Aldo Bakker

Maarten Van Severen Work:

Maarten Van Severen Geert Bekaert, 2000 This book is considered an intrinsic part of the Belgian furniture designer's oeuvre and offers a comprehensive overview of his many creations and inspirations through photomontage slideshows of images and an essay by Geert Bekaert. It shows how his ascetic tables, chairs, lamps, wardrobes and more designed for great simplicity and with modern materials are synonymous with the feeling of a contemporary life. **Maarten Van Severen**

Chair Aldo Bakker, 2019-11-30 In 2015 The Maarten Van Severen Foundation and the Department of Design of KASK School of Arts Ghent decided to establish a chair with the aim of conveying the relevance and significance of Maarten Van Severen's work for today's designers. Every year a leading designer whose work has an affinity with the work of Maarten Van Severen will give a lecture and a masterclass. He or she will reflect on the common ground between their work and that of Maarten Van Severen and on the qualities of his work in light of the current design culture. The first edition was in the hands of Erwan Bouroullec. The second edition was done by Alfredo Haberli. In February/March 2018 Dutch designer Aldo Bakker gave a lecture and a masterclass with 14 students from 6 different schools. The result is a fascinating collection of cutlery which we proudly present as the third MVSC Cahier the 6th of March at Miry Concert hall in Ghent. It contains a transcription of Aldo Bakker's lecture, an interview with Bakker and a visual overview of the masterclass that documents the students' progress.

Dwell, 2005-07 At Dwell we're staging a minor revolution. We think that it's possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being. We think that good design is an integral part of real life. And that real life has been conspicuous by its absence in most design and architecture magazines. **Superstories** Koos Flinterman, 2009-07-27 The Hasselt Triennial is a dynamic art project for contemporary art, fashion and design and all possible relations between them. The current edition SuperStories has

international ambitions and comes with a range of interesting exhibitions which are linked to performing arts. The triennial program with works by 50 national and international artists, fashion designers, designers responds to the use of narrative and documentary elements within contemporary art, fashion and design. The stage for the triennial is the city of Hasselt, Belgium, consisting of a course along different culture houses: cultuurcentrum Hasselt, Modemuseum, Nationaal Jenevermuseum, Kunstencentrum Z33 and CIAP. The exhibition catalogue SuperStories does not only show the exhibited objects but reflects in a broader context on the relationship between the various visual arts disciplines. **Chroma** Barbara Glasner, Petra

Schmidt, 2009-10-16 Designers and architects have to make decisions regarding color every day. But how does one find the necessary inspiration? The appropriate color. How do other designers and artists deal with the issue? With Chroma, the Greek word for color, as its title, this illustrated book provides answers to these questions and makes it clear that color is much more than mere decoration; it is one of the central problems of creative work. In the process, Chroma embraces the sensuous experience of color, inspiring and seducing the reader with unusual projects from industrial products to color field painting.

The book presents works by younger designers like Stefan Diez and Arik Levy as well as famous artists like Ellsworth Kelly. All of the works are presented in large scale reproductions and also in a kind of color gradient in which they are assigned to the chapters monochromatic multichromatic and achromatic. The spectrum encompasses all conceivable shades and combinations from brilliant and colorful through tasteful and subdued all the way to black and white contrasts. An additional chapter analyzes the work of outstanding artists, architects and designers like Gerhard Richter, Konstantin Grcic and Sauerbruch Hutton who grapple with color to an unusual degree and have formulated characteristic chromatic worlds. An alphabetical index provides background information on the artists and studios selected.
