

The background of the book cover is a repeating pattern of stylized, smiling faces. Each face has a simple, curved line for a mouth and two dots for eyes. The faces are rendered in various colors, including green, blue, and yellow, and are scattered across the entire cover. Interspersed among the faces are dollar signs (\$) in the same color palette. The overall effect is a playful yet somewhat ironic visual representation of the book's theme of money and luxury.

Luxury Fever Money And Happiness In An Era Of Excess:

Luxury Fever Robert H. Frank, 2001-04-02 A new luxury fever has America in its grip Independent of stock prices recessions and inflation rates the past two decades have witnessed a spectacular and uninterrupted rise in luxury consumption Ordinary functional goods are no longer acceptable Our cars have gotten larger heavier and far more expensive Mansions larger than 30 000 square feet no longer seem extravagant Wristwatches for the super rich cost tens of thousands of dollars We are living in an era of excess Consider The average house built in the United States today is nearly twice as large as its counterpart from the 1950s Even as houses have gotten more expensive and farther from the workplace there has been a sharp increase in second home ownership The average price of an automobile sold in the United States now exceeds 22 000 up more than 75 percent from a decade ago Total U S spending on luxury goods increased 21 percent between 1995 and 1996 typical of recent years while overall merchandise sales increased only 5 percent Robert Frank caused a national debate in 1995 when he and co author Philip Cook described the poisonous spread of winner take all markets Now he takes a thought provoking look at the flip side of spreading inequality as the super rich set the pace everyone else spends furiously in a competitive echo of wastefulness The costs are enormous We spend more time at work leaving less time for family and friends less time for exercise Most of us have been forced to save less and spend and borrow much more The annual rate at which American families file for personal bankruptcy has grown to one in seventy Budgetary pressures have reduced our willingness to fund even essential public services Our food and water are increasingly contaminated Potholes proliferate and traffic delays double every ten years Frank offers the first comprehensive and accessible summary of scientific evidence that our spending choices are not making us as happy and healthy as they could Furthermore he argues that human frailty is not at fault The good news is that we can do something about it We can make it harder for the super rich to overspend and capture our own competitive energy for the public good **Luxury Fever** boldly offers a way to curb the excess and restore the true value of money

husbands When Warner had her first child she was living in Paris where parents routinely left their children home with state subsidized nannies to join friends in the evening for dinner or to go on dates with their husbands When she returned to the States she was stunned by the cultural differences she found toward how people think about effective parenting in particular assumptions about motherhood None of the mothers she met seemed happy instead they worried about the possibility of not having the perfect child panicking as each developmental benchmark approached Combining close readings of mainstream magazines TV shows and pop culture with a thorough command of dominant ideas in recent psychological social and economic theory Perfect Madness addresses our cultural assumptions and examines the forces that have shaped them Working in the tradition of classics like Betty Friedan's *The Feminine Mystique* and Christopher Lasch's *The Culture of Narcissism* and with an awareness of a readership that turned recent hits like *The Bitch in the House* and Allison Pearson's *I Don't Know How She Does It* into bestsellers Warner offers a context in which to understand parenting culture and the way we live as well as ways of imagining alternatives actual concrete changes that might better our lives
