Maadi 1904-1962 Society And History In A Cairo Suburb:

Maadi Annalise J.K. DeVries, 2021-03-23 A fresh perspective on the global economic influences that shaped modern Egypt through the history of an affluent Cairo suburb Maadi In the early years of the twentieth century a group of Egypt's real estate and transportation moguls embarked on the creation of a new residential establishment south of Cairo The development was to epitomize the latest in community planning merging attributes of town and country to create an idyllic domestic retreat just a short train ride away from the busy city center They called the new community Maadi after the ancient village that had long stood on the eastern bank of the Nile Over the fifty years that followed this new modern Maadi would be associated with what many believed to be the best of modern Egypt spacious villas lush gardens popular athleticism and most of all profitability Maadi The Making and Unmaking of a Cairo Suburb 1878-1962 explores Maadi's foundation and development identifying how foreign economic privileges were integral to fashioning its idyllic qualities While Maadi became home to influential Egyptians including nationalists and royalty it always remained exclusive too exclusive to appeal to the growing number of lower income Egyptians making homes in the capital Annalise DeVries shows how Maadi's history offers a fresh perspective on the global economic influences that shaped modern Egyptian history as they helped configure not only the country's politics but also the social and cultural practices of the well-to-do Ultimately the means of Maadi's appeal also paved the path for its undoing When foreign tax and legal privileges were abolished Maadi too became untethered from a vision for Egypt's future and instead appeared more and more as a figure of the country's past Maadi 1904-1962 Samir W. Raafat, 1994

The Cairo Genizah and the Age of Discovery in Egypt Rebecca J. W. Jefferson, 2022-01-27 The Cairo Genizah is considered one of the world's greatest Hebrew manuscript treasures Yet the story of how over a quarter of a million fragments hidden in Egypt were discovered and distributed around the world before becoming collectively known as The Cairo Genizah is far more convoluted and compelling than previously told The full story involves an international cast of scholars librarians archaeologists excavators collectors dealers and agents operating from the mid nineteenth to the early twentieth century and all acting with varying motivations and intentions in a race for the spoils Basing her research on a wealth of archival materials Jefferson reconstructs how these protagonists used their various networks to create key alliances or to blaze lone trails each one on a quest to recover ancient manuscripts Following in their footsteps she takes the reader on a journey down into ancient caves and tombs under medieval rubbish mounds into hidden attic rooms vaults basements and wells along labyrinthine souks and behind the doors of private clubs and cloistered colleges Along the way the reader will also learn about the importance of establishing manuscript provenance and authenticity and the impact to our understanding of the past when either factor is in doubt **Edmond Jabes and the Hazard of Exile** Steven Jaron, 2017-12-02 For a man who no longer has a homeland writing becomes a place to live Theodor Adorno The Jewish writer Edmond Jabes born in Cairo in 1912 wrote explicitly from the perspective of exile once he arrived in France after the Suez crisis However Jaron argues

