Mabive Retaliation:

Strategic Thinking Philip Windsor, 2002 Windsor 1935 2000 retired from over 30 years at the London School of Economics in 1997 In his final book he introduces some of the principle features of strategic thought during the Cold War for students of international relations and general readers He thinks it is time to examine and question the validity of a complex of thinking that he along with many others took entirely for granted for a long time Berdal and Economides are with the International Institute for Strategic Studies Annotation copyrighted by Book News Inc Portland OR

Massive Retaliation Paul Peeters, 1959 Foundation For Foreign Affairs Series No 2 The Soviet View of U.S. Strategic Doctrine Jonathan Samuel Lockwood, 1983-01-01 Soviet perceptions of American strategic doctrine have influenced then use of military power in foreign policy An understanding of how those perceptions are being derived at and of their specific contents is therefore essential to any reflection on direction that American defense policy should take Particularly in the field of arms control and disarmament Soviet perceptions carry severe implications for U S proposals as well as general behavior Lockwood bases his examination on Soviet sources such as newspapers periodicals radio broadcasts and books He establishes that Soviet analysts tend to project their own notions of clear strategy onto U S doctrine and intentions Starting from the premise that the Soviets mean what they say Lockwood is able to give a historical account of Soviet perceptions starting from massive retaliation up to and including Presidential Directive 59 In his final chapter the author gives possible policy strategies to successfully counteract the Soviet military policy

Military Realism Peter Campbell, 2019-05-08 After the Vietnam War the U S Army considered counterinsurgency COIN a mistake to be avoided Many found it surprising then when setbacks in recent conflicts led the same army to adopt a COIN doctrine Scholarly debates have primarily employed existing theories of military bureaucracy or culture to explain the army s re embrace of COIN but Peter Campbell advances a unique argument centering on military realism to explain the complex evolution of army doctrinal thinking from 1960 to 2008 In five case studies of U S Army doctrine Campbell pits military realism against bureaucratic and cultural perspectives in three key areas nuclear versus conventional warfare preferences for offense versus defense and COIN missions and finds that the army has been more doctrinally flexible than those perspectives would predict He demonstrates that decision makers while vowing in the wake of Vietnam to avoid COIN missions nonetheless found themselves adapting to the geopolitical realities of fighting low intensity conflicts In essence he demonstrates that pragmatism has won out over

dogmatism At a time when American policymakers remain similarly conflicted about future defense strategies Campbell's work will undoubtedly shape and guide the debate

Eisenhower and the Missile Gap Peter Roman, 2019-05-15 Uncertainty about Soviet intentions and capabilities after the launch of Sputnik required changes in U.S. strategic nuclear policy Peter J. Roman draws from recently declassified archives to examine one of the most unstable periods in the Cold War Roman argues that presidential leadership from 1957 to 1960 was crucial to national security Dwight D. Eisenhower was he argues actively involved in all nuclear policy making His responses to the extreme uncertainty of the late 1950s shaped American nuclear policy for decades and in its internal deliberations his administration anticipated much of the subsequent public debate Eisenhower and the Missile Gap investigates a variety of issues actors and institutions to explain how a government deals with high levels of technological uncertainty Several significant themes emerge the evolution of American perceptions of vulnerability problems in intelligence collection and analysis the integration of new weapons systems into strategy the influence of the armed forces the impact of organizational interests on policy and force decisions Eisenhower's internal and external leadership style and presidential management of defense and foreign policy

Documents on Disarmament United States. Arms Control and Disarmament Agency, 1979 *Documents on Disarmament*, 1979

The State, Society, and Limited Nuclear War Eric Mlyn, 1995-02-01 This book highlights the role that domestic politics has played in the evolution of U.S. nuclear weapons policy up to the present Mlyn focuses on the relationship among the three levels of this policy public statements force posture and nuclear targeting He shows that although state officials since 1960 maintained a policy of Mutual Assured Destruction (MAD) in public U.S. nuclear targeting in fact embraced Nuclear Utilization Theory (NUTS) Because this view of using nuclear weapons to fight a limited nuclear war was unpopular with the public however state officials did not articulate it fully until the early 1980s Thus although the Reagan administration was accused of radically changing nuclear weapons policy it was actually continuing a long trend more openly Drawing on theories of the state archives and interviews with top defense policymakers this book tells an important story of interest to any reader concerned with how security policy is fashioned in the United States
