Thomas M. Allen

Lyric Time Dickinson The Limits Of Genre:

Lyric Time Sharon Cameron, 1979 *Lyric Time* offers a detailed critical reading of a particularly difficult poet an analysis of the dominance of temporal structures and concerns in the body of her poetry and finally an important original contribution to a theory of the lyric Poised between analysis of Emily Dickinson's poetic texts and theoretical inquiry *Lyric Time* suggests that the temporal problems of Dickinson's poems are frequently exaggerations of the features that distinguish the lyric as a genre It is precisely the distance some of Dickinson's poems go toward the far end of coherence precisely the outlandishness of their extremity that allows us to see magnified the fine workings of more conventional lyrics writes Sharon Cameron *Lyric Time* is written for the literary audience at large Dickinsonians romanticists theorists anyone interested in American poetry or in poetry at all and especially anyone who admires a risky book that succeeds *Time and Literature* Thomas M.

Allen, 2018-03-29 *Time and Literature* features twenty essays on topics from aesthetics and narratology to globalisation and queer temporalities and showcases how time studies often referred to as the temporal turn cut across and illuminate research in every field of literature as well as interdisciplinary approaches drawing upon history philosophy anthropology and the natural sciences Part one Origins addresses fundamental issues that can be traced back to the beginnings of literary criticism Part two Developments shows how thinking about Time has been crucial to various interpretive revolutions that have impacted literary theory Part three Application illustrates the centrality of temporal theorising to literary criticism in a variety of contemporary approaches from ecocriticism and new materialisms to media and archive studies The first anthology to provide a synthesis of recent scholarship on the temporality of literary language from across different national and historical periods *Time and Literature* will appeal to academic researchers and interested laypersons alike **The Lyric**

Theory Reader Virginia Walker Jackson, Yopie Prins, 2014-02 Reading lyric poetry over the past century *The Lyric Theory Reader* collects major essays on the modern idea of lyric made available here for the first time in one place Representing a wide range of perspectives in Anglo American literary criticism from the twentieth and twenty first centuries the collection as a whole documents the diversity and energy of ongoing critical conversations about lyric poetry Virginia Jackson and Yopie Prins frame these conversations with a general introduction bibliographies for further reading and introductions to each of the anthology's ten sections genre theory historical models of lyric New Criticism structuralist and post structuralist reading Frankfurt School approaches phenomenologies of lyric reading avant garde anti lyricism lyric and sexual difference and comparative lyric Designed for students teachers scholars poets and readers with a general interest in poetics this book presents an intellectual history of the theory of lyric reading that has circulated both within and beyond the classroom wherever poetry is taught read discussed and debated today **The Hypocritical Imagination** John Llewellyn, 2008-03-07 For philosophers such as Kant the imagination is the starting point for all thought For others such as Wittgenstein what is important is only how the word imagination is used In spite of the attention the imagination has received from major

philosophers remarkably little has been written about the radically different interpretations they have made of it The HypoCritical Imagination Between Kant and Levinas is an outstanding contribution to this vacuum Focusing on Kant and Levinas John Llewelyn takes us on a dazzling tour of the philosophical imagination He shows us that despite the different treatments they accord to the imagination there is much to be gained from comparing these two key thinkers From Kant Llewelyn shows how the imagination is the common root of all understanding He contrasts this with the thought of Emmanuel Levinas for whom the imagination plays an ambivalent role both as necessary for and a threat to recognition of the other John Llewelyn also introduces the importance of the work of Heidegger Schelling Hegel Arendt and Derrida on the imagination and what this work can tell us about the relationship between the imagination and ethics aesthetics and literature The HypoCritical Imagination Between Kant and Levinas is a brilliant reading of a neglected but important philosophical theme and is essential reading for those in contemporary philosophy art theory and literature

Writing Pain in the Nineteenth-Century United States Thomas Constantinesco, 2022-02-17 *Writing Pain in the Nineteenth Century United States* examines how pain is represented in a range of literary texts and genres from the nineteenth century US It considers the aesthetic philosophical and ethical implications of pain across the works of Ralph Waldo Emerson Harriet Jacobs Emily Dickinson Henry James Elizabeth Stuart Phelps and Alice James as the national culture of pain progressively transformed in the wake of the invention of anesthesia Through examining the work of nineteenth century writers Constantinesco argues that pain while undeniably destructive also generates language and identities and demonstrates how literature participates in theorizing the problems of mind and body that undergird the deep chasms of selfhood sociality gender and race of a formative period in American history *Writing Pain in the Nineteenth Century United States* considers first Emerson's philosophy of compensation which promises to convert pain into gain It also explores the limitations of this model showing how Jacobs contests the division of body and mind that underwrites it and how Dickinson challenges its alleged universalism by foregrounding the unshareability of pain as a paradoxical measure of togetherness It then investigates the concurrent economies of affects in which pain was implicated during and after the Civil War and argues through the example of James and Phelps for queer sociality as a response to the heteronormative violence of sentimentalism The last chapter on Alice James extends the critique of sentimental sympathy while returning to the book's premise that pain is generative and the site of thought By linking literary formalism with individual and social formation *Writing Pain in the Nineteenth Century United States* eventually claims close reading as a method to recover the theoretical work of literature

At the Brink of Infinity James E. von der Heydt, 2008-04 From popular culture to politics to classic novels quintessentially American texts take their inspiration from the idea of infinity In the extraordinary literary century inaugurated by Ralph Waldo Emerson the lyric too seemed to encounter possibilities as limitless as the US imagination This raises the question What happens when boundlessness is more than just a figure of speech Exploring new horizons is one thing but actually looking at the horizon

itself is something altogether different In this carefully crafted analysis James von der Heydt shines a new light on the lyric craft of Emily Dickinson Robert Frost Elizabeth Bishop and James Merrill and considers how their seascape vision redefines poetry's purpose Emerson famously freed U S literature from its past and opened it up to vastness in the following century a succession of brilliant rigorous poets took the philosophical challenges of such freedom all too seriously Facing the unmarked horizon Emersonian poets capture and are captured by a stark astringent version of human beauty Their uncompromising visions of limitlessness reclaim infinity's proper legacy and give American poetry its edge Von der Heydt's book recovers the mystery of their world
