Women and the Reformations Merry E. Wiesner-Hanks, 2024-10-22 A compelling authoritative history of how women shaped the Reformations and transformed religious life across the globe The Reformations both Protestant and Catholic have long been told as stories of men But women were central to the transformations that took place in Europe and beyond What was life like for them in this turbulent period How did their actions and ideas shape Christianity and influence societies around the world In this rich and definitive study renowned scholar Merry E Wiesner Hanks explores the history of women and the Reformations in full for the first time Wiesner Hanks travels the globe examining well known figures like Teresa of Avila Elizabeth I and Anne Hutchinson as well as women whose stories are only now emerging Along the way we meet converts in Japan Spanish nuns in the Philippines and saints in Ethiopia and America Wiesner Hanks explores women s experiences as monarchs mothers migrants martyrs mystics and missionaries revealing that the story of the Reformations is no longer simply European and that women played a vital role

Luther's Lectures on Genesis and the Formation of Evangelical Identity John A. Maxfield, 2008-10-01 Martin Luther s lectures on Genesis delivered at the University of Wittenberg during the last decade of his life and later published by his students allow modern readers to view a sixteenth century professor engaging his students with the text of scripture and using that text to form them spiritually The lectures show how Luther attempted to form in his students a new identity an Evangelical identity enabling them to make sense of the rapidly changing society and church in which they were being prepared to serve primarily as pastors in the developing territorial churches of the Reformation This study uses the text of the lectures to outline the contours of the new identity that Luther laid out through his exposition of Genesis They include

how Luther approached and taught his students to perceive the text of holy scripture how that text unveiled for Luther the nature of Christian life in the world and how Luther taught his students to view the past the present and the future of the church and the world through the book of Genesis Whether in the published editions of the lectures the historic Luther was actually misunderstood or was transformed in some way into the prophetic Luther of later memory the text reveals the Luther that his students heard and subsequent generations read *The Oxford Handbook of Martin Luther's Theology* Robert Kolb,Irene Dingel,Lubomír Batka,2014-04-24 As celebrations of the five hundredth anniversary of Martin Luther's initiation of the most dramatic reform movement in the history of Christianity approach 47 essays by historians and theologians from 15 countries provide insight into the background and context the content and the impact of his way of thought Nineteenth century Chinese educational reformers twentieth century African and Indian social reformers German philosophers and Christians of many traditions on every continent have found in Luther's writings stimulation and provocation for addressing modern problems This volume offers studies of the late medieval intellectual milieu in which his thought was formed the hermeneutical principles that guided his reading and application of the Bible the content of his formulations of Christian teaching on specific topics his social and ethic thought the ways in which his contemporaries both supporters and opponents helped shape his ideas the role of specific genre in developing his positions on issues of the day and the influences he has exercised in the past and continues to exercise today in various parts of the world and the Christian church Authors synthesize the scholarly debates and analysis of Luther's thinking and point to future areas of research and exploration of his thought **The Oxford Illustrated History of the Reformation** Peter Marshall,2015-01-22 The Reformation was a seismic event in history whose consequences are still working themselves out in Europe and across the world The protests against the marketing of indulgences staged by the German monk Martin Luther in 1517 belonged to a long standing pattern of calls for internal reform and renewal in the Christian Church But they rapidly took a radical and unexpected turn engulfing first Germany and then Europe as a whole in furious arguments about how God's will was to be saved However these debates did not remain confined to a narrow sphere of theology They came to reshape politics and international relations social cultural and artistic developments relations between the sexes and the patterns and performances of everyday life They were also the stimulus for Christianity's transformation into a truly global religion as agents of the Roman Catholic Church sought to compensate for losses in Europe with new conversions in Asia and the Americas Covering both Protestant and Catholic reform movements in Europe and across the wider world this beautifully illustrated volume tells the story of the Reformation from its immediate explosive beginnings through to its profound longer term consequences and legacy for the modern world The story is not one of an inevitable triumph of liberty over oppression enlightenment over ignorance Rather it tells how a multitude of rival groups and individuals with or without the support of political power strove after visions of reform And how in spite of themselves they laid the foundations for the plural and
