Coursen, 1995 Reading Shakespeare on Stage offers a straightforward set of criteria whereby anyone from the first time playgoer to the most experienced Shakespearean scholar may evaluate his or her response to a production of one of Shakespeare's scripts This articulation of response is not a by product of going to the theater but a central part of the experience The invitation to response is a function of Shakespeare's stage which was open to the audience on three sides and is incorporated into his scripts through soliloquies asides and references to Shakespeare's stage and his dramaturgy The concept of script as opposed to text makes possible an approach to Shakespeare's plays as plays a function to which their literary quality is subordinate That fact however does not mean that recent critical tendencies are irrelevant to the scripts Feminist and historicist readings of the plays are contextualized in and by the ongoing energy system of production It remains true however that many members of the growing audience for live performances can not determine what may have been strong or weak about a given production The size and shape of the stage and the size of the auditorium for example define what can occur within the given space but few spectators take that crucial factor into account Reading Shakespeare on Stage provides the criteria for evaluation while at the same time admitting that the criteria themselves are subject to debate and that their application emerges from the subjective psychology of perception of individual spectators BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved The Dramatic Works of William Shakespeare: Adapted for Family Reading by T.
