Chairman Mao Roderick MacFarquhar,Eugene Wu,Timothy Cheek,2020-10-26 In 1957 and 1958 Chairman Mao Zedong led China into two major experiments the Hundred Flowers policy of encouraging literary

and political free expression and the economic Great Leap Forward Each was a disaster Repression followed the first when it became clear that intellectuals would criticize the Communist Party itself famine followed the second During two crucial years when the movements were being initiated however Mao addressed various Party groups behind closed doors to explain the new policies and exhort compliance Recorded at the time and collected for limited circulation in the 1960s by his admirers among the Red Guards the speeches question and answer sessions and letters here translated have never before been published in China or the West These new candid materials revise our understanding of how the policies developed and reveal not only the extent of Mao s power but the startling flights his untethered thought could take Introductory essays by Roderick MacFarquhar Benjamin Schwartz Eugene Wu Merle Goldman and Timothy Cheek provide a context for evaluating and interpreting the nineteen texts translated in this volume The End of the Maoist Era: Chinese Politics During the Twilight of the Cultural Revolution, 1972-1976 Frederick C Teiwes, Warren Sun, 2014-12-18 This book launches an ambitious reexamination of the elite politics behind one of the most remarkable transformations in the late twentieth century As the first part of a new interpretation of the evolution of Chinese politics during the years 1972-82 it provides a detailed study of the end of the Maoist era demonstrating Mao s continuing dominance even as his ability to control events ebbed away The tensions within the gang of four the different treatment of Zhou Enlai and Deng Xiaoping and the largely unexamined role of younger radicals are analyzed to reveal a view of the dynamic of elite politics that is at odds with accepted scholarship The authors draw upon newly available documentary sources and extensive interviews with Chinese participants and historians to develop their challenging interpretation of one of the most poorly understood periods in the history of the People s Republic of China
