M M Thomas Reader Selected Texts On Theology Religion And Society:

M. M. Thomas Reader Madathilparampil Mammen Thomas,2002 *The Life, Legacy and Theology of M. M. Thomas* Jesudas M. Athyal,George Zachariah,Monica Melanchthon,2016-04-20 M M Thomas was one of the chief architects of the modern ecumenical movement An outstanding theologian his original and rather unconventional explorations into ecumenical social ethics remain highly relevant even today Long before liberation theology burst on the scene Thomas raised his prophetic voice for the liberation of humanity from the dehumanizing structures Focusing on the theological and social contributions of M M Thomas and his legacy for our times and published with the support of the Council for World Mission to coincide with the centenary of Thomas birth this collection brings together an international panel of distinguished scholars theologians and church leaders **Encounter Between Marxian Philosophy and Theology of Humanisation in India** Mervin Shinoj Boas,2007 **The Spirit Shaped Church** Swarup Bar,2021-02-23 In The Spirit Shaped Church Swarup Bar argues that the church is defined by its relationship with others A relational church depends on the porousness of its borders which means that while a church has its distinctiveness it ought to be open to negotiate relational engagements with the world around it This sort of relationally distinct permeable church is found to be possible through the leading of the Spirit and the work of Christ Such engagement is found to be relevant in a plural religio cultural context and in situations of marginalization in India The Spirit Shaped Church reflects an ongoing commitment on the part of Fortress Press to engage the needs of Christian communities around the world The book is aimed at teachers clergy students and anyone with an interest in the lived experience of Christians in India **Pentecostal Theological Education in the Majority World, Volume 1** Dave Johnson,Rick Wadholm Jr.,2023-03-23 There remains a considerable gap in discussion of Pentecostal theological education in and by the Majority World This volume seeks to fill that gap and offer ways for such conversations to progress among educators and institutions globally Theological education may be conceived in broad terms as inclusive of discipleship within the local church for instance yet the phrase is used in this volume regarding formal engagement within higher education that is specifically focused on theological development and discipleship within the academic disciplines This volume takes up an initial foray into the narrow approach in seeking to address those persons institutions and organizational bodies concerned with the graduate post graduate levels of theological education with the intent of a following volume more specific to the undergraduate bachelor s and certificate levels of higher education The further intent is to include a third volume on non formal theological education which is critical for the continuance of the global Pentecostal Charismatic revival The collection of essays included in this volume represent a diverse authorship globally as seeking to address pertinent issues of Pentecostal theological education in the Majority World The opening contributions by Gary Munson Vee J Doyle Davidson and Amos Yong offer introductory observations and underlying theological and socio cultural underpinnings for better engaging Pentecostal theological education in the Majority World Dave Johnson and Josfin Raj each carry the

conversation into areas of advancing research engagement and maturation that may be imported local or globalized and make good use of the tools available in each context The three chapters by Daniel Topf Peter White and Jeremiah Campbell provide histories and prospective futures in several Majority World contexts across regions of Africa and Latin America A volume such as this would be remiss to not have a contribution speaking to the role of the Holy Spirit in theological education Temesgan Kahsay provides just such an essay that seeks to consider ways in which the Spirit has and ought to be more directly engaged through the educational processes The volume is rounded out by the chapter of Dean D O Keefe and Jacqueline N Grey that provides some biblical theological reflections drawn from the exilic and post exilic texts of the Old Testament as bases for reflecting upon Pentecostal practices in conversation with Scripture **Believing Without**

Belonging? Vinod John, 2020-11-19 This study examines an indigenous phenomenon of the Hindu devotees of Jesus Christ and their response to the gospel through an empirical case study conducted in Varanasi India It analyzes their religious beliefs and social belonging and addresses the ensuing questions from a historical theological and missiological perspective The data reveals that the respondents profess faith in Jesus Christ however most remain unbaptized and insist on their Hindu identity Hence a heuristic model for a contextualized baptism as Guru diksha is proposed The emergent church among Hindu devotees should be considered from the perspective of world Christianity as a disparate form of belonging while remaining within one's community of birth The insistence on a visible church and a distinct community of Christ's followers is contested because the devotees should construct their contextual ecclesiology since it is an indigenous discovery of the Christian faith Thus the Christian label for the adherents is dispensable while retaining their socio ethnic Hindu identity Christian mission should discontinue extraction and assimilation instead missional praxis should be within the given sociocultural structures recognizing their idiosyncrasies as legitimate in God's eyes and in need of transformation like any human culture

Interrogating the Language of "Self" and "Other" in the History of Modern Christian Mission Man-Hei Yip, 2020-08-05 This book offers a critical analysis of the use of language in mission studies Language and Christian missionary activity intersect in complicated ways to objectify the other in cross cultural situations Rethinking missiological language is both urgent and necessary to subvert narratives that continue to fetishize the other as cultural stereotypes The project takes a step forward to reconceptualize otherness as gift and such an affirmation should create a pathway for human flourishing and furthermore open new avenues for missiological exploration to address issues arising from a world dominated by bigoted discourses lies and hate speech **Contextualization, a Re-reading of M.M. Thomas** G. Shiri, 2007

Festschrift for Dr Madathilparampil M Thomas 1916-1996 Indian theologian on his 10th death anniversary contributed articles *Dalit Theology after Continental Philosophy* Y.T. Vinayaraj, 2016-07-15 This book steeped in the traditions of both postcolonial theory and Continental philosophy addresses fundamental questions about God and theology in the postcolonial world Namely Y T Vinayaraj asks whether Continental philosophies of God and the other can attend to the struggles that

entail human pain and suffering in the postcolonial context The volume offers a constructive proposal for a Dalit theology of immanent God or de othering God as it emerges out of the Lokayata the Indian materialist epistemology Engaging with the post Continental philosophers of immanence such as Gilles Deleuze Giorgio Agamben Catherine Malabou and Jean Luc Nancy Vinayaraj explores the idea of a Dalit theology of God and body in the post Continental context The book investigates how there can be a Dalit theology of God without any Christian philosophical baggage of transcendentalism The study ends with a clarion call for Indian Christian Theology to take a turn toward an immanence that is political and polydoxical in content

M.M. Thomas's Secular Commentaries on Scripture Thomas Philip, 2025-08-18 This book investigates M M Thomas s biblical commentaries and their unique position at the intersection of religion and society It explores how Thomas inspired in part by Bonhoeffer s religionless Christianity adapted Western theological ideas and transformed them to reflect the social political and religious complexities of his own pluralistic context By examining these commentaries the book offers a fresh perspective on how Thomas engaged with the dynamic relationship between faith and society It also contributes a new dimension to the study of Indian Christianity marking the first in depth study of Thomas s secular biblical commentaries This book provides a pioneering contribution to the field of the study of Indian Christianity and the study of non Western contextual theologies It enriches the growing literature on biblical hermeneutics by offering new insights into how scripture can be interpreted in diverse cultural and political contexts By focusing on Thomas s unique theological approach this work not only enhances our understanding of Indian Christian thought but also broadens the scope of contemporary theological studies particularly within the global South It invites readers to consider how the intersection of theology and society shapes religious thought in pluralistic settings This book is intended for scholars graduate students and those involved in church studies as well as anyone interested in contextual theology and hermeneutics It is especially relevant for readers keen on understanding Indian Christianity and exploring how theology interacts with the social and political issues present in non Western contexts The book will appeal to those looking to deepen their understanding of how faith adapts to and engages with the complexities of modern society