exile was a predominant theme even before Jabes left Egypt He brings to light the author's associations with other francophone writers in Egypt especially those affiliated with the Surrealists but shows that metropolitan France exerted a greater pull Drawing on unpublished archival and rare printed sources Jaron examines how Jabes opposed anti-Semitism during the 1930s and later placed the Shoah at the heart of his acclaimed *Livres des Questions* 1963 73 **The Urban Social History of the Middle East, 1750-1950** Peter Sluglett, 2008-12-08 The great cities of the Middle East and North Africa have long attracted the attention and interest of historians With the discovery and wider use over the last few decades of Islamic court records and Ottoman administrative documents our knowledge of Middle Eastern cities between the seventeenth and early twentieth centuries has vastly expanded Drawing upon a treasure trove of documents and using a variety of methodologies the contributors succeed in providing a significant overview of the ways in which Middle Eastern cities can be studied as well as an excellent introduction to current literature in the field Historical Dictionary of Egypt Arthur Goldschmidt, Jr., 2013-10-10 Egypt was the first non-Western country to undergo an industrial revolution It was a major commercial center during the 19th and early 20th centuries It was one of the first countries to have albeit briefly a constitutional government Its struggle for independence was among the earliest in the non-Western world Its capital Cairo has served as a headquarters and a meeting place for nationalist leaders Its schools and universities attracted students from many other African and Asian countries For the Arab world its educational and legal institutions set the pattern that most other Arabic-speaking countries have followed Its books magazines and newspapers circulate widely Its radio and television broadcasting became the model for other Arab states The leadership of Jamal Abd al Nasir and Anwar al Sadat profoundly influenced other Arab and Third World leaders And the demonstrations in Cairo's Tahrir Square became the iconic movement for the so-called Arab Spring in the rest of the Middle East This fourth edition of *Historical Dictionary of Egypt* covers its history from its emergence as an independent actor during the reign of Ali Bey 1760-1772 up to and including the first two years of the Arab Spring February 2013 This is done through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross-referenced entries on persons events institutions political groups economic and social conditions policies relationships with other countries ideas religions ideologies and commodities relevant to the modern history of Egypt This book is an excellent access point for students researchers and anyone wanting to know more about Egypt Hunting in the Shadows Seth G. Jones, 2012-04-30 From one of our most trusted counterterrorism experts a sweeping insider's account of the decade-long chase for America's deadliest enemy This landmark history chronicles the dramatic decade-long war against al Qaeda and provides a model for understanding the ebb and flow of terrorist activity Tracing intricately orchestrated terrorist plots and the elaborate multiyear investigations to disrupt them Seth G Jones identifies three distinct waves of al Qaeda violence As Jonathan Mahler wrote in the *New York Times Book Review* studying these waves and the counterwaves that repelled them can tell us a lot about what works and what doesn't

when it comes to fighting terrorism The result is a sweeping insider's account of what the war has been and what it might become

The British in Egypt Lanver Mak, 2012-02-28 Egypt during the British occupation 1882-1922 was a strategically important site for securing British interests in the region Most studies of Britons in Egypt during the occupation focus on the lives and activities of law-abiding British military and political elites Using a variety of primary sources this book deepens our understanding of the hidden British community beyond these elites the lower and working classes and those engaged in crime and misconduct by bringing to light their demographic profile socio-occupational diversity criminal activities and varying responses to the crises represented by World War I and the revolutionary period of 1919-1922 It will be essential reading for historians of British imperialism Egypt and the Middle East Alexandria Michael Haag, 2004-01-01 This book is a literary social and political portrait of Alexandria at a high point of its history Drawing on diaries letters and interviews Michael Haag recovers the lost life of the city its cosmopolitan inhabitants and its literary characters Located on the coast of Africa yet rich in historical associations with Western civilization Alexandria was home to an exotic variety of people whose cosmopolitan families had long been rooted in the commerce and the culture of the entire Mediterranean world Alexandria famously excited the imaginations of writers and Haag folds intimate accounts of E M Forster Greek poet Constantine Cavafy and Lawrence Durrell into the story of its inhabitants He recounts the city's experience of the two world wars and explores the communities that gave Alexandria its unique flavor the Greek the Italian and the Jewish The book deftly harnesses the sexual and emotional charge of cosmopolitan life in this extraordinary city and highlights the social and political changes over the decades that finally led to Nasser's Egypt

Victoria College : A history revealed Sahar Hamouda, Colin Clement, 2002 This book is at once the history of a remarkable and fascinating phenomenon a British style public school rooted in Egyptian soil boasting such alumni as King Hussein of Jordan Omar Sharif and Edward Said and a reflection of the spirit of Alexandria during the first half of the twentieth century Its publication in October 2002 is timed to coincide with the school's centenary Victoria College Alexandria founded in October 1902 was named after the British queen Victoria who had died the year before It was the brainchild of a group of British businessmen who formed the nucleus of Alexandria's small British community Deliberately fashioned as an independent secular school open to anyone who could afford its fees it attracted the children both of the elite royalty diplomats magnates politicians landowners and of very ordinary people Its pupils came not only from all over Egypt but from the entire Middle East and beyond This immensely readable history is in the first place a book about and for the Old Victorians In a series of colorful sketches backed by plentiful quotation from documents in the school archives a series of engaging and distinguished characters come to life not least Victoria's first two headmasters C R Lias and his successor R W G Reed the two men whose enlightened vision and skillful leadership made the school what it was Yet at the same time this is a book whose appeal extends far beyond its immediate subject matter In the process of putting together the story of a school the authors have uncovered a wealth of

material that will interest Middle East and postcolonial scholars as well as educationists social historians and students of human nature
