Lyric Language:

Lyric Generations G. Gabrielle Starr, 2015-11-01 Eighteenth century British literary history was long characterized by two central and seemingly discrete movements the emergence of the novel and the development of Romantic lyric poetry In fact recent scholarship reveals that these genres are inextricably bound constructions of interiority developed in novels changed ideas about what literature could mean and do encouraging the new focus on private experience and self perception developed in lyric poetry In *Lyric Generations* Gabrielle Starr rejects the genealogy of lyric poetry in which Romantic poets are thought to have built solely and directly upon the works of Chaucer Spenser Shakespeare and Milton She argues instead that novelists such as Richardson Haywood Behn and others while drawing upon earlier lyric conventions ushered in a new language of self expression and community which profoundly affected the aesthetic goals of lyric poets Examining the works of Cowper Smith Wordsworth Coleridge and Keats in light of their competitive dialogue with the novel Starr advances a literary history that considers formal characteristics as products of historical change In a world increasingly defined by prose poets adapted the new forms characters and moral themes of the novel in order to reinvigorate poetic practice **Lyric**

Tactics Ingrid Nelson, 2017-01-13 In *Lyric Tactics* Ingrid Nelson argues that the lyric poetry of later medieval England is a distinct genre defined not by its poetic features rhyme meter and stanza forms but by its modes of writing and performance which are ad hoc improvisatory and situational Secular Lyric John Michael, 2018-04-17 *Secular Lyric* interrogates the distinctively individual ways that Poe Whitman and Dickinson transformed classical romantic and early modern forms of lyric expression to address the developing conditions of Western modernity especially the heterogeneity of believers and beliefs in an increasingly secular society Analyzing historically and formally how these poets inscribed the pressures of the modern crowd in the text of their poems John Michael shows how the masses appear in these poets work as potential readers to be courted and resisted often at the same time Unlike their more conventional contemporaries Poe Whitman and Dickinson resist advising sermonizing or consoling their audiences They resist most familiar senses of meaning as well For them the processes of signification in print rather than the communication of truths become central to poetry which in turn becomes a characteristic of modern verse in the Western world Poe Whitman and Dickinson in idiosyncratic but related ways each disrupt conventional expectations while foregrounding language s material density thereby revealing both the potential and the limitations of art in the modern age Lyric Shame Gillian White, 2014-10-13 Gillian White argues that the poetry wars among critics and practitioners are shaped by lyric shame an unspoken but pervasive embarrassment over what poetry is should be and fails to be Lyric is less a specific genre than a way to project subjectivity onto poems an idealized poem that is nowhere and yet everywhere

Giving Voice to Love Judith A. Peraino, 2011-11-28 The lyrics of medieval courtly love songs are characteristically self conscious Giving Voice to Love investigates similar self consciousness in the musical settings Moments and examples where voice melody rhythm form and genre seem to comment on music itself tell us about musical responses to the courtly chanson tradition and musical reflections on the complexity of self expression

Adorno's Poetics of Form Josh Robinson, 2018-05-22 Adorno's Poetics of Form is the first book length examination of the elusive deployment of the concept of form in Adorno's writings on art and literature and the first monograph to offer a comprehensive account of the relation of these writings to his broader philosophical project It examines form within the constellation of concepts that exist around it considering how it appears when seen in conjunction with and in opposition to content expression genre and material Illuminated from these angles form is revealed as the site of a complex web of dynamic conceptual interactions The book thus offers a resolution to a problem in Adorno's work that has remained unsolved for several decades and in doing so sets out the consequences of Adorno's poetics for literary and critical theory today
